# AQUA COOLER

Australia's leading  
drinking water cooler brand.

## About Us

Aqua Cooler is a proudly Australian-based and owned drinking water cooler company based in Brisbane, Queensland. We employ an experienced and committed team of technicians, sales and support staff.

Rely on 50 years of history in the industry when you purchase online from Aqua Cooler Direct. No other Australian brand can compare to Aqua Cooler's quality, attention to detail and fit for purpose product. Trust in the highest quality materials created by the most knowledgeable and experienced team in the industry.

Don't accept anything but the best and shop for the right product for you through Aqua Cooler Direct.

## Products

Aqua Cooler supplies an extensive range of water coolers and related accessories for homes, offices, gyms, worksites and more.

## Our Values

Our values are centred around loyalty, growth and integrity, built upon a foundation of consistent and devoted team work.

# WATER COOLERS

# FOUNTAINS

# UNDER BENCH

# WATER COOLERS

Aqua Cooler Direct offers a diverse range of modern and efficient water coolers for a variety of applications to stay hydrated at home and work all year round. These cost effective water coolers will stand the test of time and dispense cold filtered water year round.

# Odyssey Series

## Economical Bottled Water Cooler

The Odyssey Series offers unparalleled value in bottled ambient-and-cold drinking water dispensers. The modern cooler is the perfect unit for family homes, renters and small-offices all year round.

### KEY FEATURES

- Stylish front façade made from high quality durable plastic, coupled with steel side panels for strength
- Easy-to-use taps, only one hand required
- Food-grade, stainless steel water contact tubes
- Durable polypropylene, self-closing taps
- Easy-to-clean, removable drip tray
- 12 month standard warranty and additional 24 month refrigeration system coverage
- Full range of replacement parts

The Odyssey Series is a free-standing unit available in ambient and cold configuration. The series has a 2.5 L tank and is an excellent choice for any application, dispensing 2.5 L of cold water per hour.

The cooler is created from high quality materials including food-grade and stainless-steel water contact tubes. The durable plastic, coupled with steel side panels for strength makes this unit perfect for home and small office use.

The Odyssey range is covered with a twelve month standard warranty and additional twenty-four month refrigeration system coverage. A full range of replacement parts are available to keep the unit in operation for longer.

# Maximus Series

## High-Capacity Mains-Connected Water Coolers

Maximus is the largest capacity commercial water cooler range available on the Australian market. No other cooler in its class offers the same level of performance making Maximus the ideal choice for high-demand areas such as offices and work shops.

### KEY FEATURES

- Highest capacity water cooler available in Australia
- Stainless steel side panels and corner pieces for heavier-duty applications
- Durable polypropylene, self-closing taps
- Food-grade, stainless steel water contact tubes
- Easy-to-clean, removable drip tray
- 12 month standard warranty and 36 month compressor warranty
- Full range of replacement parts

With an unprecedented 14 L tank, Maximus dispenses up to 6.5 L of cooled water per hour. Maximus is a free-standing unit available in a cook and cold configuration.

The stainless steel side panels and corner pieces make this unit perfect for heavy-duty applications such as workshops. Coupled with our twelve month standard warranty, additional twenty-four month refrigeration circuit warranty and full range of replacement parts, the Maximus is a powerhouse of water cooling.

# Cascade Series

## Premium Mains-Connected and Bottled Water Coolers

The flagship Cascade range of water coolers are both stylish and performant. The sleek design matches contemporary kitchen and break room decors and offers the innovative feature of switching between bottled and mains-connected with the flick of a switch.

### KEY FEATURES

- High impact polymer housing parts.
- Bottom loaded bottle for easy installation.
- Hot, cook and cold in a single unit.
- Stainless steel reservoir and hot tank.
- Easy-to-clean, dishwasher-safe drip tray.

Another unique feature that separates the Cascade from other coolers is its three dispensing modes: cook, cold and hot in a single unit.

Cascade boasts an output capacity of 5.1 L/h cold water and 7.9 L/h hot water. The high impact polymer on top, base and front panels offers the unit a durable housing to prolong its life and keep it looking smart for longer.

Aqua Cooler provides a full range of replacement parts and local service and support along with our twelve month standard warranty and twenty-four month additional refrigeration circuit warranty.

