

Discover... **Wood Stone™**

(MAC600 'Rustic' in Limestone colour pictured here)

*Intelligent building and lifestyle products made with a
proprietary CMC (Cellulose Masonry Composite) material;*

Unrivalled Thermal Performance

Warmer in winter; cooler in summer. Wood Stone™ is approximately 50% mass and 50% insulation...the perfect balance for Australian conditions. In a passive thermal design, no air conditioning or heating is required*. (Proven by Architerion Design)

Stone Like, In Appearance

A beautiful look and robust feel. Dry cast comes with a bubbled stone texture. Wet cast products have a travertine like, surface pitting.

Wood Like, In Workability

That's just the start; designed with builders in mind. Easy to order, manage, lay, and install services. Mortar is standard 1:1:5 (BCA M3) with a training video.

Sustainable, Natural, Green...

Green not just in word but in deed. A natural product you can literally eat your meal off. Majority recycled components; certified organic. Trusted old world materials combined with 21st century engineering. Wholly Australian owned and made.

Virtually Fire Proof*

Every product has at least FZ rating for use in extreme bushfire areas. CSIRO credentialled. Block products are 240/240/240. (*In construction context)

Surprising Versatility

Peaceful harmony across your build, inside and out, with companion products like Travistone pavers, Ironstone sleeper system, pizza ovens etc, which connect with your main building products.

Macquarie Block

Simple, Rugged Construction With an Uncompromised Warmth and Feel That Only Solid, Wood Stone™ Masonry Can Give:
