

penn[®] ELCOM[®]

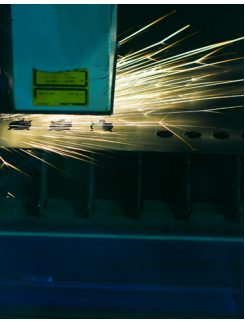

The Company

Penn Elcom is the world's leading manufacturer of flight case and speaker cabinet hardware, as well as a wide range of server, in wall, wall mounting and freestanding 19 inch racks and accessories. We have over 40 years' experience in designing, manufacturing and supplying product solutions for these specialist industries.

What We Do

Penn Elcom has worldwide manufacturing and distribution capabilities to support businesses of all sizes, and has dedicated customer service teams around the world. Our global facilities can provide local solutions for all of your onshore and offshore requirements, and can supply you with the products you need, when you need them.

Manufacturing

Penn Elcom has extensive manufacturing capabilities with a vast number of manufacturing processes available to all customers of the Penn Elcom Group. We are able to work with a wide and expanding range of materials, and can undertake speciality services when requested. Our manufacturing bases are located in the United Kingdom, China, and Mexico.

CUSTOMISATION

In addition to our considerable product catalogue, our design and manufacturing capabilities enable us to produce custom products for our clients, which are designed to fulfil their specific needs. We can also customise or personalise any of our pre-existing catalogue products.