# Allure Series

## Benchtop Mains-Connected or Bottled Water Coolers

All the bells and whistles you’ve come to expect from an Aqua Cooler water cooler, in a neat-and-tidy, benchtop form factor. The Allure water cooler is perfect where floor space is scarce but the need for chilled water is abundant.

### KEY FEATURES

- Convenient benchtop form factor
- Durable polypropylene, colour-coded, self-closing taps
- Easy-to-clean, removable drip tray
- Integrated non-spill system for hygiene and convenience
- Individually switched hot and cold water systems

Allure is available in either bottled or mains-connected configurations and will look right at home on a kitchen bench or small-office break room.

These units can dispense 2 L/h cold water and come with our standard twelve month warranty and additional twenty-four month refrigeration circuit warranty. As with all our water coolers, a full range of replacement parts are available to keep the unit in operation for longer.

# WATER FOUNTAINS

The Aqua Cooler Direct drinking fountains are available in free standing and wall mounted form and are ideal for a multitude of areas dependant on the model. Free standing is perfect for your gym, worksite or office. Whereas the wall mounted style is designed specifically for small spaces or restricted floor space and easy access for people in wheelchairs or for children.

# M Series

## Heavy-Duty Mains-Connected Drinking Fountains

The M Series is a sleek mains-connected water fountain with a heavy duty build. The tank is made from industrial grade stainless steel ensuring that the fountain will effortlessly meet demand.

### KEY FEATURES

- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Optional stainless steel cabinets
- Simple filter changes for filtered units
- Adjustable, tamper proof non-squirt bubbler and glass filler

The M Series is designed with an easily removable front panel that gives instant access to all components and controls. Hassle-free filter changes and services can be undertaken without disconnecting the plumbing.

With fingerprint-proof coating on both stainless steel and powder coated options, this robust water dispenser fits marvelously to a multitude of places including offices, worksites and gyms.

Filtered models feature a compact and easy to replace filter that removes taste, odour and chlorine. The filter is a proprietary carbon-block filter of greater density with a 2 micron filtration pad to prevent carbon and sediment bypass. A dual "O" ring, a bayonet lock system, ensures product performance.

# UNDER BENCH

Aqua Cooler Direct under bench systems are an extraordinary appliance available in various boiler and chiller units. They are a creative drink system designed to sit out of view and dispense filtered chilled or boiling water on demand.

## H2OPresto Under Bench Chiller

The H2OPresto Chiller by Aqua Cooler is an innovative drink system designed to sit out of sight and dispense filtered chilled water on demand.

### KEY FEATURES

- 5L/h chilled water output
- Includes stylish chilled tap and coconut shell charcoal green filter kit.
- Simple to use, with automatic shutdown.
- Specifically designed for space-saving, under-bench installation.
- Fully insulated to achieve maximum energy efficiency.
- Easy filter replacement with a single twist.
- 12-months standard warranty.
- Full range of replacement parts.

## H2OPresto Under Bench Boiler

The H2OPresto Boiler by Aqua Cooler is an innovative drink system designed to sit out of sight and dispense filtered ambient or boiling water on demand for a variety of applications.

### KEY FEATURES

- 5L/h hot water output
- Stylish Boiling and Ambient touch screen tap w/ temperature display.
- Includes coconut shell charcoal green filter kit.
- Simple and safe to use, with automatic shutdown.
- Specifically designed for space-saving, under-bench installation.
- Fully insulated to achieve maximum energy efficiency.
- Complete control within 0.20oC of your desired temperature.
- Flexible hot water setting between 100oC and 40oC.
- Easy filter replacement with a single twist.
- 12-months standard warranty.
- Full range of replacement parts.

## H2OPresto Hot and Cold Package

The H2OPresto Boiler & Chiller combo by Aqua Cooler is an innovative drink system designed to sit out of sight and dispense filtered chilled or boiling water on demand.

# ACCESSORIES

Aqua Cooler Direct offers an assorted selection of cooler accessories, from a variety of filters and replacement filters, to the eco-friendly Tri-Stage Refillable Filter Bottle, taps, cup holders, POU conversion kits and more.

# Accessories

## Ceramic Dispenser with Faucet and Wooden Stand

This beautifully appointed tabletop ceramic dispenser is perfect for any situation. Choose your desired stand length and non-spill system from our range of accessories to ensure you have a complete system.

