

Field trip to Mount Etna (Valle del Bove)

The field trip focuses on presenting a general overview of the main volcanic structures of Mount Etna Volcano

**We will reach the ridge of “Schiena dell’asino” from which we will enter
Valle del Bove**

**In Valle del Bove we can walk
down along sandy couloir through
the old geological stratigraphic
sequence**

Finally, we will walk over the “pahoehoe” lava field in the bottom of the Valle del Bove
