

SPE Industry 4.0

Fiction vs. Reality

Sebastian Huennefeld

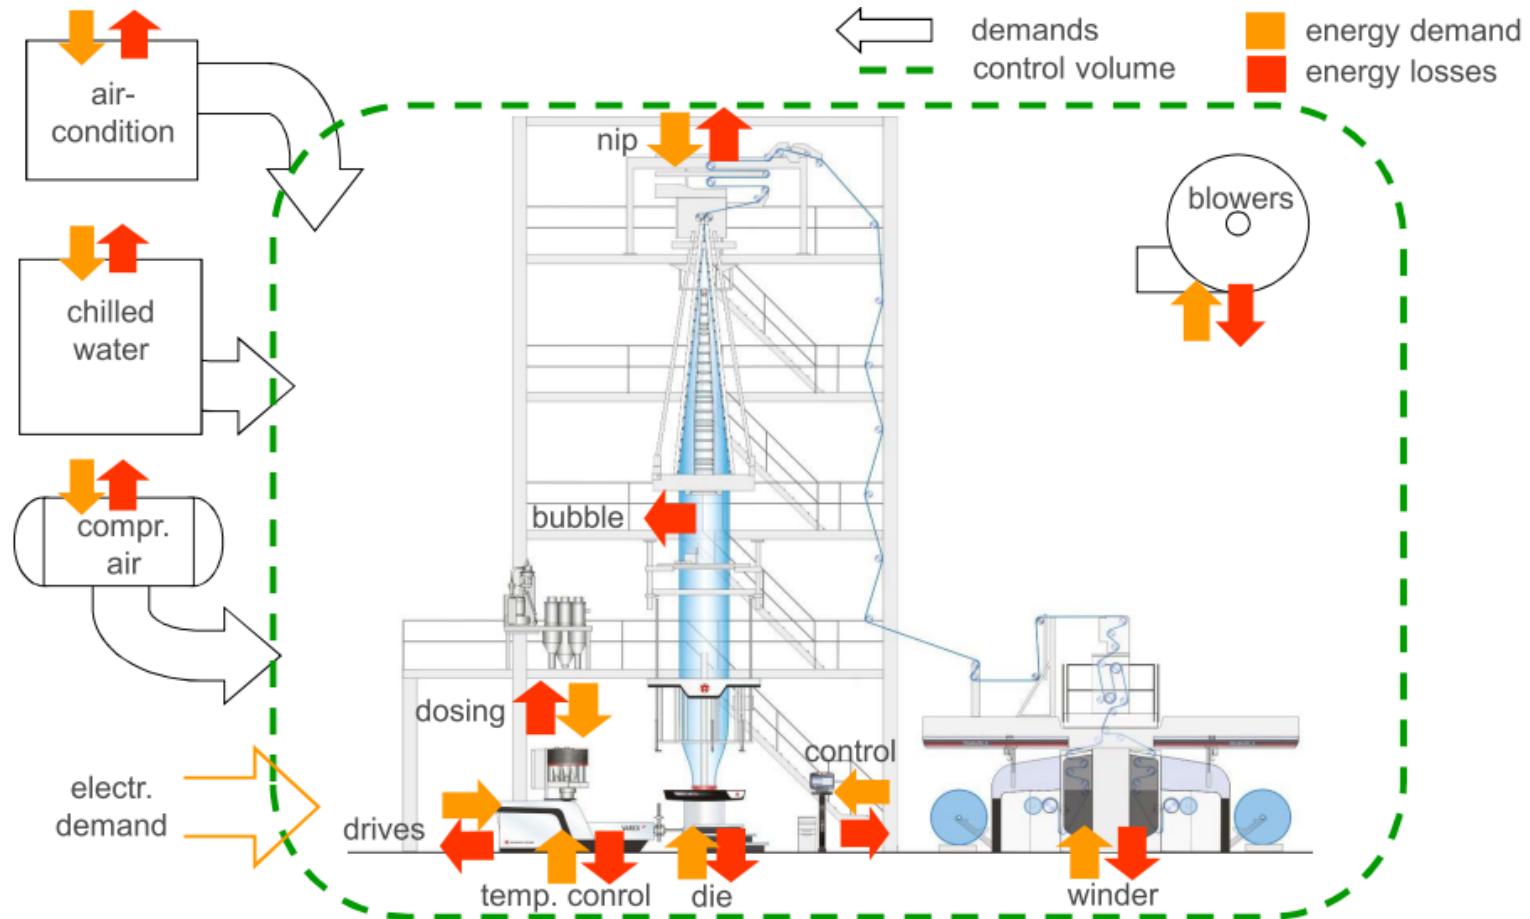

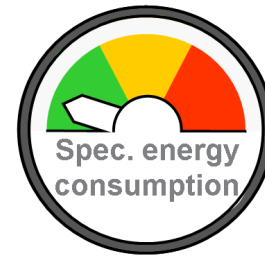

"I CALL IT 'HOW MANY HOURS ED WORKS 4.0'..."