Our Short Wooden Stand lifts our Ceramic Dispenser a cup's height off a bench. This allows you to place the Ceramic Dispenser away from a bench edge. The Tall Wooden Stand raises our Ceramic Dispenser to easy fit drink bottles and larger items underneath.

Small Wooden Stand 16cm, Long Wooden Stand 70cm.

## Cup Holder

Cup holder to suit bottled or mains connected coolers. Comes with bracket to affix to cooler.

Available in black and white.

## Small Benchtop Mini Cooler

This 8.5 L chilled mini water cooler is perfect for home or office. It's fast cooling, carbon filtration system ensures you're always having fresh filtered water. This water system is easy to top up, simply remove the lid and add water.

## Tri-Stage Replacement Filter

Replacement Filter for Tri Stage Refillable Filtered Bottle. The filter contains three stages; activated charcoal, mineral stones and ceramic disk. These reduce sediment, removes chlorine taste and odour, produces great tasting, fresh filtered water.

## Economical Bottled Water Cooler

The eco-friendly Tri-Stage Filter Refillable Bottle is the revolutionary new bottle that fits all Aqua Cooler Odyssey coolers and is designed to prevent people purchasing bottled water. The bottle creates a positive impact to save money and the environment. The 14 litre bottle is perfect for home and small office use. With the use of the environmentally sustainable bottle, you will be part of a 'go green' global movement.

To reduce the amount of single-use plastic water bottles that are accumulated in landfill or polluting oceans, Aqua Cooler has created this innovative reusable bottle. The filtered water bottle killer offers incredible value. The refillable bottle is included with the water cooler in the Odyssey Eco Package for only \$299 RRP.

The long-term cost-saving benefit to home owners, renters and small office users like dentists, general practitioners and businesses, is extremely significant and can be used for years to come. Invest in the Odyssey Eco Package to save costs, improve your carbon footprint and 'go green' in your home or workplace online at Aqua Cooler Direct.

Tap water is gravity fed through a replaceable filter allowing for a constant and convenient supply of fresh filtered water.

Eco Friendly

# Filters

## 2 Micron Water Filter

The Aqua Cooler Z-8110 2 Micron Water Filter is our most popular filter. This Watermark approved filter reduces 99% of Chlorine, Taste and Odour found in standard tap water.

The filter is self housed and only requires a head (found here) in order to be attached to a 1/4" tube.

The Z-8110 should be replaced every 6 months and has a max pressure rate of 875kPa and a max flow rate of 3.5LPM.

Water Filter Z-8110

## Filter Head for Z-8110

Housing and head kit for Z-8110 Filters with easy snap on seal. Bracket and screws included. 1/4" quick connect tube fitting.

Water Filter Head Z-8115

## Green Filter - Head

Mountable filter head.

## Green Filter - Housing

Plastic housing which keeps filter replacement locked into filter head.

## Filter Brackets

Stage 1 and 2 bracket. Used to fit one and two filters.

1 & 2 Stage Filter Bracket - 16 x 9.6cm

Stage 3 bracket. Used to fit three filters.

3 Stage Filter Bracket - 25 x 9.6cm

## Green Filter - Remedi

New type of filter media combining benefits of pleated filters with a nano-technology utilising the principle of electro-adhesion. The Filter is capable of removing a wide range of water borne contaminants including bacteria, cysts, viruses, and colloidal particles. Removes CTO, Pharmaceutical and Chemical, Heavy Metal.

Capacity:

Lead: 1230 Litres, CTO 10598 Litres.

Pharmaceutical and Chemical: 756400 Litres.

2 Micron Water Filter Z-8110

## Green Filter - Carbon/Lead/Silver/Phosphate

Activated carbon block filter from coconut shell charcoal. Removes Chlorine, Taste & Odour (CTO), fine particulates, lead and scaling from water. Silver acts as a bactericide. Good for use in buildings with older plumbing systems.

Capacity: 3800 Litres..

2 Micron Water Filter Z-8110

## Green Filter - Sediment

100% polypropylene microfibers eliminating extractable material. Removes sediments and improves the texture, taste and clarity of your water.

Capacity: 60 grams.

2 Micron Water Filter GFRP-D

## Green Filter - Carbon

Activated carbon block filter from coconut shell charcoal. Removes Chlorine, Taste & Odour (CTO) and fine particulates from cold water.

Capacity: 3800 Litres.

2 Micron Water Filter GFRP-D
