

2018 SPE INTERNATIONAL POLYOLEFINS CONFERENCE

February 25 - 28, Houston, Texas

Abundant Supply = Opportunities and Challenges

Wednesday Morning

8:00 am - 11:15 am

8:00 am - 8:30 am

8:30 am - 9:00 am

9:00 am - 9:30 am

9:30 am - 9:45 am

9:45 am - 10:15 am

10:15 am - 10:45 am

Foams and Post-Reactor Technologies (Salon A)

Moderator: Gary Wilkes, Dart Container Corp.

Chemical Foaming Agents: Foaming Polyolefins in Injection Molding and Extrusion

Peter Schroeck, President and CEO, Reedy Chemical Foam & Specialty Additives

Cell Nucleation and Growth Mechanisms in Foam Injection Molding of Polypropylene

Chul Park, Distinguished Professor, University of Toronto

Changing Your Polyolefin Extrusion Line into a Physical Foam Extrusion Line--Key Considerations

Andy Cauffman, Pro-Mix Solutions

Break (Atrium)

Effect of the MFI of PP on the Nanofibrillation and Foaming Behavior of PP/PET System

Chul Park, Distinguished Professor, University of Toronto

Flexural Mechanical Properties of PP-Nanofibrillated-PET Composites and Foams

Lun Howe, University of Toronto

Sustainability Metrics and Characterization (Salon C)

Moderator: Donna Davis, ExxonMobil Chemical Company

Opportunities to Close the Loop with Non-Mechanical Recycling

Emily Tipaldo, Director of Packaging & Consumer Products, American Chemistry Council

Multivariable Regression of Recycled HDPE

Greg Curtzwiler, Iowa State University

In-process Monitoring of Recycled Polyethylene for Catalyst and Regulated Metals Using Novel Applications in X-ray Technologies

Keith Vorst, Iowa State University

Influence of Post-Consumer Recycled Content (PCR) and Pigments in Polyethylene Properties

Emily Hurban, Iowa State University

10:45 am - 11:15 am

Nano Powders Produced and Utilized as a Drop-in Process Model Validation for Composite Railroad Ties Using Micro-Mechanics Modelling and Experimental Four-Point Bend Technology for Commercial Polyolefins Upgrade
Howard Paul, America P & G Co.

Testing Made from Recycled Polyolefins

11:15 am - 11:45 am

Daniel Pulipati, PhD Student, Baylor University
In-Situ Melt Catalysis--The Ultimate Answer to Compabilizing Addition and Condensation Polymers
Salvatore Monte, President and Co-Owner, Kenrich Petrochemicals, Inc.