Energy Monitoring

Packaging4.0 in a nutshell

**Customer need.
Industry need.
Market demand.**

**Build upon your
expertise.**

**Make it work for your
customer.**

**Bring value to the
value chain.**

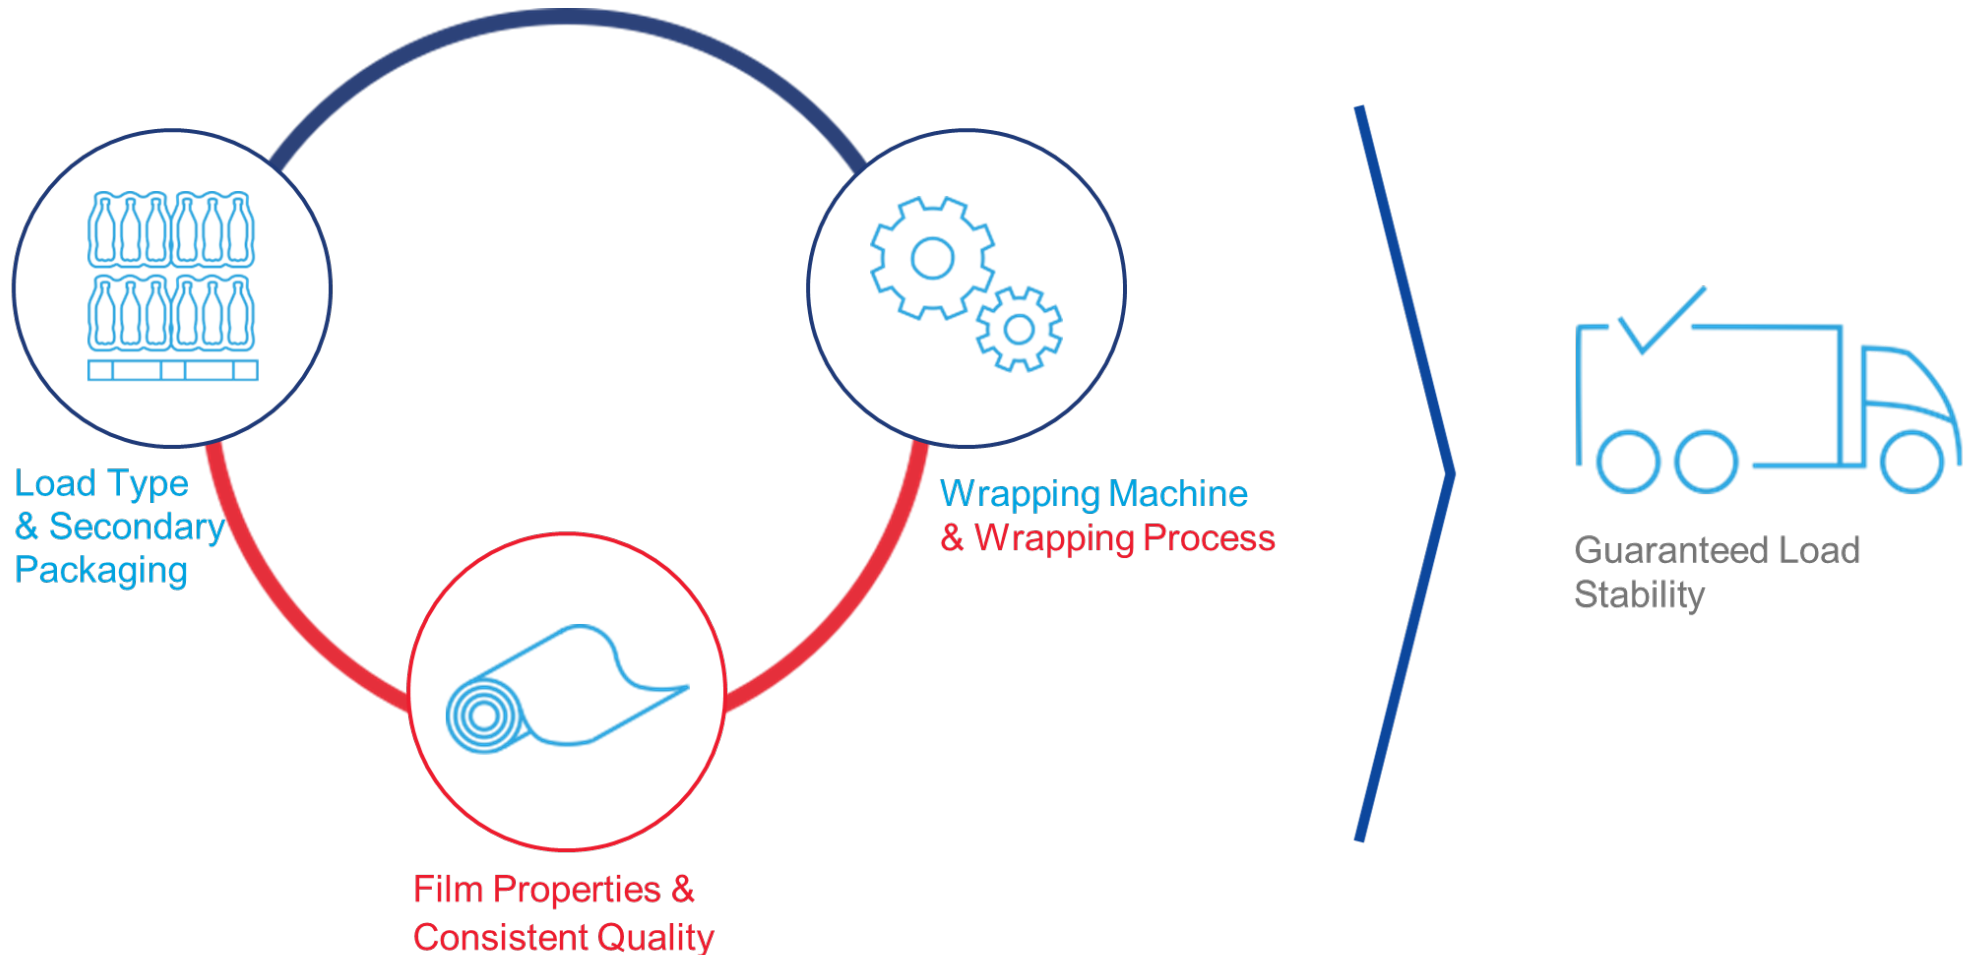

Approximately **4%** of all transported goods are damaged upon arrival

Sell 7 units to make up for 1 damaged unit

Extreme forces on transported loads.

How can we use our expertise to solve the load stability challenge?

