# Oncology Drug Development in Practice

## ODDP 2017

Amsterdam, The Netherlands  
November 22-24, 2017

## Oncology drug development training for physicians at ODDP 2017

Oncology Drug Development in Practice (ODDP) is an educational program designed for professionals in academia and industry who wish to acquire or expand their knowledge of drug development in oncology. This program is of particular interest to (junior) physicians at academic hospitals and other clinical centers involved in clinical trials of new cancer therapies.

Fully dedicated  
to oncology drug  
development

Targeting in  
particular  
professionals  
who are new in  
oncology

Covers the  
complete drug  
development  
process

Of particular  
interest to  
(junior)  
physicians  
in academic  
centers

High level of  
participant  
satisfaction over  
13 years' history

Congress by design

## Educational themes

The program comprises two parts, which can be booked separately or as a complete package.

### PART A

#### Day 1 provides a general introduction to the field of oncology:

- Cancer and cancer therapeutics
- Carcinogenesis & tumor cell biology
- Oncopathology: Diagnosing cancer
- Essentials of medical oncology
- Essentials of hemato-oncology
- Essentials of cancer immunotherapy

### PART B

#### Days 2 and 3 provide education on the complete drug development process in oncology:

- Drug discovery and preclinical drug testing
- Preclinical toxicology of anticancer agents
- Phase 1 clinical studies with single agents
- Phase 1 clinical studies with combinations of agents
- Full clinical development of cancer therapeutics
- Post-registration drug development in oncology
- Biomarkers in oncology drug development
- Development of companion diagnostics for cancer therapeutics
- The regulatory environment for anticancer drug development
- Biostatistical considerations in oncology clinical trials

## Faculty

Faculty will be comprised of experts from leading academic research institutes, drug companies having ample expertise and hands-on experience in cancer research, clinical oncology, or anticancer drug development.

## CME

The organizers of ODDP 2017 will apply for European CME credits (ECMEC) from the European Accreditation Council for Continuing Medical Education (EACCME). ODDP 2016 was accredited by the EACCME for a maximum of 17 ECMEC. Check the ODDP 2017 website ([www.congressbydesign.com/oddp](http://www.congressbydesign.com/oddp)) for the actual CME status of the course.

## Tuition

Physicians and non-physicians employed by non-profit entities may book ODDP 2017 at the following rates:

- Part A and B : € 1,950
- Part A only : € 725
- Part B only : € 1,325

## How to apply?

Visit [www.congressbydesign.com/oddp](http://www.congressbydesign.com/oddp) as of April 17, 2017 to register for ODDP 2017.

## Organizers

ODDP 2017 is offered by Congress by design in association with main sponsor INC Research Inc and co-sponsor Aglaia Biomedical Ventures.
