at VICAS and Nurse Streams

CONOR LYNCH
Digital Business expert. As well as helping to launch Ireland's first internet only bank, RaboDirect, Conor has launched many brandsand knows what success and failure looks like. Having appeared on RTE News, BBC Newsline and several Newstalk shows has been quoted in the Irish Times, Irish Independent and the Sunday Business Post.

RONAN MULLINS
Ronan Mullins graduated from University College Dublin in 2011. He completed a one year rotating internship at Davies Veterinary Specialists in October 2012. He worked as a general practitioner for 18 months in a small animal referral orthopaedic clinic in County Armagh before undertaking a four-year professional doctorate and residency in small animal surgery at University College Dublin in May 2014.

CLAIRE DEROY
Claire graduated from the University of Liège in Belgium (ULG) in 2012 with a first class honors Bachelor of Veterinary Medicine Degree. She wanted to further her skills and therefore went in the veterinary school of Lyon (France) to do a rotating internship. She continued in this school with a surgical internship associated with a master of research on biomechanics at the University of Lyon.

As part of the team there she managed with her supervisor a busy soft tissue, orthopaedic and emergency caseload. She worked as well in an emergency clinic where she managed all the surgical cases. As she is passionate about surgery and wished to continue her training by a residency in small animal surgery, she moved to Ireland to the University Veterinary Hospital UCD to undertake a second surgical internship.

VENUE & SOCIAL

RADISSON HOTEL GALWAY
VICAS returns to the Radisson Hotel Galway, located in the heart of the city centre. The event, running over 3 days will make this hotel its home.

WELCOME

Colleagues,

What a pleasure it is to welcome you all to Galway for our annual flagship event, the 2015 VICAS Annual Conference. With our hosting of the European Companion Animal Veterinary Congress behind us we have reverted back to our usual more sociable 3 day format. We also once again are running a veterinary nursing stream with topics to complement the veterinary stream, allowing the whole practice team to go home armed with knowledge that will benefit our day to day activities.

In addition, we warmly welcome our CAVI colleagues who are holding a one day sheep medicine & flock health day and we hope that many will remain on for the following 2 days of exciting and interesting companion animal CPD.

Noel Fitzpatrick, aka 'Supervet' or 'The Bionic vet', will keep us all enthralled with his immense knowledge and enthusiasm, and will challenge us to examine our orthopaedic and neurologic approaches and our decision making, as well as showing us some of the magic that can be done. Manuel Magalhães-Sant'An will challenge our ethical compass and help us rationalise our decision making process as it relates to the benefits of modern veterinary interventions and how we assess if these novel procedures are ultimately in the best interest of the animal. Brian Faulkner, who was truly excellent when speaking at the European Congress in Dublin, will hone our business knowledge and skills ensuring that we have concrete knowledge we can take home to help our businesses recover and prosper with this being complemented by a keynote lecture from Conor Lynch of Social Media Ireland who will give us the expert rundown on how we can maximise the potential of what we have available to us for free - the internet and social media

The veterinary nursing stream (which joins the veterinary practitioner stream on Saturday evening for the social media keynotes) will complement all of the above, with additionally our UCD colleagues Ronan Mullins and Claire Derooy delivering excellent and highly relevant lectures on orthopaedics that will be attractive for veterinary practitioners to attend if they so wished.

We sincerely hope that you enjoy our conference as well as meeting up with colleagues and old friends. It's fun to learn!

Alan Rossiter
2015 Conference Chairperson

PRELIMINARY PROGRAMME

FRIDAY 30 JAN			SATURDAY 31 JAN - RADISSON HOTEL				SUNDAY 1 FEB - RADISSON HOTEL	
CAVI SHEEP MEDICINE & FLOCK HEALTH DAY  <i>Morning sessions are at Teagasc Athenry</i>			VICAS WINTER CONFERENCE CONT...		NURSE SESSION 		VICAS WINTER CONFERENCE CONT...

SPEAKERS

at VICAS and Nurse Streams

BRIAN FAULKNER
Brian has worked in over 250 veterinary practices as a clinician, consultant and confidence coach. He set up, developed and sold a cluster of veterinary practices in the Woodbridge area of Suffolk between 2002 and 2009. He opened his fourth practice in 2013. He was the Petplan Vet of the Year in 2008. He is a SPVS officer in charge of their CPD programme. He is the creator of the ‘Colourful Culture’ series which includes the Colourful Consultation, the Colourful Receptionist and the Confidence Chromosome.

NOEL FITZPATRICK
Noel Fitzpatrick is a pioneering Irish neuro-orthopaedic veterinary surgeon. He currently operates a veterinary referral center of some 100 employees, called Fitzpatrick Referrals, Surrey, England, with state of the art orthopaedic procedures.

MANUEL MAGALHÃES-SANT'ANA
Manuel Magalhães-Sant'Ana received his DVM in 2001, his MSc in Bioethics in 2008, and his PhD in Veterinary Ethics Education in 2014, all from the University of Porto, Portugal. He has been involved in veterinary education for the last 10 years and was part of the FVE/EAEVE working group to develop a core European veterinary curriculum in animal welfare. He is currently in recipient of the VCI Newman Fellowship in Veterinary Ethics at UCD, and supervised by Dr. Alison Hanlon. He is mostly interested in exploring the relation between animal ethics and veterinary professional ethics.
