

Business Initiatives

June 14, 2017

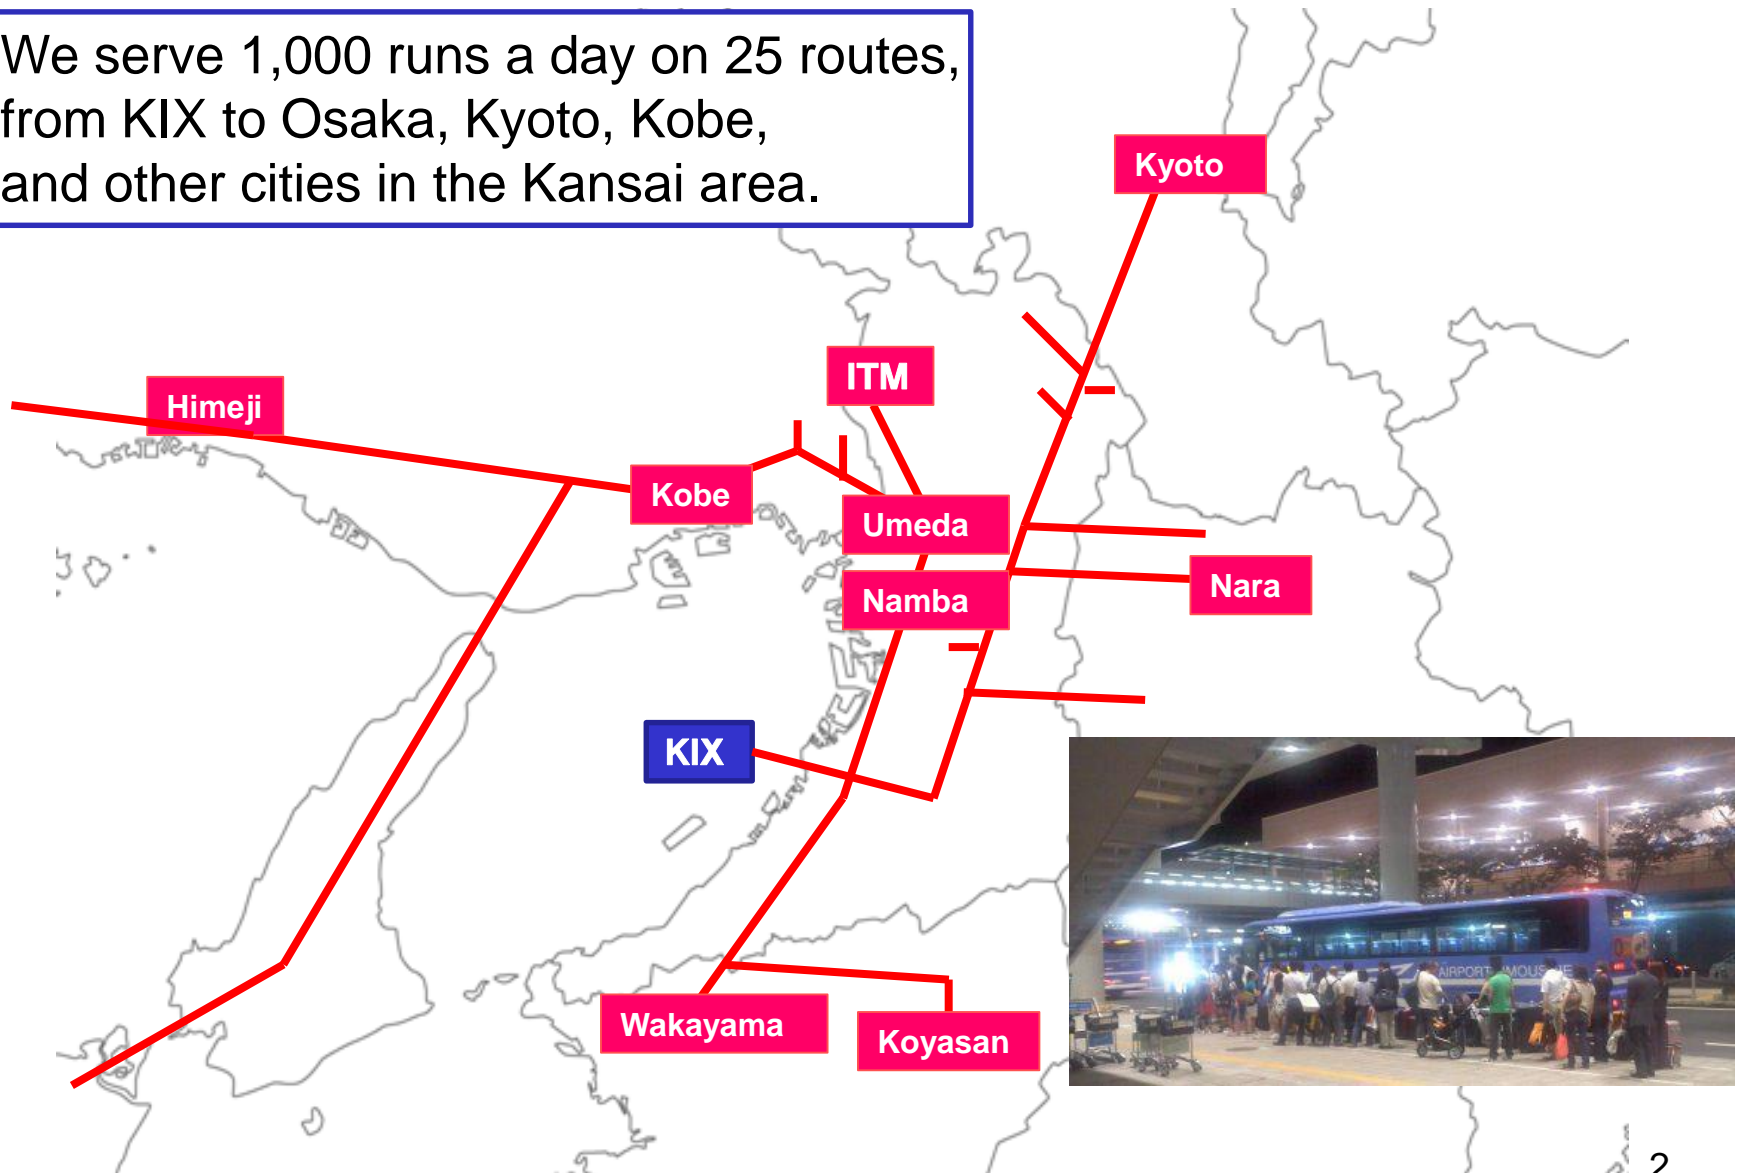

Nankai Electric Railway Co., Ltd.

1. Railway business: approximately 650,000 passengers a day in total including approximately 40,000 passengers using the Airport Line

