

## ★ Our Mission ★

National Health Corps fosters healthy communities by delivering and connecting **those who need it most** with **health and wellness education, benefits and services**, while developing tomorrow's **compassionate health leaders**.

## What We Do

Our members help build healthy communities by providing two main services:

### 1. education

55,469

people served in 2015

Educating kids and adults about disease prevention and management, and overall wellness that gives them the knowledge and skills they need to make smart choices about their health.

### 2. access

34,737

people served in 2015

Providing and connecting kids and adults with health and social services in their communities that help them lead healthier lives.

#### Health Benefits and Services

Enrolling and connecting kids and adults into health insurance, prescription drug and other health benefit programs.

#### Social Services

Enrolling and connecting kids and adults with social services such as transportation, housing and food assistance.

#### Health Screenings

Providing health screenings such as vision and dental, heart and respiratory disease, diabetes, and HIV/AIDS.

## How We Do It

Through our partnership with AmeriCorps, each year National Health Corps recruits, trains and places emerging leaders in resource-limited organizations throughout Chicago, North Florida, Philadelphia and Pittsburgh. Members improve health outcomes in underserved communities by developing and implementing programs as well as training volunteers and staff.

**In 2015, 88 National Health Corps members served in 60 organizations nationwide, reaching 90,206 kids and adults.**
