

Nursing

Expand your Horizons

FRIDAY, 17 APRIL 2015
SHERATON HOTEL
ABU DHABI - UAE

*"Nursing is a versatile and dynamic field.
Expand your horizons and earn CME."*

With all of the options available to nurses, come learn about a series of skills as well as tips to transition to new employment.

Interactive Learning &
Q & A With Nursing
Specialists

TOPICS INCLUDE

- pediatric nursing
- emergency & critical care
- homecare
- clinics

OBJECTIVES

- Discuss trends in nursing for various dynamic fields such as emergency nursing and pediatrics
- Evaluate tips and best practices for lesser-known nursing fields such as dental nursing and surgical nursing. As well as how to break into these fields
- Examine new fields of telemedicine and homecare which are new to the UAE and the world. How can nurses use their skills in these fields
- Describe ways for nurses to transition into new jobs through training, employment or higher education

AGENDA

11:00 REGISTRATION

12:00 Welcome Note & Introduction-Nursing in the UAE

12:30 Dental Nursing Sara Jones

As a profession in the UAE, dental nursing is a hot topic. We will discuss best practices, tips and tricks of the trade, infection control for dental and identifying instruments.

13:30 Pediatric Nursing Lea Mayer

Compassion for children and parents with sick kids. How to measure the situation and speak on the right level to connect with the littlest of patients.

14:30 Surgical Nursing

The field of surgical nursing is one we rarely see in practice. Learn how to gain new experience in surgical nursing and the most important lessons when you get there.

15:30 COFFEE BREAK

15:45 Maternity, OB and Labor & Delivery Skye Brown

Discussing how maternity nursing is a diverse field from pre-natal to inpatient and midwifery throughout the globe.

16:15 Homecare Nursing Maureen Almai

Homecare nursing means taking care of some very sick patients in rehabilitation, and some who may never get "better." But homecare nursing can greatly impact the quality of life for some of society's most vulnerable citizens and their families.

16:45 Telemedicine and Nursing Bridget Lonsday

mHealth and Master's Degree as a next step to expand your horizons.

17:15 Critical Care Ms. Heba El Hangouri

From the ICU and PICU lines to ventilators. Information every nurse should know about critical care settings.

17:45 Emergency Nursing

"Nurse, cover this wound, and get him some oxygen STAT." How to excel under pressure, and recognize the signs of a patient who is rapidly deteriorating
