ZORBAS SINCE 1975

qualitative superiority

Mediterranean values, full of Cypriot tradition...

Founded in 1975 in the small village of Athienou in Cyprus, the small bakery of Zorbas family has now turned into a group of companies, with the main activity being the production, distribution and sale of fresh bakery, pastry and confectionery products, through its owned stores.

Currently, A. Zorbas and Sons Ltd has a 40,000m2 manufacturing plant which supplies its 62 own shops as well as local and international customers. Being one of the few large enterprises of the country it employs 2100 people, with an annual turnover of over 100 million Euro.

Vision : To surpass the expectations of the most demanding consumers, in quality and service.

A. Zorbas and Sons Ltd offers a large variety of products and services for the local market and a selection of premium bakery products for the international one. International customers can be supplied with frozen products of extended shelf life; all made with natural ingredients such as olive, spinach, almond, apple and local haloumi cheese, ready to be baked and served within minutes.

Additionally, it has a long experience in producing and selling high quality products following strict quality standards and honoured with all relevant certifications BRC Grade A, IFS Higher Level, ISO 22000, ISO 9001 and SQMS (AIB - McDonald's).

Moreover, it has considerable experience in exporting products in Europe, Canada, America, Asia, Australia and Middle East countries.

Collaborating with highly established customers both locally and internationally, such as McDonalds - Cyprus, Lidl - Cyprus, Costco – Canada, Costco – Australia and The United States helped in achieving an even higher level of product quality and service.
