

**LED Screens for Events & Exhibitions**

# 3.9mm LED

Our new HD panels deliver bright, vibrant colours and excellent grey scale with a high contrast ratio. They feature a high refresh rate for a more precise display for fast-moving content.

The panels sit in a slim housing and are extremely lightweight, with a patented 'One Action Locking' mechanism, which significantly reduces assembly time.

These panels can be flown or ground stacked, and can be built to suit any size function.

# Custom LED

Our LED screens are designed to deliver the best impact for your audience. The modular panels can be built to almost any specification.

Whether it requires a custom built ground-support system, or integrating into your event design, we have the experience to make sure you get the right solution for your event.

# Outdoor LED

We have a range of outdoor LED screens for any size event. We've provided screens for some of the biggest concerts and festivals in the country. From design to show delivery, we can provide the infrastructure to present your content or live images to your audience.

We can incorporate our LED walls into our staging and structures for seamless integration of rigid structure and high-end imaging technology.

# Indoor LED

Our collection of indoor LED panels can be built to suit any size audience. From exhibition stands to large conference stages we have the full range of equipment to compliment your content.

We can integrate our LED screens into your show and provide a design to help you create the atmosphere you want for your crowd. We have a large selection of drapes, lighting and grandstand seating options to complete your theatre, seminar or break-out space.

Clifton Productions is a family owned & operated company with over fifty years' experience in the entertainment, exhibition and production industry. The Clifton's team has worked behind the scenes from inception to completion on thousands of projects Australia wide spanning music concerts and festivals, theatre, sports, broadcast events, and exhibitions. Starting with electrical, rigging and lighting installations for exhibitions and productions, our business has evolved and expanded into major event staging and grandstand seating structures that further cements our unparalleled reputation as the leading and most innovative event partner in Australia.

Our talented team of experienced & passionate event professionals are the driving force behind the ultimate success of our business, and our key partnerships with some of Australia's leading event organisers, promoters and producers. Our professionalism, extensive knowledge and attention to detail is seen in everything we do, whether it's a small exhibition hire or a month-long production. While our head office is in Melbourne, the scope of our work reaches Australia wide, and we have fully staffed offices and warehousing in Victoria, New South Wales, Queensland and Western Australia.
