# **CoolStar Swing**

## Frameless, 100% transparency and self-closing doors

- This double-pane lightweight door is unique in the world.
- Excellent insulation, condense free characteristics and energy saving up to 50%.
- Extreme smooth opening for excellent shopping pleasure.

Self-closing hinges
Tested for over 1 million maintenance free movements. Maximum open angle 170 degrees.

**Finger safety**A 15mm child safety gap between the doors.

# **Coolstar Curve**

## Double-pane curved, frameless sliding doors with easy opening

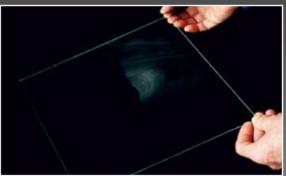

- · A new and innovative sliding lightweight door system for semi-vertical cabinets.
- CoolStar Curve is nicely cylindrical curved and follows the radius of the cabinet.
- The easy glide system offers an outstanding and customer friendly experience.

**Screen print**Decorative screen print for luxury appearance.

Anti scratch coating
Anti scratch coating is the standard feature for the ultimate protection.

# **CoolStar Slide**

## Frameless double-pane lightweight doors for small aisles

- A revolutionary Plug In Cassette system for quick and easy retrofit mounting.
  CoolStar Slide offers an integrated re-stocking feature.
- The highest shopping comfort is realised through a soft- and self-closing solution.
- Easy integration in existing and new new build cabinets.
- This double-pane lightweight sliding door solution is unique in the world.

Quick mounting
Plug in cassette for quick, easy and tolerance

Frameless
A light weight frameless system for 100%

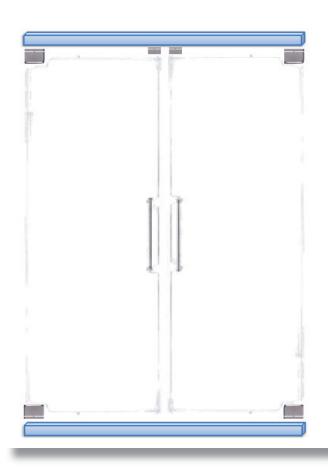

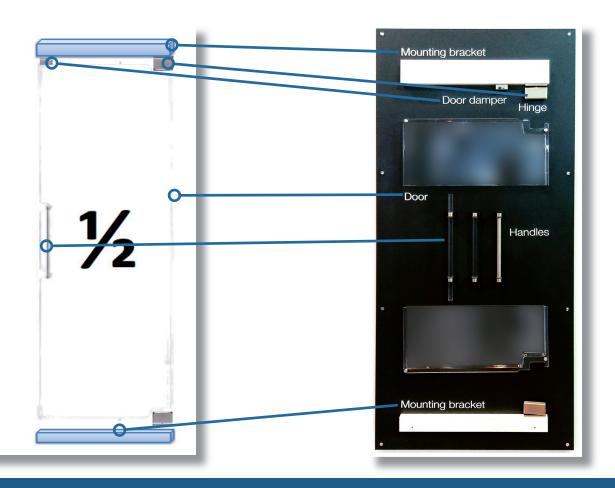

# The DoubleCOOL door principle

## **COOLSTAR DOUBLE PANE ACRYLIC DOORS**

### ABSOLUTELY FRAMELESS AND TRANSPARENT DESIGN

### SPECIFICATIONS AND WARRANTY

#### PMMA door:

Double pane transparent cast PMMA sheet

Property	Test method	Value
Warmth absorbtion	Calculation	2,0 W/m <sup>2</sup> K
Water absorption	ISO 62	0.2%
Flammability	see safety data-sheet	Class 4
Tensile strength (5mm/min)	ISO 527	75 MPa
Flexural modulus	ISO 178	3210 MPa
Impact strength Charpy (unnotched)	ISO 179	12 KJm²
Light transmission	ASTM D1003	ASTM D1003

Surface: optional scratch-resistant coating

#### Door hinge:

Close torque at fully close: 1.5 nm Auto close rotation: -5 – 40 degrees Auto open rotation: 130 – 175 degrees Stable position rotation: 40 -130 degrees Lifetime, open/close movements: 300.000

#### Adaptive door stopper:

Requirements: 1 stopper for each door

Force to close: Maximum 5n

Time to close by 5n (constant force): about 5 seconds Type of impact absorption: With brake unit and liquid

Lifetime, open/close movements: 300.000 Maintenance interval: no maintenance required

#### Retro fit:

For retrofit purpose DoubleCOOL is providing in every delivery tailor-made upper and lower adapter profiles according to the existing cabinet model.
