

GREENVALLEY

CHOPPING BOARDS

BEAUTIFUL CHOPPING BOARDS MADE FROM CAMPHOR LAUREL

ABOUT US

Quality products for your kitchen and dining experience. Greenvalley specialises in Camphor Laurel log exports and our chopping boards help you to create that experience. We configure each and every part of the board, creating wholesome products that cater to your everyday dining needs. Fresh food tastes infinitely better when prepared using our Australian made boards. Enjoy it fresh and tasty by using one of the best chopping boards the industry has to offer.

Here at Greenvalley, we pride ourselves on quality inputs. We hand make them using locally sourced Australian timber from New South Wales. Our boards contain natural antibacterial properties to keep your food fresh and a beautiful reddish wood grain with a pleasant aroma from natural grapeseed oil. We aim to distinguish ourselves from low-quality imports and provide a quality, long lasting product.

Additionally, we care for the environment. Our wood species Camphor Laurel is an introduced Australian timber which requires logging to maintain the health of Australian native forests. We work in line with the environmental goals of local councils to log these trees and save our environment.

Having spent a lot of time in the kitchen, time and time again we have found it irritating to use low-quality boards which don't deliver the needed quality and aesthetic appeal required for a premium food experience. So we decided to take matters into our own hands and create our own boards that were dense with flavour and rich in colour and design. Now our dreams have become a reality. What are you waiting for? Make it your reality as well.

WHY DO WE LOVE CAMPHOR LAUREL?

- COLOURFUL AND BEAUTIFUL REDDISH WOOD GRAIN;
- PLEASANT AROMA;
- NATURAL ANTIBACTERIAL PROPERTIES;
- SUITABILITY FOR ALL SORTS OF HYGIENIC HOUSEHOLD APPLICATIONS.
