TOUCHBOARD MOUNTING SYSTEMS

TouchBoard Mounting Systems started in 2013 by a focussed team with many years of experience in the Audio Visual, Education and Corporate sectors. TouchBoard Mounting Systems has become known and respected as an Interactive Flat Panel market mounting solution.

TouchBoard Mounting Systems are designed and developed in Australia. Understanding the engineering and technology behind our products has enabled us to provide a tailored solution to meet the Australian market. Having a complete range of Mounting Systems provides customers with a reliable one-stop service.

Important factors that have contribute to our success include ease of assembly, sturdy and robust construction and an effective warranty and support program.

At TouchBoard Mounting Systems we will continue to exceed at supporting our range of products and customers across whilst looking for opportunities to develop and deliver new mounting solution technologies to the market.

MOBILE TABLE EASEL SYSTEM

The new TouchBoard Table Easel system is designed to provide complete flexibility in any learning or presentation area.

It allows for use in a vertical position as a normal interactive panel or in a horizontal position as an interactive table with a smaller group of users. The TouchBoard Table Easel is sturdy and robust and easy to manoeuvre between areas. **(Stand only, screen not included)**

Order Code: TBMS-MOB-TE

- ✓ Designed to provide complete flexibility in any learning/presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Allows for use in vertical position as normal interactive panel
- ✓ Flexible horizontal positioning ideal for use as interactive table
- ✓ Perfect for Early Years, having a small footprint and able to go very low in height
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Easy to manoeuvre between areas and pack away when not required
- ✓ Integrated power distribution board with surge protection

MOBILE HEIGHT ADJUSTABLE COLUMN SYSTEM

The TouchBoard Mobile Height Adjustable Column Lift system has all the benefits and flexibility of the TouchBoard Mobile Table Easel system without the added tilt function.

Being mobile it is easily moved between areas and being height adjustable, it caters for differing age groups and needs. Like all TouchBoard products, it is designed to carry the higher weight of modern LED touch panels. **(Stand only, screen not included)**

Order Code: TBMS-MOB-HA-C

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ All the benefits of the Table Easel without the Tilt Function
- ✓ Perfect for Early Years, having a small footprint and able to go very low in height
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Easy to manoeuvre between areas and pack away when not required
- ✓ Integrated power distribution board with surge protection
- ✓ Fast and easy installation process, taking under 1 hour

MOBILE HEIGHT ADJUSTMENT SYSTEM – ACTUATOR LIFT

The TouchBoard Mobile Height Adjustable Actuator System is engineered from high tensile steel and rigid aluminium materials and designed to support modern LED touch panels up to 136kg. Modular in design, this system can convert to the Wall Mount Height Adjustable Actuator System by simply removing the Mobile Base and fixing to the wall, providing the ability to adjust with the changing needs of the customer.

Available in motorised, electric height adjustable to provide added flexibility for mixed or shared learning spaces. A central laptop tray is included as standard. Options include a TouchBoard SoundBar and Web Cam mount. **(Stand only, screen not included)**

Order Code: TBMS-MOB-HA-A

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Modular in design, being able to be converted to a Wall Mounted System
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Easy to manoeuvre between areas and pack away when not required
- ✓ Integrated power distribution board with surge protection
- ✓ Central laptop tray and webcam mount standard inclusion
- ✓ Fast and easy installation process, taking under 1 hour

WALL MOUNT HEIGHT ADJUSTABLE SYSTEM – ACTUATOR LIFT

The TouchBoard Wall Mount Height Adjustable – Actuator Lift system has strong aluminium extrusions to transfer the load bearing aspects to the floor rather than the wall. This makes it ideal for mounting larger LED touch panels up to 136kg in places where existing walls may not be structurally adequate.

Available in motorised, electric height adjustable to provide added flexibility for mixed or shared learning spaces. A central laptop tray and webcam are included as standard. Options include a TouchBoard SoundBar. **(Stand only, screen not included)**

Order Code: TBMS-WALL-HA-A

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Modular in design, being able to be converted to a MobileSystem
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Strong Aluminium Extrusions transfer the load bearing weight to the floor rather than structurally inadequate walls
- ✓ Integrated power distribution board with surge protection
- ✓ Central laptop tray and webcam mount standard inclusion
- ✓ Fast and easy installation process, taking under 1 hour

MOBILE HEIGHT ADJUSTABLE SYSTEM – CENTRE LIFT

The TouchBoard Mobile Height Adjustable System – Centre Lift is our latest technology system designed to support modern LED Touch Screens up to 136kg. Using a two-stage rigid aluminium lifting extrusion, it provides an modern addition to any corporate, boardroom or education environment.

Modular in design, this system can convert to the Wall Mount Height Adjustable system by simply removing the Mobile Base and fixing to the wall, providing the ability to adjust with the changing needs of the customer.

Available in motorised electric height adjustable to provide added flexibility and inclusive access for mixed or shared learning spaces. A central laptop tray is included as standard. Options include a webcam mount and TouchBoard SoundBar. **(Stand only, screen not included)**

Order Code: TBMS-MOB-HA-CENT

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Modular in design, being able to be converted to a Wall Mounted System
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Easy to manoeuvre between areas and pack away when not required
- ✓ Integrated power distribution board with surge protection
- ✓ Central laptop tray. Webcam mount and SoundBar options available.
- ✓ Fast and easy installation process, taking under 1 hour

WALL MOUNT HEIGHT ADJUSTABLE SYSTEM – CENTRE LIFT

The TouchBoard Mounting Systems Wall Mount Height Adjustable System – Centre Lift is our latest technology system designed with a strong aluminium extrusions to transfer the load bearing aspects to the floor rather than the wall. This makes it ideal for mounting larger LED touch panels up to 136kg in places where existing walls may not be structurally adequate. Using a two-stage rigid aluminium lifting extrusion, it provides an aesthetic modern addition to any corporate, boardroom or education environment.

