

Thailand Data Analytics for Clinical Intelligence Roadshow

Samitivej Srinakarin Hospital, 24 November 2015

Hosted by Bangkok Dusit Medical Services (BDMS) at the Samitivej Srinakarin Hospital, this roadshow attracted >120 attendees from 20 unique organizations in Thailand. The roadshow was followed by a 3-hour EMRAM workshop conducted by John Daniels, CNM, FACHE, FHIMSS, CPHIMS, Global Vice President, Healthcare Advisory Services Group, HIMSS Analytics.

The roadshow opened with a welcome address from Dr. Mike McCoy, CMIO, BDMS and a power panel discussion titled **Establishing Standards for the Collection of Data and Analysis to Generate Intelligent Clinical Outcomes: Challenges and Breakthroughs in Thailand.**

Panelists were:

- John Daniels, CNM, FACHE, FHIMSS, CPHIMS, Global Vice President, Healthcare Advisory Services Group, HIMSS Analytics (moderator)
- Dr. Boonchai Kijsanayotin, Health Systems Research Institute, MoPH and AeHIN co-chair
- Dr. Nares Damrongchai, CEO, Thailand Center of Excellence for Life Sciences (TCELS)
- Dr. Tullawat Pacharapha, COO, Vejthani Hospital
- Dr. Surapong Ambhanwong, Chief Medical and International Business Officer (CMIO), Phyathai Group of Hospitals

Panelists shared about the challenges they faced with data analysis from the private and public perspectives. Key challenges included data silos, change management and benefits realization.

After the morning networking tea break, Dr. Mike McCoy, CMIO, BDMS and Dr. James Miser, CMIO Bumrungrad International took the stage to share case studies on how their organizations are embracing technology and leveraging data analytics to improve care outcomes. The roadshow concluded with a presentation from Prof. Dr. Wasun Chantratita, Head of Medical Genome Center, Ramathibodi Hospital, Mahidol University on success stories in genomic medicine in Thailand. Dr. Wasun is currently partnering with TCELS to advance projects such as the Pharmacogenomics project, fast becoming the blueprint for the future of personalized medicine for Thailand.

This roadshow enabled us to re-connect with our Thai audience and to introduce HIMSS ASiaPac16, which will be held in Bangkok come August 2016.

More information about this event can be found at www.himssasiapacconference.org.

Thailand Pre-Conference Roadshow

Queen Sirikit National Convention Centre, 10 June 2015

Held at Queen Sirikit National Convention Centre in Bangkok, this well-received event attracted 70+ attendees and speakers, including the senior management team at HIMSS.

HIMSS President and Chief Executive Officer, Mr. Steve Lieber, gave the opening introduction and welcome address. During his introduction, Steve shared about the HIMSS Value Suite and how EMRAM adoption can drive IT procurement, seamless integration and both clinical and commercial outcomes in a structured manner.

Dr. Choosna Makarasarn, President of the Thai Medical Informatics Association (TMI) shared insights into the IT adoption situation in Thailand. Chief Medical Informatics Officers (CMIOs) are still far and few between; Associate Professor Low Cheng Ooi, Chief Medical Informatics Officer, MOH Holdings and Ministry of Health Singapore shared about Singapore's experience from the perspective of a CMIO.

A/Prof Low discussed the silo-ed strategies from clinical and technical healthcare professionals and emphasized that both CIOs/CTOs and CMIOs need to be aligned when implementing IT, to ensure that the solutions are technically sound but clinician-friendly for optimal commercial and clinical outcomes to be achieved.

Dr. Boonchai Kijsanayotin MD., PhD AeHIN Co-chair, Thai Health Information Standards Development Center (THIS), Health Systems Research Institute, Ministry of Public Health (MOPH), Thailand gave a critical presentation on capacity building and IT adoption challenges and successes in Thailand.

We were also delighted to have the CMIO of Bumrungrad International, Dr. James Miser share about Bumrungrad's efforts with IBM-Watson to create seamless IT innovations for top notch healthcare delivery outcomes. Last but not least, Dr. Manish Kohli, Chief, Medical Informatics, Cleveland Clinic (Abu Dhabi) discussed about leveraging carepathways and technologies to deliver world-class care.

