

NovaChill

Product Overview

Introduction

Ian Boer Refrigeration has had 39 years of experience in the refrigeration industry, and they have seen it all! That's why they're so proud to announce they now provide NovaChill quality refrigeration, Australia-wide.

What is NovaChill? One of the most innovative and high-quality brands offered on the Australian market. NovaChill prides themselves on using extensive planning and research to build superior products.

Their products include matching display refrigerators and freezers. You can choose from a variety of models, with one, two or three doors. NovaChill is on a mission to dominate the market, replacing inferior cheaper brands with quality, cost effective and reliable display refrigeration.

Why?

Because lower quality often means more breakdowns, added downtime, loss of stock and sales, unhappy customers and higher electricity running costs.

The NovaChill team has addressed these issues with their own brand. How? By combining many much-needed solutions into one incredible product.

With NovaChill, you'll find features such as:

- Quality built cabinets
- Common spare parts used in manufacture
- Large cubic capacity units
- Excellent warranty 4-year parts, 2-years labour
- Suitable for Drinks, Dairy, Fruit and Veg, Fresh meat, Frozen foods, and Ice storage
- High ambient ratings of 43°C
- Stainless steel internal floor
- 2 points of vertical lighting per door
- Affordable pricing
- Large Power savings, compared to many units available on the Australian market

Sales:

At NovaChill, we have an experienced and professional sales team. We're here to answer any questions you or your customer may have.

Selling these units is simple, due to the many features. For example, their modern technology and their easy-to-obtain spare parts. Add to that their great looks, fantastic pricing and a 2 /4-year warranty that stands by a great product. You've got a winner, every time.

Warehouse & Logistics:

We house all stock in our Sydney & Melbourne warehouses. We also have an established network of specialised freight companies. Which means we can offer freight Australia-wide as required.

Please note that freight costs are extra and supplied as requested. You may wish to organise your own freight for pick up in Sydney & Melbourne.

We can transport your cabinets in timber crates for general freight. You'll also need forklift for unloading or specialised freight can be used with cabinets uncrated and on castors.

Warranty:

All cabinets come with a 2-year (24 Months) labour warranty & 4-year (48 Months) parts warranty. To keep your warranty valid, you must contact NovaChill if you have a breakdown. NovaChill will then have one of its trusted technicians repair your unit. All warranty work will take place Monday to Friday 9 a.m. to 5 p.m., excluding public holidays.

Standard Features

2 LED Lights per Door

Metal Shelving Clips

Stainless steel internal floors

Digital Temperature
Display

Heavy Duty Shelving

Lockable Doors

Single Door Fridge

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM600GF

Capacity: 590 litres

Dimensions: 685W x 800D x 2115H

Voltage: 240v, 10AMP

Defrost: Air

Operating Temperature Rating: 1c to 5c

Single Door Freezer

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM600GZ

Capacity: 590 litres

Dimensions: 685W x 800D x 2115H

Voltage: 240v, 10AMP

Defrost: Electric

Operating Temperature Rating: -20c to -16c

Double Door Fridge

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM1300GF

Capacity: 1320 litres

Dimensions: 1382W x 800D x 2115H

Voltage: 240v, 10AMP

Defrost: Air

Operating Temperature Rating: 1c to 5c

Double Door Freezer

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM1300GZ

Capacity: 1320 litres

Dimensions: 1382W x 800D x 2115H

Voltage: 240v, 10AMP

Defrost: Electric

Operating Temperature Rating: -20c to -16c

Triple Door Fridge

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM2000GF

Capacity: 2050 litres

Dimensions: 2079W x 800D x 2115H

Voltage: 240v, 10AMP

Defrost: Air

Operating Temperature Rating: 1c to 5c

Triple Door Freezer

Features:

-  Stainless steel internal floor
-  Metal shelving clips (Not plastic)
-  Fan forced cooling
-  Heated glass doors
-  5 rows of display per door
-  Embraco compressor
-  Large lighting box display
-  2 LED Door lights per door
-  Dixell digital temperature controller
-  Heavy duty castors
-  Lockable doors
-  Insulation 60mm
-  Auto Defrost

Model: SM2000GZ

Capacity: 2050 litres

Dimensions: 2079W x 800D x 2115H

Voltage: 240v, 15AMP

Defrost: Electric

Operating Temperature Rating: -20c to -16c
