AMARYLLO

Security as a Service Company

Amaryllo Robotic Camera Solutions

Real-time facial recognition robotic cameras with dynamic military 256-bit encrypted P2P Networks

Patented Intelligent Camera Robot

Amaryllo is a pioneer in embedded robotics technologies. Amaryllo's standalone camera robots can talk, recognize faces, and auto-track intruders 360° even from behind. They proactively respond to live situation to scare off burglar. Amaryllo robots revolutionize today's homeland security.

Flexible & Secure Cloud Service

Free 24-HR

Amaryllo provides the most affordable cloud storage plans in home security market, allowing enterprise and consumers to retrieve their recorded files securely anywhere, anytime.

Military 256-bit P2P Networks

P2P

Amaryllo is the first to offer military grade Peer-to-Peer networks to connect IOT devices. Amaryllo provides its secure P2P networks to law enforcement, security service companies, and enterprise to protect their communications worldwide.

Real-Time Big Data Analytics

Amaryllo's patented fast facial recognition technologies enable its robots to identify human faces in one second. Over 100 people can be recognized simultaneously. Amaryllo's fast facial recognition technologies empower law enforcement quickly identifying criminal in real-time.

About Amaryllo

Founded in Amsterdam, the Netherlands, Amaryllo is the pioneer in Security as a Service. Standalone auto-tracking and fast facial recognition are Amaryllo's patented technologies. Amaryllo provides robotic camera solutions to transform CCTV into cutting-edge camera robot. Amaryllo Services offer military 256-bit encrypted P2P networks, intelligent cloud analytics, and flexible cloud storage.

AMARYLLO — Security as a Service Company

Atom AR3-S — Professional IP66 grade, −30°C ~ 50°C, −20°F ~ 120°F, 360° Auto
Atom AR2 — 360° Auto
KOOVA — 240° Auto
Patio
iCare FHD
Petite
iSensor HD

- Patented fast facial recognition
- 256-bit military encryptions (256-bit)
- Quick setup 1-min
- Face/audio/motion alert
- No PC required
- On-Screen Timeline to access internal stored video
