REVIEW COURSE

12 April 2018 • Riyadh, KSA

Brought to you by:

Himss *Middle East*

Brought to you by:

himss Middle East

OVERVIEW

The CPHIMS credential will help your career by:

- ▶ Demonstrating you meet an international standard of professional knowledge and competence in healthcare information and management systems
- ▶ Increasing your credibility with your employer
- ▶ Showing a commitment to continuing professional development
- ▶ Enjoying a sense of personal and professional achievements

COURSE DESCRIPTION

The CPHIMS Review Course is an excellent source of a health IT body of knowledge that spans three broad knowledge categories involving a total of nine topic areas: General Environmental Knowledge (Healthcare Environment and Technology Environment; Systems Knowledge (Analysis, Design, Selection, Implementation, Support and Maintenance, Testing and Evaluation, Privacy and Security; and Administrative Knowledge (Leadership and Management). This Review Course will provide a highly interactive and fast-paced detailed overview of these competency areas by supplementing tools and resources from a variety of sources to aid knowledge transfer.

LEARNING OBJECTIVES

At the completion of the course, the participant will be able to:

- ▶ Describe the various components of the CPHIMS Body of Knowledge.
- ▶ Articulate the opportunities and challenges in the healthcare environment, while addressing the technological components needed to deliver patient care.
- ▶ Describe the components of the implementation development life cycle in a healthcare setting by identifying those concepts required from initial inception of an idea through implementation.
- ▶ Discuss the components required to support and maintain those who use software applications in a healthcare setting.
- ▶ Discuss the current state of privacy and security challenges and opportunities in healthcare today.
- ▶ Describe the importance of the many administrative aspects of health IT from the perspective of protecting health information to ensuring that the leadership and management functions of the healthcare setting are identified and understood.
- ▶ Implement studying and test taking skills and tips that may be utilized to further prepare the student for taking the exam.

Conducted by a CPHIMS certified trainer, the CPHIMS review course comes together with the CPHIMS Review Guide, 3rd Edition to prepare candidates for attaining this prestigious credential.

Course modules include:

- ▶ Module 1: The Healthcare Environment
- ▶ Module 2: The Technology Environment
- ▶ Module 3: Systems Analysis
- ▶ Module 4: Systems Design
- ▶ Module 5: Systems Selection, Implementation, Support, and Maintenance
- ▶ Module 6: Systems Testing and Evaluation
- ▶ Module 7: Systems Privacy and Security
- ▶ Module 8: Administration Leadership
- ▶ Module 9: Administration Management