The roadshow ended with a lucky draw and 2 winners walked away with free passes to HIMSS AsiaPac15. The first prize winner, Dr. Erik Fleishman, Assistant International Medical Director, Bumrungrad International, also won a 2N stay at the Marina Bay Sands Singapore.

Malaysia Pre-Conference Roadshow: Prince Court Medical Centre, 4 June 2015

We brought our third roadshow to Malaysia where Prince Court Medical Centre hosted with 50+ senior-level attendees and speakers. Mr. Simon Lin, Executive Director, HIMSS Asia Pacific gave the welcome address followed by Dr. Chong Yoke Sin's sharing about IHiS' role in advancing health IT in Singapore.

Opinion leaders from Malaysia's private and public sectors also spoke and gave insights into National eHealth plans and hospital case studies. In particular, KPJ shared about the Iskandar SMART City Project and their smart healthcare initiative and Prince Court shared successes and hurdles faced, as well as provided solutions for aspiring organizations who are journeying towards paperless.

Featured speakers:

- Dr. Chong Yoke Sin, CEO, Integrated Healthcare Information Systems (IHiS) Singapore
- Dr. Amiruddin Hisan, Head of Telehealth, Ministry of Health Malaysia
- Dr. Mubbashir Iftikhar, Chief Information Officer, KPJ Healthcare
- Mr. Vignesh Krishnan, Business Development Head, University of Malaya Specialist Centre
- Dr. Chong Su-Lin, Chief Executive Officer, Prince Court Medical Centre

Philippines Pre-Conference Roadshow: Asian Hospital and Medical Centre, 27 May 2015

This was the second stop for 2015 roadshows, held in Muntinlupa City, Philippines at the Asian Hospital and Medical Centre. This was also the first time that HIMSS Asia Pacific held an event in the Philippines and much awareness of HIMSS and health IT was achieved with the local community. The event attracted 30+ senior level attendees and speakers from both private and public organizations.

Featuring senior-level speakers from the Department of Health Philippines, National eHealth Technical Working Group, University of Philippines, LIFEDATA Systems, Dagupan Doctors Villaflor Memorial Hospital and HIMSS, the event gave the audience a preview of the HIMSS AsiaPac15 conference with a broad spectrum of presentations ranging from the general overview of Healthcare landscape; multi-sector approach for developing the National Health Information System; the HIMSS EMRAM Model; Strategic Framework in deploying ICT Projects along with the various challenges faced with case studies backing up the presentation.

The programme proved to be a rare opportunity for stakeholders from various organization in multiple part of the country to network to improve engagement for the local healthcare IT community which will in turn promote and advance Healthcare IT for the bettering of patient care - an import mission of HIMSS.

We would also like to specially mention and show our appreciation to the following organization for their support and partnership in ensuring a successful event (in alphabetical order):

- Asian Hospital and Medical Center
- Health Informatics Inc.
- Philippine Nursing Informatics Association

Singapore Pre-Conference Roadshow: IHIS Headquarters, 14 May 2015

Held at the IHIS (Integrated Health Information Systems) headquarters, our first ever by-invite-only pre-conference roadshow was a great success. 50+ key stakeholders and decision makers from various private/public healthcare institutions, nursing homes and government agencies attended alongside with leading solution providers.

Featuring senior-level speakers from Integrated Health Information Systems (IHIS), Infocomm Development Authority (IDA), National University Health System (NUHS), Philips Healthcare and Singapore General Hospital (SGH), the event gave attendees a preview of the HIMSS AsiaPac15 conference with presentations touching on general overviews of the local Health IT landscape and the strategic direction for the Singapore SMART Healthcare project – an integral part of the SMART Nation Initiative. Tea break and lunch reception provided a rare opportunity for the senior-level attendees to mingle and share their thoughts on health IT.

Leading Singapore organizations such as the Ministry of Health Singapore, Agency for Integrated Care and local public hospital representatives attended.
