

Clover Fields

Information Sheet

Manufacturers of Australian-Made soaps and body care, and importers of quality bathroom accessories and gifts.

Clover Fields is Australia's oldest family-owned soap manufacturer.

We pride ourselves on our dedication to designing and producing quality, Australian soaps and toiletries, that everyone can afford. March of 2018 marks our 35th anniversary, a huge feat for our owner Elizabeth Valek who started up the company when a broken ankle kept her home from her job as a nurse. A kitchen cook-up of home-made soaps has since powered into 3 and a half decades of domestic success, global export and an incredible list of clients from all sectors of business. We not only have a large range of our own products, we specialise in OEM contract manufacturing for other brands and companies.

Revolutionise your hair care, and help reduce your waste.

Replace 6 bottles of Shampoo and Conditioner with this one, powerful little bar. Shampoo with a Purpose is the first Sulphate-free formulation, AND the first major hair care bar to be Australian-Made. It's a product that's already taking the world by storm, viral videos online detailing the benefits of solid Shampoo have hundreds of millions of views. Wise consumers are searching for more and more plastic-free and environmentally friendly product options; and boy do we have the right thing for them.

If you aren't already sold on a \$15 RRP bar which replaces 6 (usually very pricey) bottles of hair care, here's a list of great uses and benefits to this groundbreaking new product:

- Completely unique to the market
- Incredibly practical for travel - no more bottle leakages in suitcases or annoying airport liquids limits
- Easy to use - lather through wet hair and rinse out!
- Young and on-trend with current market push for environmentally friendly packaging and products
- Compostable packaging, 360 degree, ZERO WASTE product
- The first Australian-Made bar made available
- Not just Shampoo - it's also Conditioner
- Will sell easily for an incredibly competitive price.
