

NATURALLY BETTER

All BioPak products are made from sustainably sourced rapidly renewable materials. The CO2 emissions associated with the production distribution and disposal are offset through the purchase of carbon credits and **1% of all profits are donated to Rainforest Rescue** for rain forest restoration projects.

CHOOSE BIOPAK, WHEN YOU CARE ENOUGH TO SERVE THE BEST

BioPak stocks a wide range of quality plant based single use disposable & compostable packaging solutions. Our mission is to raise awareness about the environmental impact of single use disposable packaging and provide solutions that are non-toxic, non-harmful and have no negative effects on the natural environment throughout their lifecycle.

We design, develop, market, and distribute the most sustainable and environmentally friendly single use food service disposables made from recycled, bio based and rapidly renewable resources.

Since 2010 BioPak customers have offset 31,607 tons of CO2 emissions which is equivalent to:

Driving 182,160,256 km

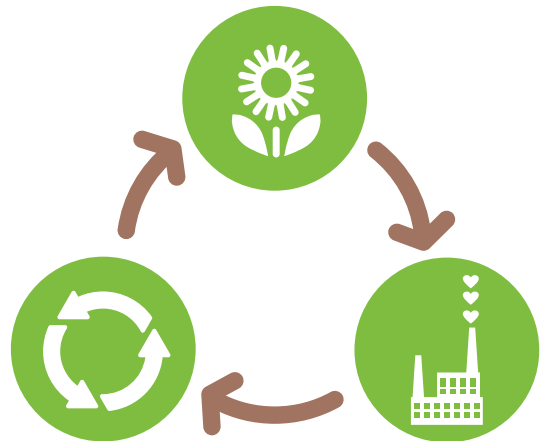

Removing 12,477 cars off the road

Saving 13,297,690 litres of fuel

Raw materials

We use sustainably sourced rapidly renewable plant based raw materials

Recycle

Our products are designed to be diverted from landfill by either being recycled or composted

Production

Our production facilities are certified to ISO 14001 environmental standards and use the latest energy efficient production technologies