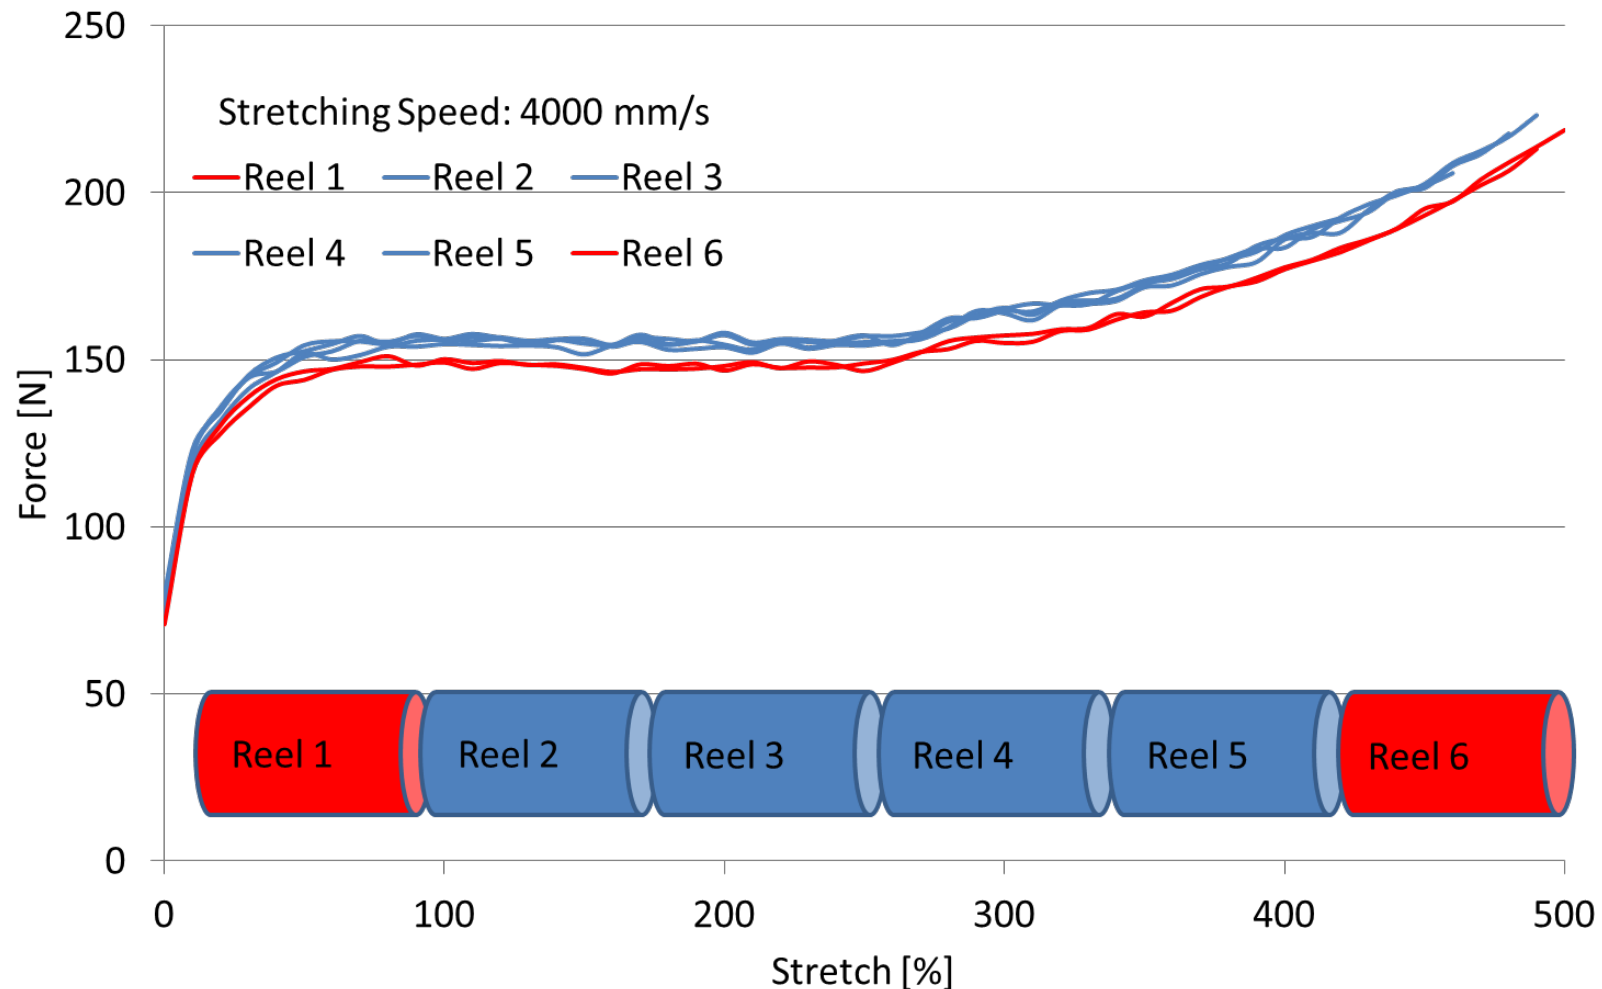

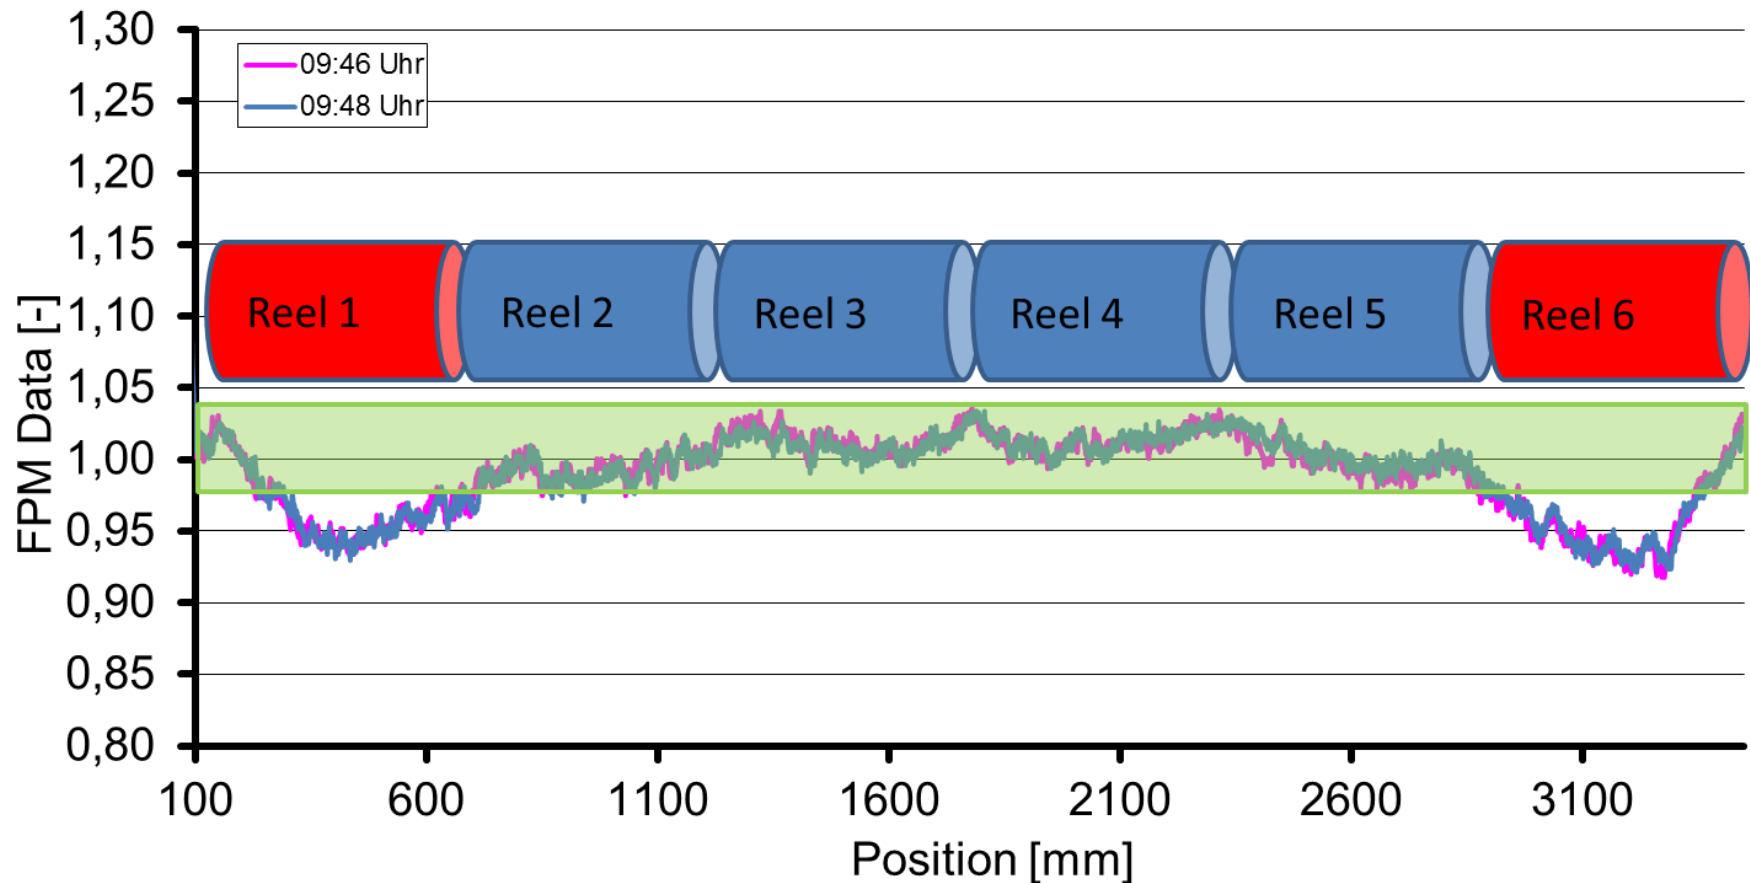

How can we use our expertise to solve the load stability challenge?

