OUR GROUP COMPANIES

We are much more than just door hardware.

The Access Hardware Group of Companies is made up of four business units that operate in different areas of the construction industry. Over the 40 years we have been in the industry, we have supplied products and services for some of Australia's biggest and most recognizable projects.

Access Hardware started in 1975 in Melbourne, and specialized in architectural hardware and locksmithing and that is still the case today. Whether the project is a commercial, residential, government or industrial project, we can help with your door hardware and washroom equipment requirements. Our staff are industry trained professionals who have developed strong relationships with the manufacturers of some of the world's most recognizable brands. All branches hold inventory that is available from our trade counters and our in-house locksmiths can offer all aftersales services including onsite installation, maintenance and repairs services.

Jacksons Security is the oldest and most recognised supplier for security products and services in Tasmania. Originally established in 1883, it is one of the oldest brands in Australia. Jacksons Security was originally the distribution division of Jacksons Lock Manufacturing until it was purchased by the Access Hardware Group of Companies. With locations in Hobart, Launceston and Burnie, Jacksons Security provides customers with a complete security products and services range throughout Tasmania.

Starting in Victoria, Access Entry joined the Group in November 2014. As a manufacturer of automatic sliding and hinged doors, Access Entry operates from their factory in Hallam Victoria. Access Entry doors are supplied throughout most states and have been fitted to many key projects. In addition, Access Entry offers installation and maintenance servicing for all their automatic doors..

SABRE

Sabre products started being supplied to the Sydney market in mid 1970s by Specialty Hardware as an in-house brand. Now as part of the Access Hardware group, Sabre has expanded and is available from all Access Hardware branches nationally. Driven by a product management and development team, the Sabre range is ideal for trade customers looking for quality fit-for-purpose and price competitive products.

Fenton Doors was acquired by the Group as a manufacturer of doors and frames. Manufacturing is based in Youngtown, with sales staff based at our Hobart sales office to offer a wide range of doors and frames to the Tasmanian market. The increased use of CNC machinery in the production process ensures a precise, quality product for your project.

OUR BRANCHES

All branches include trade counters and fully equipped locksmith workshops and each branch dispatches daily from stocked warehouses. We have you covered.

We supply the best brands of products in the market and our staff are either experienced industry-trained or trade qualified professionals.

Trade Counters

When you need something to finish off a job, our trade counters can help. With each branch stocking a wide range of hardware, locks, fittings and general accessories, we can help you get what you need, when you need it.

Locksmith Services

Our locksmiths can help with anything from cut keys, full restricted keying systems, security audits, onsite repairs and maintenance and access control. Our locksmiths are trade qualified, police checked and insured.

Project Teams

Our project teams partner with their clients from the very start of a project to the sign off and handover stage. At every step of the process, your project team will use their experience and knowledge to help keep the project moving forward.

PROJECT SUPPORT SERVICES

Scheduling

The first step after designing your project is scheduling and specifying the right products for it. Whether you are looking at ten doors or a hundred doors, we can help.

Manage your variations

Variations can cost money and time. We can track all variations through our specifically designed software, to keep the project on time.

Door Packing

When supplying projects, we offer a free door packing service. All hardware is configured, labelled and packed by door number to ensure installers have everything they need in one box.

MISSION STATEMENT

Access Hardware is helping build Australia by making Architectural Hardware easy for our customers.
