**You focus on
your business;
we focus on helping
you stay hydrated.**

At Aquaclear, we specialise as the leading sales and service provider for all brands of water filter taps. This ensures that we have the ideal solution for all your drinking water needs; including instant, boiling, chilled, ambient and sparkling water, with options such as under bench and wall mounted units.

For over 8 years, we have been serving our customers Australia wide by offering a premium service experience. This starts from when you place the call with our trained admin support team to when our skilled and highly qualified technicians depart with your unit working smoothly again. We have developed strong customer relationships across many sectors including health, education, government and corporate offices.

Our vision at Aquaclear is simple. We aim to help our customers reduce staff downtime and increase productivity by unparalleled service and supplying all types of filtered drinking water units nationally.

Aquaclear provides you with a helpful and rewarding experience from the initial installation right through the whole life of your drinking water unit.

Aquaclear is an Australian owned independent service provider who supports Australian brands and products that are continually improving to reduce their environmental impact.