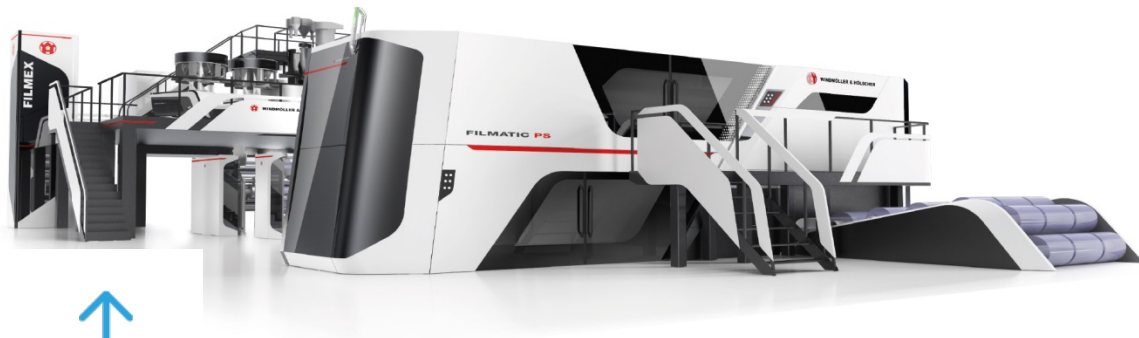

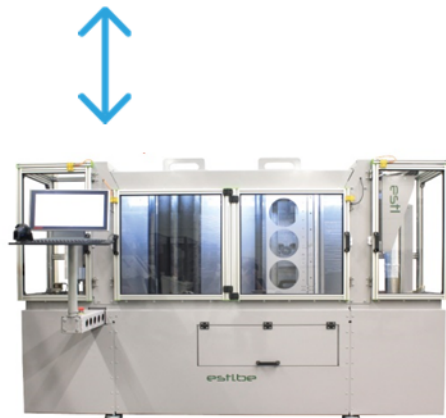

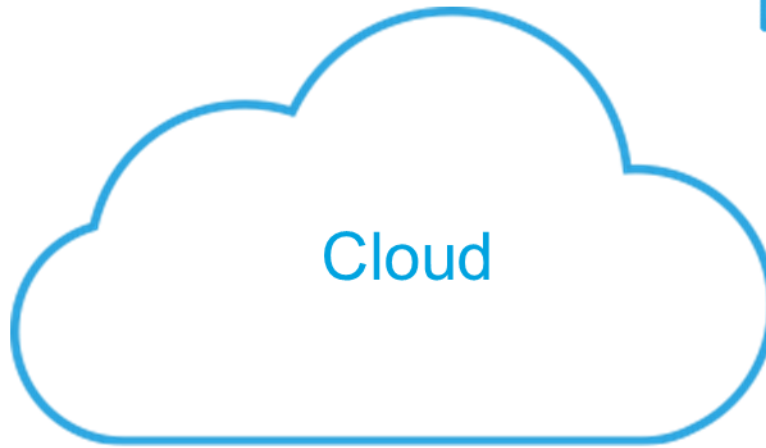

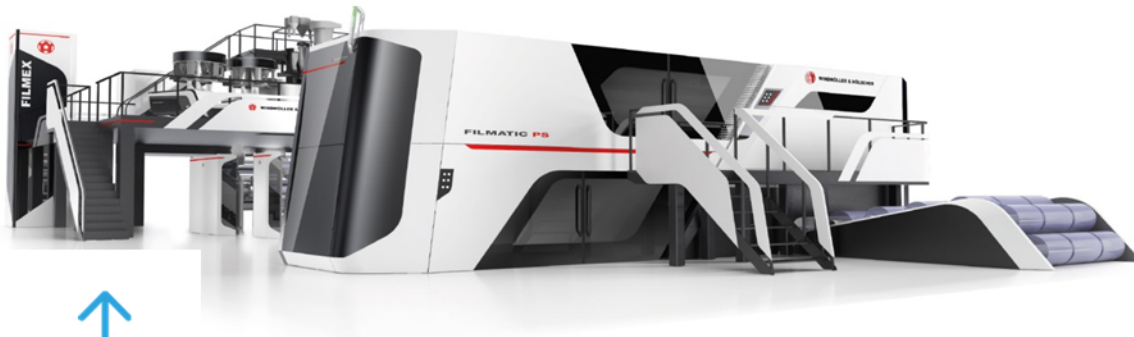

How can we use our expertise to solve the load stability challenge?

How can we use our expertise to solve the load stability challenge?

