

AQUACLEAR

Best Brands, Best Service

All major brands of boiling and chilled filtered drinking water units

- Supply
- Installation
- Rental
- Maintenance
- Instant, boiling, chilled and sparkling water

aquaclear.com.au

As we are independent to the manufacturers, we can supply, install and maintain all the major brands. We can advise how different brands suit certain situations.

Due to complexities with kitchen cabinets, plumbing and staff needs, a combination of brands is sometimes the smartest solution for a building.

In metro areas, we are always happy to visit and provide an obligation free quote. If you are in a rural area, we have a trusted national network of technicians, so give us a call and we will do our best to help.

Installation

Our highly qualified and skilled technicians have the experience to get it right first time. If you are renovating the office and need a boiling or chilled filtered drinking water unit moved, we can help.

Rental

We can supply and service your boiling and chilled filtered drinking water units on a fixed, hassle free rate – usually a two or three year term. Rentals are invoiced quarterly, and you have the option to upgrade or buy outright at the end of the agreed period.

Sectors We Service

We are the leading sales and service provider for all brands of drinking water filter taps nationally. Boiling, chilled, sparkling and ambient filtered drinking water units are installed across a wide range of market sectors including government, corporate, healthcare, education, small business, retail clients and more.

Our experience gained since 2008, means that we understand the particular requirements for these different types of facilities and can provide the specialist knowledge that is needed.

Government

We have earned a strong reputation by servicing many government clients over the last decade. AquaClear currently maintains over 1300 filtered water systems for one client. From Federal, State to Local Government including; Department of Treasury and Finance, Roads, Health, Education, Justice and Police are some to name a few.

Health

AquaClear proudly maintains and installs filtered drinking water taps in many large hospitals, surgeries, leading aged care facilities, dentists and allied health services across the healthcare sector.

We help you to produce safe, uncontaminated drinking water to meet stringent standards and understand the critical nature and OH&S challenges within the industry, such as water temperature tolerances.

Education

AquaClear maintains and installs filtered drinking water systems in learning centres nationwide, from universities, TAFE colleges to primary and secondary schools. We understand how your needs are likely to vary between student and staff areas. We bring the knowledge and experience gained from hundreds of institutions to your staff room or laboratory.

We anticipate that appointments need to suit your timetable, and happily arrange our day to fit into your schedule. Whether it is a leaking tap, installing a new system or changing a filter, contact us today, we will happily assist.

Corporate

AquaClear has built strong customer relationships by servicing some of Australia's largest corporate clients nationally such as lawyers, accountants, IT providers and wealth managers. Keeping our corporate clients happy has always been critical to our success

Drinking water solutions for staff breakout and refreshment areas provide essential hydration for optimum staff performance. What was once an option in the corporate office is now an everyday essential part of the office environment.

Small Business, Industrial and Retail

We have been supporting the Small Business, Industrial and Retail sectors in Australia over the last decade, emerging as one of the leading suppliers for drinking water taps and replacement water filters. We understand that even if you are small, you are still important to us. We are just as keen to serve you, even if you simply need a single filter replaced, or are just thinking about purchasing your first drinking water system.

Installing and maintaining chilled, boiling or sparkling filtered water systems in warehouse lunchrooms and office kitchenettes is our bread and butter. We will bring our experience from servicing dozens of different brands nationwide to recommend the smartest solution for your team.

Trade Sales

Our showroom is open from 7am - 5pm from Monday to Friday with shelves full of units, spare parts and filters. The friendly staff provide expert advice, have exceptional product knowledge and are more than happy to help you select the correct item that you need.

AquaClear works closely with electrical and plumbing contractors nationally, providing reliable technical support so they can create the smartest solutions for their clients.

Dealing with AquaClear means you will receive highly competitive prices and your parcel will usually arrive the next day as express shipping is the normal freight method that we use across Australia.

Best Service

With one phone call we can supply or service every brand of boiling and chilled filtered drinking water system in your organisation. Save hassles with one national supplier and one national invoice. Also, as we are independent, we're not under pressure to sell replacement units. If it makes more sense to repair, we will do that.

National Servicing

Ask how we can save you time, money and hassles by maintaining all your boiling and chilled filtered drinking water units nationwide.
