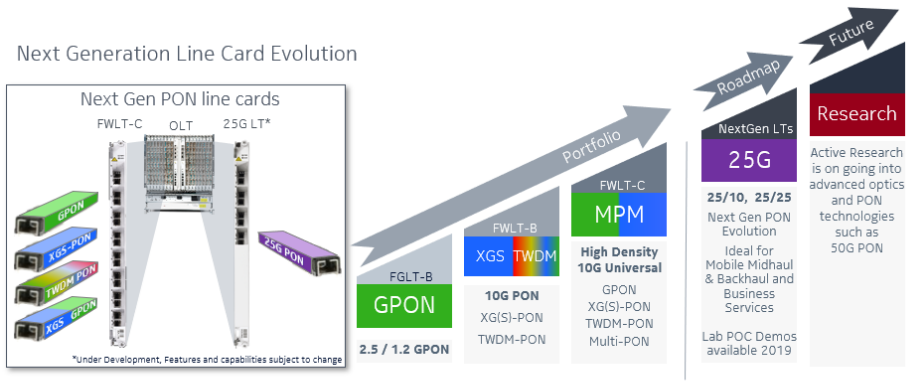
Nokia Fiber Evolution

10G XGS-PON, 25G PON and MPM/Combo

The Next Generation PON game is on

- 5G readiness
- Market leading speeds
- Service convergence

New fiber cards for increased density and higher speeds



Nokia's OLT platforms are NG PON ready with universal line cards that enable your NG PON flavor based on optics selection

- GPON card with 32 ports
- GPON/XGS-PON combo card with 16 ports
- 25G PON card with 8 ports
- Quillion chipset family to power next generation massive scale access

Add Next Generation PON where and when needed