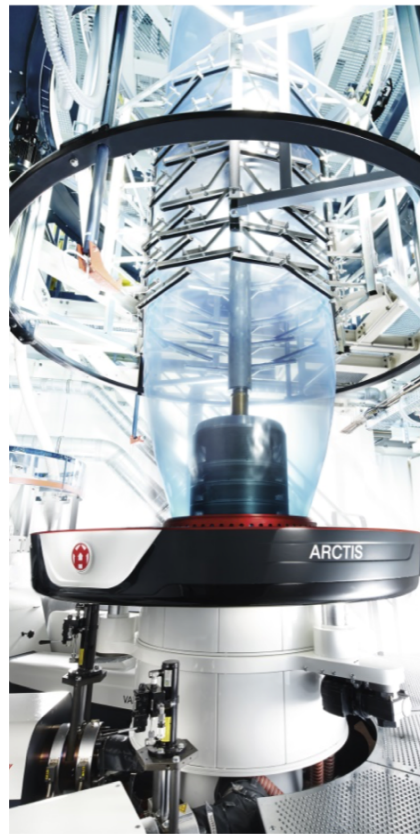

Packaging4.0 in a nutshell

**Customer need.
Industry need.
Market demand.**

**Build upon your
expertise.**

**Make it work for your
customer.**

