5G Demo: Ping Pong

Revolutionizing consumer experiences with 5G

Opportunity

5G will greatly improve our lives, allowing each of us to make better use of our time, enjoy personalized experiences, be entertained in ways we haven't imagined and experience extraordinary moments.

Description

This demo invites visitors to experience the 5G capabilities of ultra-low latency and exponentially higher speeds in a hands-on gaming application. This will be a fun experience that will make a very important point about how and why the capabilities of 5G will revolutionize consumer experiences.
Play "Ping Pong" against an opponent in VR (Virtual Reality) environment and see the advantages of 5G in gaming experiences.
