

Introduction to Internal Audit

Are you new to internal audit? Then this course has been designed for you. Created specifically to provide an introduction to internal audit in Canada, the seminar will provide background and context on the role of internal audit, key influences on the practice, and foundational concepts. The IPPF (International Professional Practices Framework) has just been updated. Learn about the most current IPPF Framework.

Learn about:

- Internal Audit & Influential Bodies
- Professional Practices & Frameworks (the updated 2015 IPPF framework included)
- Laws & Regulations
- Objectives, Risk & Internal Control

This eLearning course is very interactive so you should have a secure internet connection and telephone connection. Multiple participants from the same company should register and logon separately in order to participate fully in discussions, breakout sessions, chats and whiteboarding.

Delivered by an insightful and experienced Canadian facilitator/internal auditor, this course will provide you with the tools needed to progress in your position as an internal auditor.