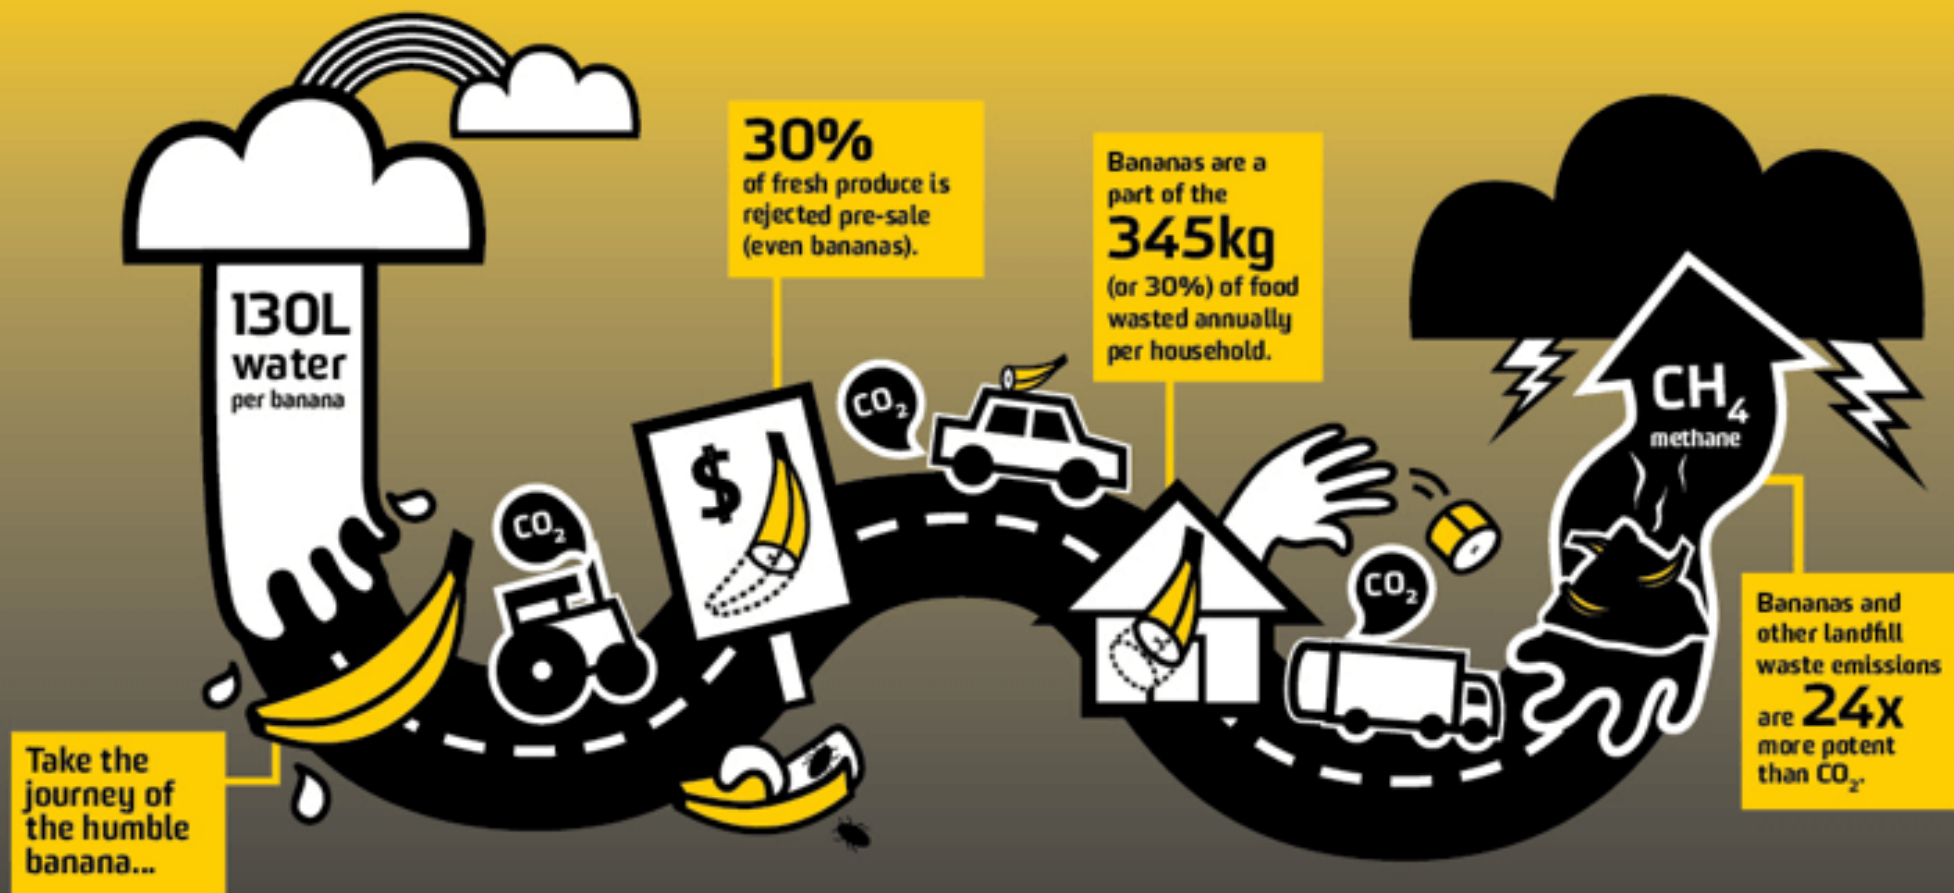

**Bring value to the
value chain.**

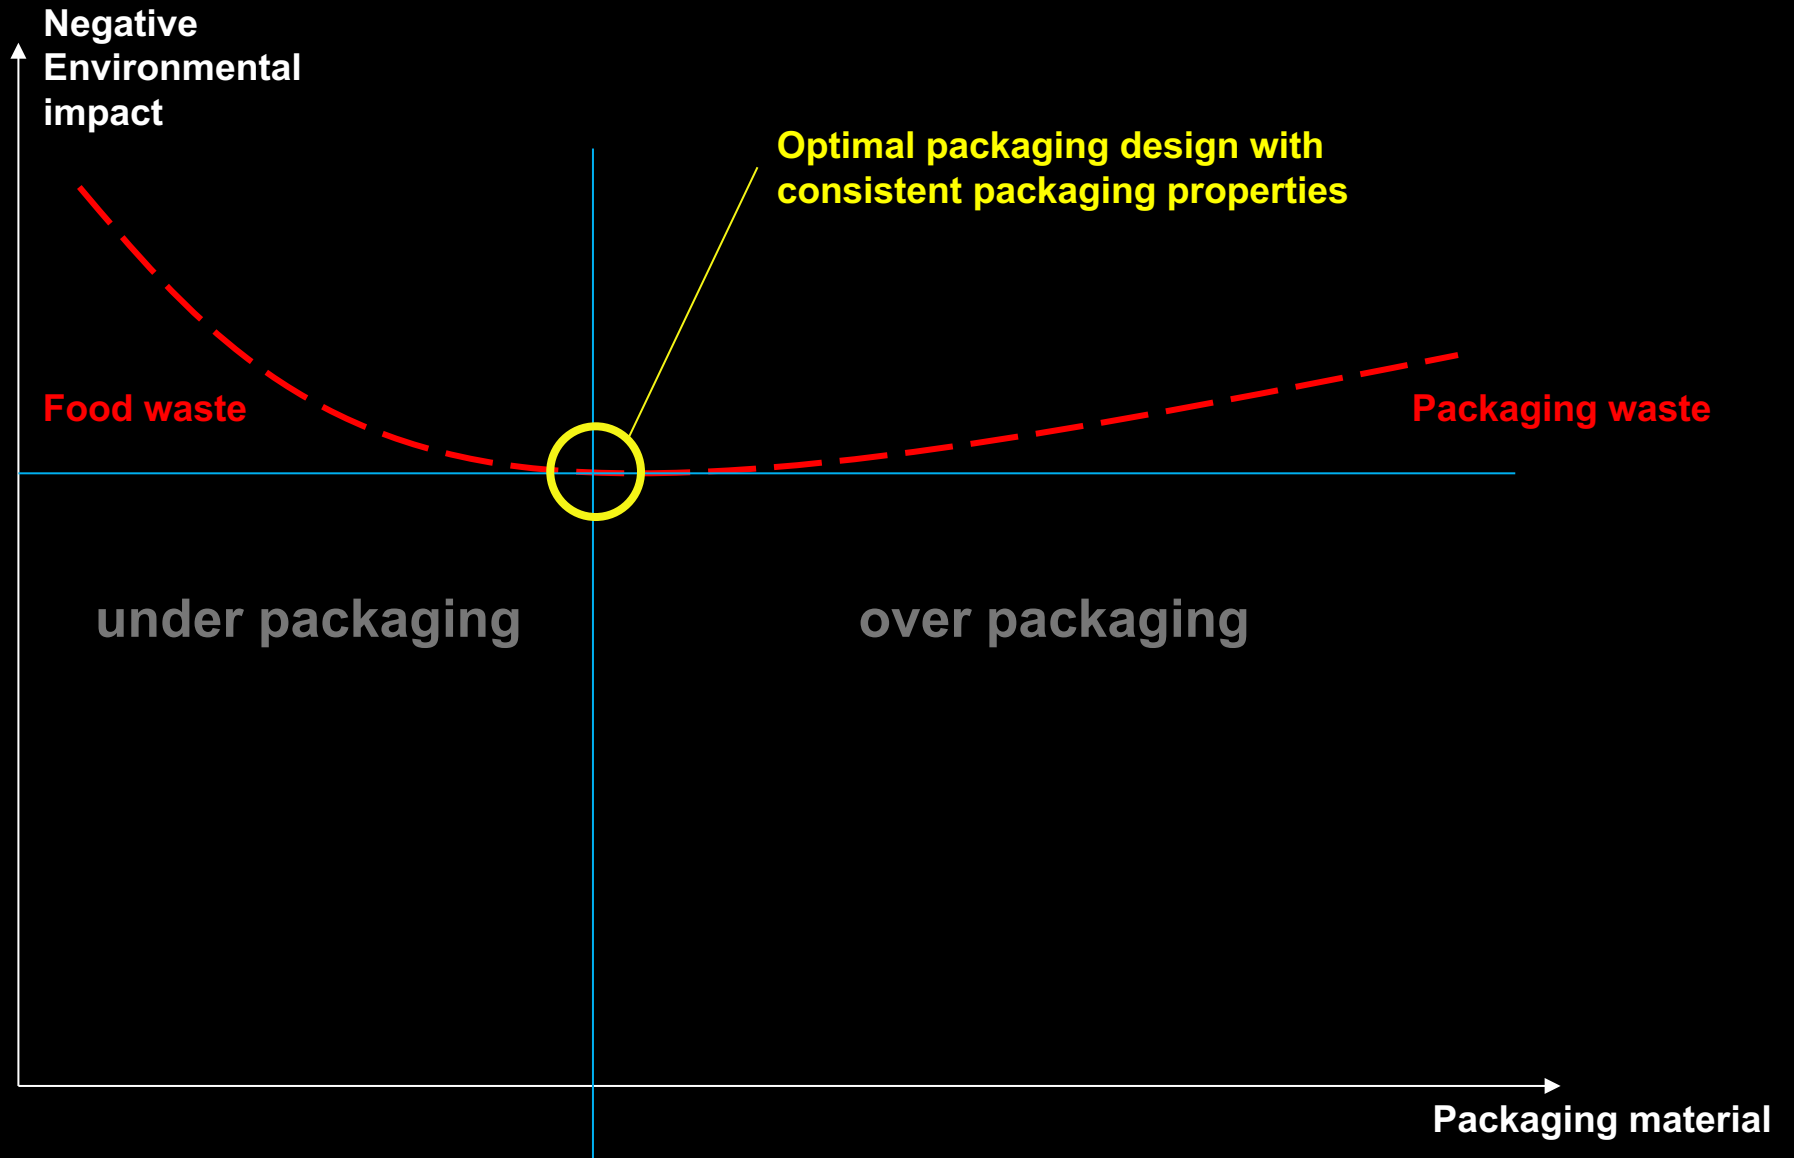

**How can we
contribute to
reducing food
waste?**

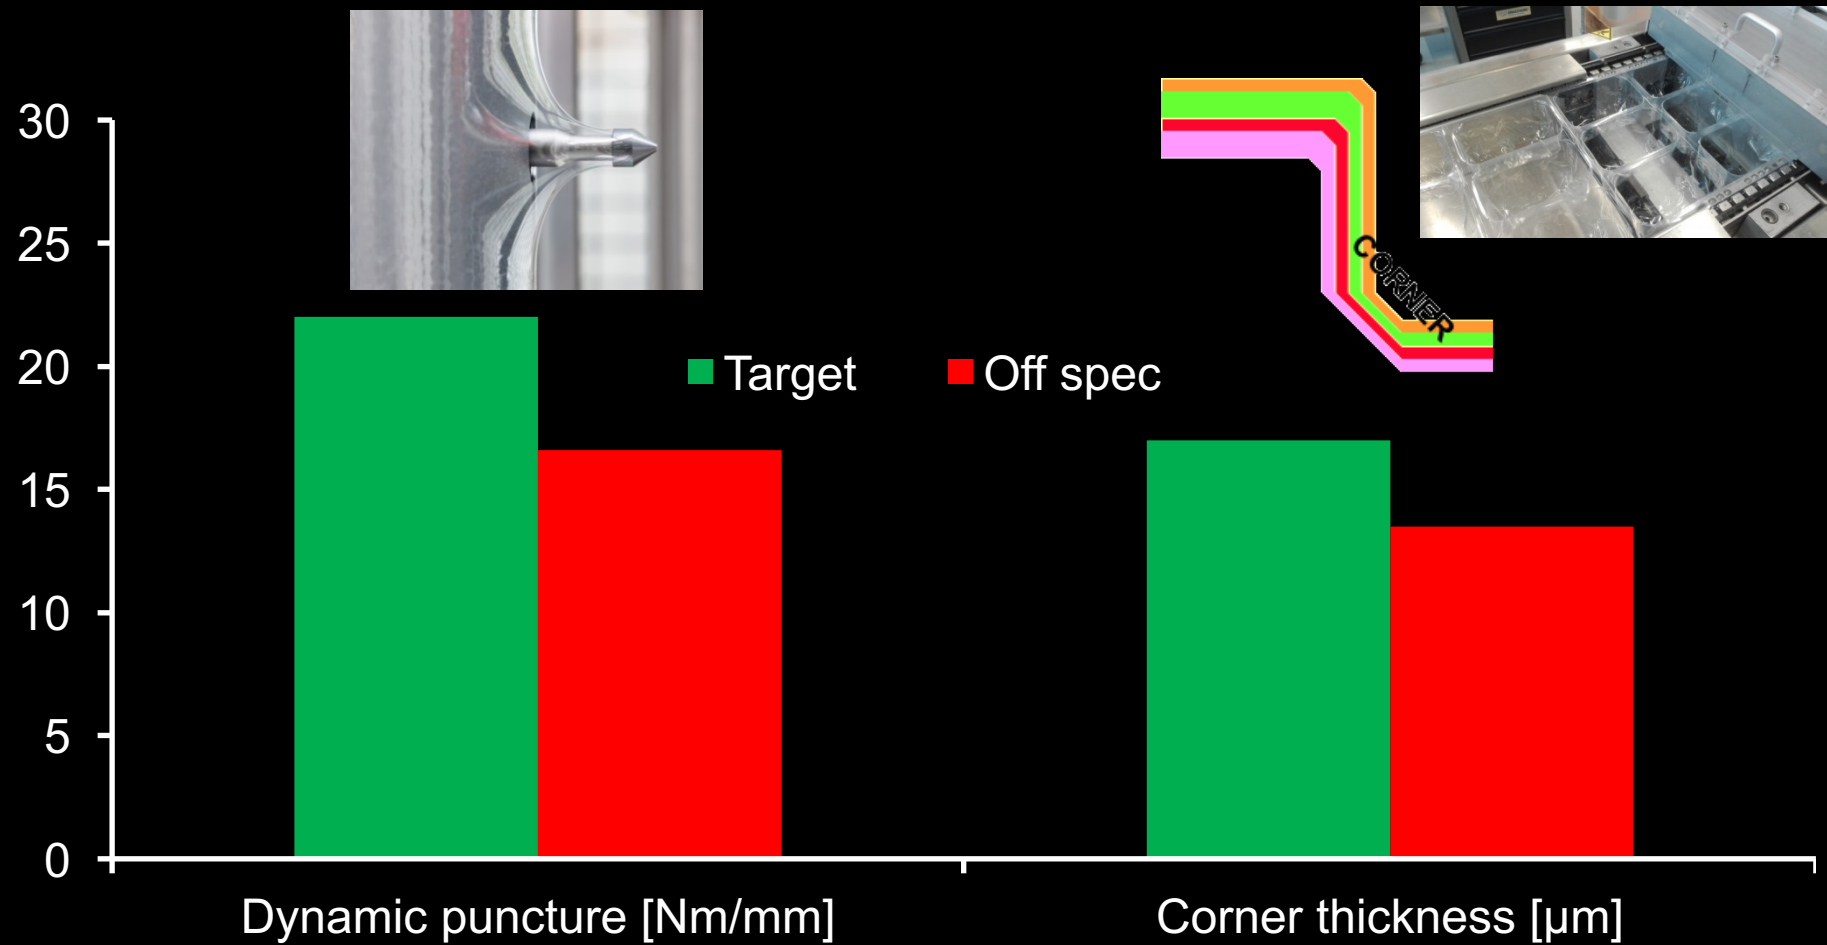

