FX3-LX

Effortless label printing for complex operations

The award-winning SATO FX3-LX is a flexible, next-generation label printer that is suited to a wide range of industries due to its highly-customisable application technology and ability to adapt to its environment. The device's intuitive printing applications are easily accessed via a 7-inch TFT full colour touch screen, which offers users the familiar feel of using a smartphone or tablet.

The FX3-LX's Application Enabled Printing (AEP) platform allows the device to be used as a PC-less, online or standalone printer, giving users full autonomy when printing labels for sectors including Food, Retail and Manufacturing and Logistics. The device is compatible with SATO Online Services (SOS) a cloud-based proactive maintenance solution that provides prompt support and eliminates unnecessary operational downtime, whatever the application.

FX3-LX for the Food Industry

Rely on food-safe features for peace of mind

FX3-LX has the ability to automatically calculate and print best-before and use-by dates, allergens and secondary shelf-life compliance information for individual products and ingredients, based on its internal product database. The FX3-LX database is easily updated with data from a server via a USB memory stick, USB and LAN PC connection or automatically via WLAN, ensuring data accuracy is maintained at all times. This in turn helps to reduce food waste due to improper labelling. In addition, label usage tracking is also a feature of the FX3-LX, allowing the user to verify whether food safety procedures are being adhered to.

Reduce costs & save space

The FX3-LX's PC-less printing feature makes it ideal for use by a wide range of food industry sectors. From Quick Service Restaurants to Corporate, Hospitality and Manufacturing, businesses in the food industry can reduce costs and save space by moving the portable device from the kitchen or back-office to the service floor, as and when required. FX3-LX prints high quality (305dpi), durable 3-inch labels as standard, without the need for a PC.

ADAPTED TO HYGIENIC ENVIRONMENTS

- ✓ Easy-clean, anti-bacterial casing
- ✓ Splash proof (IPx2)
- ✓ Slip resistant
- ✓ Option to wall mount
- ✓ Can be operated with gloves
- ✓ Video training feature