Modular in design, this system can convert to the Mobile Height Adjustable system by simply removing the fixing to the wall and adding a mobile base, providing the ability to adjust with the changing needs of the customer

Available in motorised electric height adjustable to provide added flexibility and inclusive access for mixed or shared learning spaces. A central laptop tray is included as standard. Options include a webcam mount and TouchBoard SoundBar. **(Stand only, screen not included)**

Order Code: TBMS-WALL-HA-CENT

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Modular in design, being able to be converted to a Mobile System
- ✓ Strong Aluminium Extrusions transfer the load bearing weight to the floor rather than structurally inadequate walls
- ✓ Sturdy and robust with simple electronic actuator control
- ✓ Integrated power distribution board with surge protection
- ✓ Central laptop tray. Webcam mount and SoundBar options available
- ✓ Fast and easy installation process, taking under 1 hour

MOBILE FIXED HEIGHT SYSTEM

The TouchBoard Mobile Fixed Height System is engineered from high tensile steel and rigid aluminium materials and designed to support modern LED touch panels up to 136kg. Modular in design, this system can convert to the Wall Mount Fixed Height System by simply removing the Mobile Base and fixing to the wall, providing the ability to adjust with the changing needs of the customer.

Available in fixed height, mechanically adjustable to provided added flexibility for mixed or shared learning spaces. A central laptop tray is included as standard. Options include a TouchBoard SoundBar and Web Cam mount. **(Stand only, screen not included)**

Order Code: TBMS-MOB-FH

- ✓ Designed to provide complete flexibility in any learning / presentation area
- ✓ Provides inclusive learning for mobility impaired users
- ✓ Modular in design, being able to be converted to a Wall Mounted System
- ✓ Sturdy and robust entry level mobile solution
- ✓ Easy to manoeuvre between areas and pack away when not required
- ✓ Integrated power distribution board with surge protection
- ✓ Central laptop tray and webcam mount standard inclusion
- ✓ Fast and easy installation process, taking under 1 hour

WALL MOUNT FIXED HEIGHT SYSTEM

The TouchBoard Wall Mount Fixed Height System is engineered from high tensile steel and rigid aluminium materials and designed to support modern LED touch panels up to 136kg.

Available in fixed height, mechanically adjustable to provide added flexibility for mixed or shared learning spaces. A central laptop tray and webcam mount are included as standard. Other options include a TouchBoard SoundBar. **(Stand only, screen not included)**

Order Code: TBMS-WALL-FH

- ✓ Designed to provide a flexible height adjustable solution in any learning / presentation area
- ✓ Provides inclusive access for mobility impaired users
- ✓ Modular in design, being able to be converted to a Mobile Height Adjustable Actuator System should the customers requirements change in the future
- ✓ Sturdy and robust entry level mobile solution
- ✓ Strong Aluminium Extrusions transfer the load bearing weight to the floor rather than some structurally inadequate walls
- ✓ Heavy duty, sturdy and robust and support weights up to 136kg
- ✓ Central laptop tray and webcam mount standard inclusion
- ✓ Fast and easy installation process, taking under 1 hour

MOBILE DUAL SCREEN SYSTEM

The TouchBoard Dual Screen Fixed Height system is the perfect solution for modern meeting rooms and exhibition centres where dual screens are required. Engineered from high tensile steel and rigid aluminium materials and designed to support 2 x modern LED touch panels up to 136kg.

Being a modular system, it is available as a mobile solution to provide added flexibility for mixed or shared spaces. There is the ability to add a lockable cabinet to provide the perfect video conferencing solution. The system is also available as a dual screen wall mount ideal for mounting larger LED touch panels where existing walls may not be structurally adequate.

A central laptop tray and webcam mount are included as standard. Other options include a TouchBoard SoundBar. **(Stand only, screen not included)**

Order Code: TBMS-MOB-DUAL

- ✔ Sturdy and robust and able to handle dual screens
- ✔ Ideal for corporate, boardroom and exhibition environments
- ✔ Modular in design, available as a mobile system, with a lockable cabinet and as a wall mounted system
- ✔ Strong Aluminium Extrusions transfer the load bearing weight to the floor rather than structurally inadequate walls
- ✔ Integrated power distribution board with surge protection
- ✔ Central laptop tray and webcam mount standard inclusion
- ✔ Fast and easy installation process, taking under 1 hour

Kindy Trolley

The Kindy Trolley is designed to enhance Early Years learning. A 55" or 65" interactive panel can be securely mounted to the kindy trolley low enough for even the youngest of users.

The Kindy Trolley includes a fold down laptop shelf and four removable storage draws to make play and pack-up easy and convenient. A whiteboard is mounted on to the back side of the trolley allowing for added flexibility. **(Stand only, screen not included)**

- ✔ Designed sturdy and robust for 55" – 65" screen sizes
- ✔ Mobile feature to easily move between areas
- ✔ Low in height designed for Early Years
- ✔ Integrated power distribution board with surge protection
- ✔ Includes whiteboard and removable draws
- ✔ Included Leg Brackets used to mount touch panel to trolley