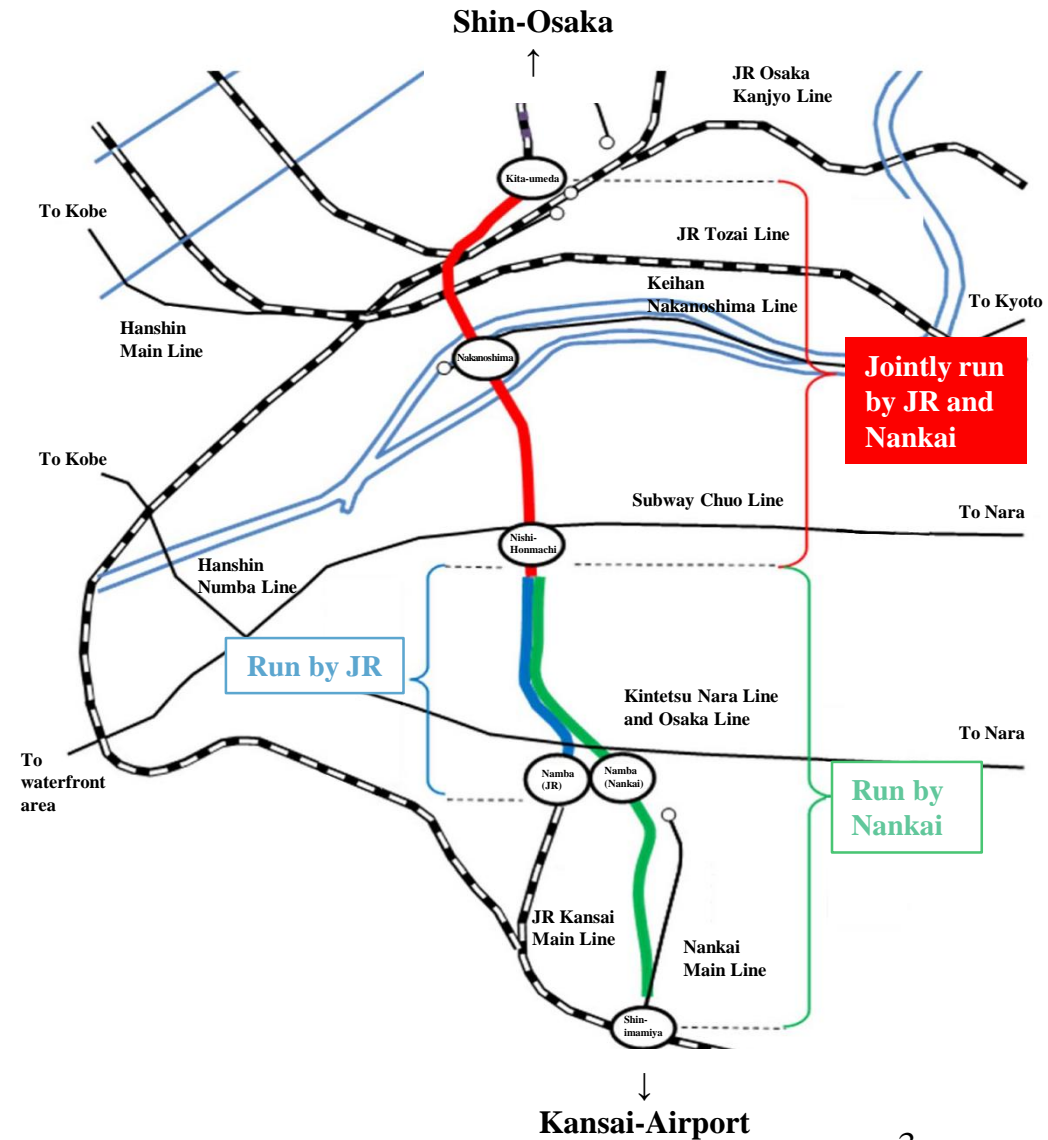

2. Limousine network

We serve 1,000 runs a day on 25 routes, from KIX to Osaka, Kyoto, Kobe, and other cities in the Kansai area.

3. Naniwa-suji Line (A Plan for the Future)

- To provide a new, broader railway network that connects Kyoto, Kobe, Takarazuka, and other cities with more areas along the Nankai Line.
- To provide the fastest access to Umeda, Shin-Osaka from KIX.

4. Hands-free Sightseeing Project

1. Goal:

To allow inbound tourists to enjoy sightseeing hands-free in Kansai using railways right after arriving at KIX.

2. How it works:

If an inbound tourist checks their baggage at Nankai Kansai-airport Station after arriving at KIX, Nankai will provide same-day delivery to the hotel in Osaka City where they plan to stay. Likewise, the tourist can pick up their baggage at Nankai Kansai-Airport Station when departing Japan if they check it at the hotel.