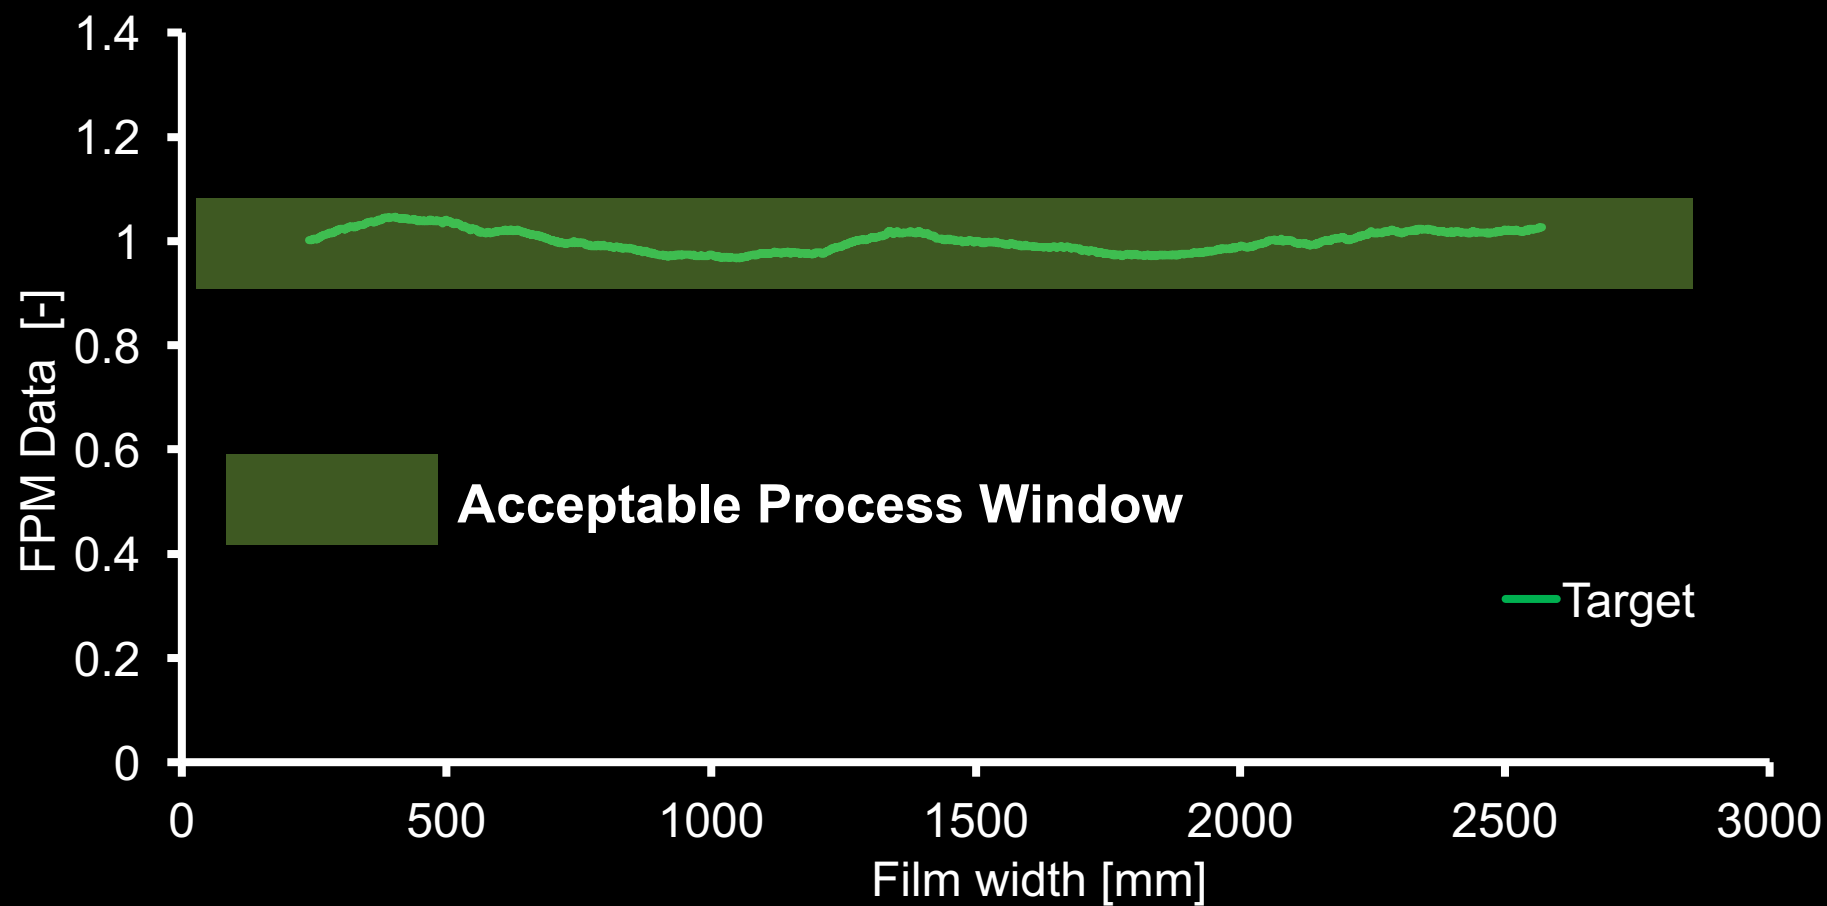

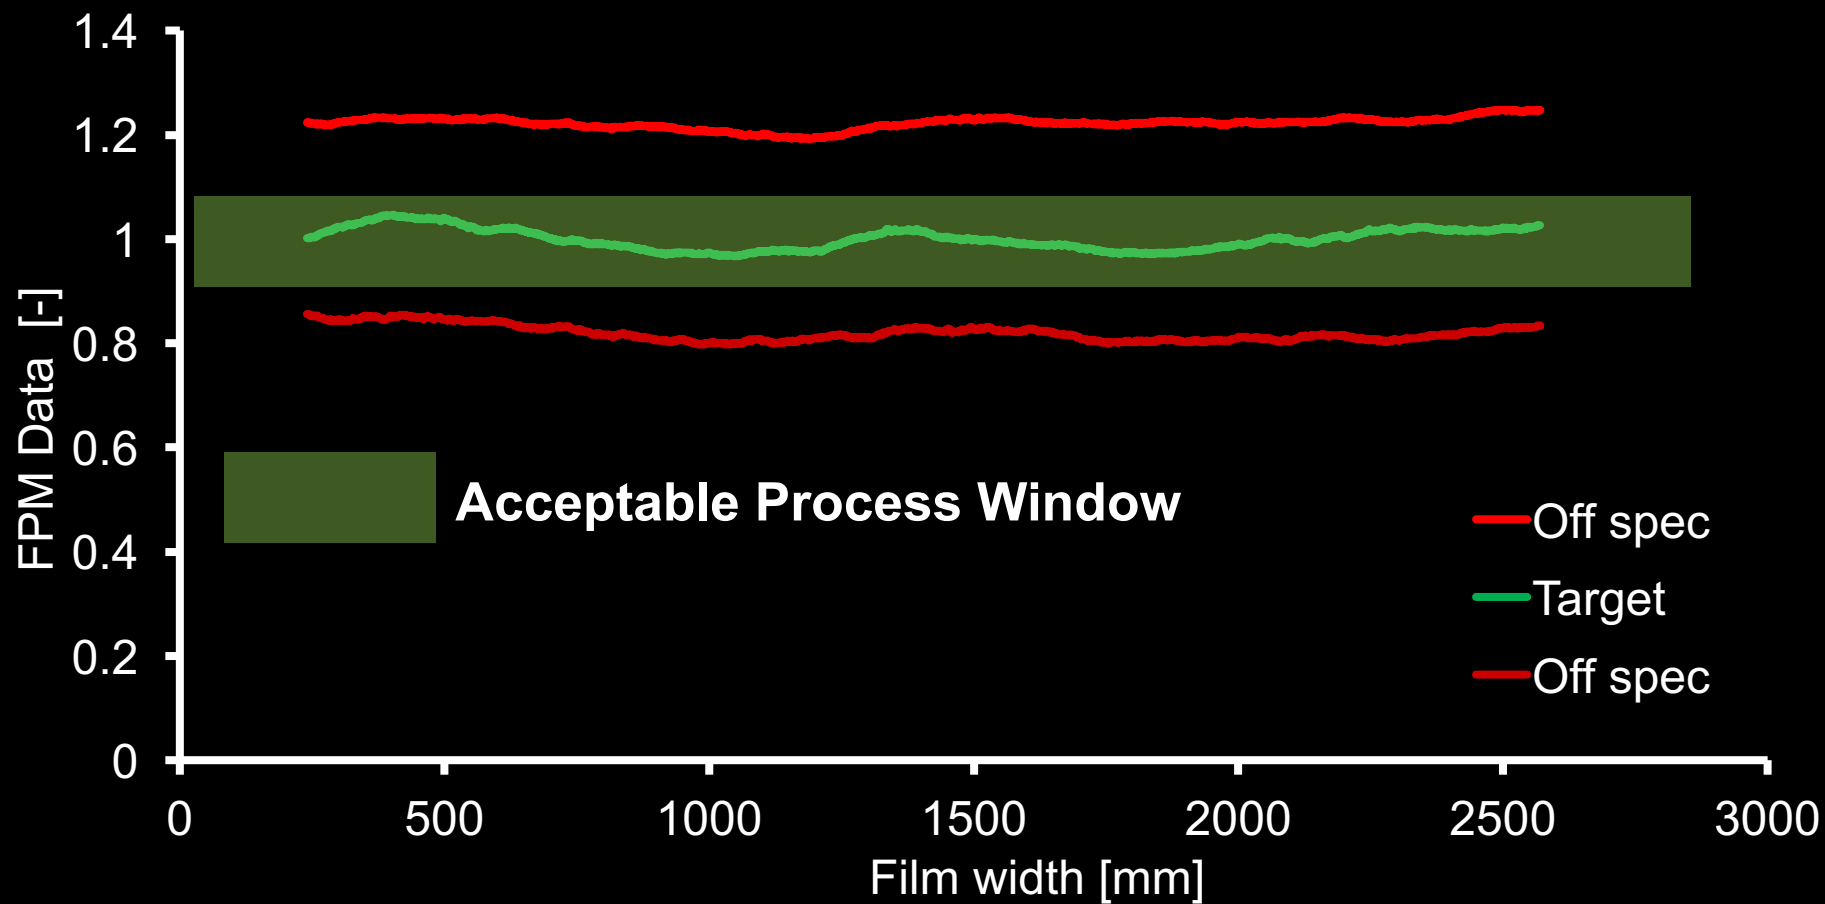

Food, waste and our future

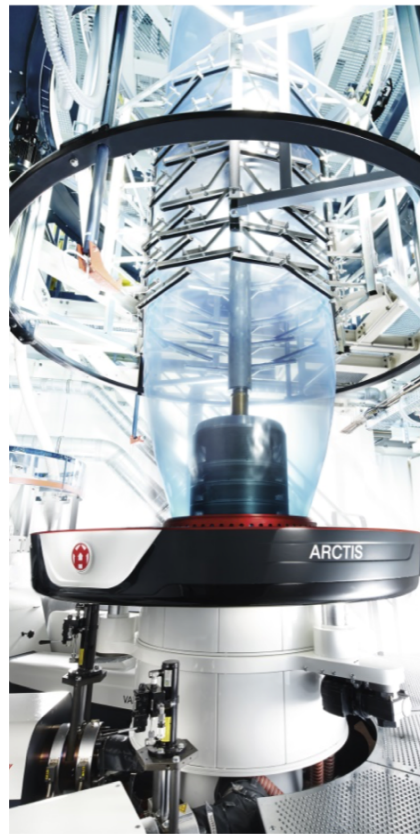

Packaging4.0 in a nutshell

**Customer need.
Industry need.
Market demand.**

**Build upon your
expertise.**

**Make it work for your
customer.**

**Bring value to the
value chain.**

Thank you for your kind attention!
