Billi™

... AT YOUR FINGERTIPS

At Billi, we design and manufacture a range of energy efficient filtered water systems that offer our customers the very best in innovation, superior performance and reliability.

For more than 25 years, we have maintained a commitment to excellence and quality that is second to none. Our filtered water systems are preferred by Australian designers and architects for their elegant styling and space saving design.

Billi launched the world's first underbench boiling and chilled filtered water system in the early 1990s and was instantly recognised as the premium product of choice because of its high functionality, energy efficiency and space-saving design. From that first product, our range has grown to include a full complement of commercial and domestic systems now available throughout the world.

Today, we continue to innovate. Our designs keep pace with modern building techniques, contemporary interior concepts and changing lifestyle choices. And importantly, our products continue to incorporate improved eco-technology features.

Billi offers premium after sales care and product support, ensuring that our valued relationship with our customers does not end at purchase.

Billi is designed and manufactured in Australia.

MODERN DESIGN

Stylish dispenser designs

Collaboration with architects, designers and consumers resulted in a range of sophisticated, stylish tapware that perfectly complements the style of its surroundings.

Range of finish options

Billi has a variety of finishes in its dispenser range including the popular chrome, brushed chrome, matte black and matte white with many more finishes available.

Range of site specific tapware

There is a range of tapware suited to specific applications, including a safety dispenser and XL levered dispenser with red & blue coloured levers and braille pads for vision impaired applications.

SAFETY AND USER FUNCTIONALITY

Splash free technology

Billi's Splash Free boiling water delivery varies the water flow, slowing momentarily to eliminate splashing as the water first enters the cup.

Safety first

The red lock icon demonstrates when the safety switch is activated. Simply touch the sensor switch to release the lock and activate the boiling water. It will revert to safety mode after a period of non use.

Disability conscious design

The standard XL dispenser complies with disabled access standards. XR dispenser is ideal for wheel chair disabilities with remote control dispenser activation.

Tap swivel feature

A unique swivel action allows you to swing the dispenser out of the way if you need more sink space.

UNDERBENCH TECHNOLOGY

No cupboard ventilation required

Water-cooled systems do not require cupboard ventilation or a cooling fan and operate a lot quieter than air-cooled systems. Cupboard ventilation is recommended for air-cooled systems.

Space saving design

With a focus on space saving, Billi systems are often less than half the size of comparative products, allowing you to make the most of the valuable undercupboard area.

PREMIUM FILTRATION

Billi's range of premium filters are equipped with unique Fibredyne™ technology.

The Fibredyne™ technology is a three layered structure which provides superior water quality.

ENERGY SAVING

Recovery, recycling and saving

Billi recovers the waste heat energy produced in the chilling process to preheat the boiling water, enabling our systems to achieve substantial energy savings.

Time-switch modes

An inbuilt 7 day time switch ensures the system is running only when it is needed, eliminating unnecessary out-of-hours power consumption. An energy saving stand-by mode can be selected to activate after a preset time of non use. The Billi will power down to conserve power.

Cooling technology

Billi is the only manufacturer to offer both water-cooled and air-cooled options. Our water-cooled systems are the most energy efficient option and Billi's heat-exchange technology ensures water usage is absolutely minimal.

Billi's air-cooled option generates far less heat than traditional air-cooled systems.

There is no need to compromise your lifestyle to reduce your carbon footprint. Billi is renowned for its eco focus, ensuring our sustainable appliances go beyond water and energy saving. We aim for low environmental impact to enhance the enjoyment of your personal surroundings.

A total quality commitment makes a Billi system Australia's first choice in water appliances – stylish designs combined with impressive performance.

Chilling water creates waste heat energy. Billi's patented technology recovers and reuses energy to preheat the boiling water, thereby saving energy.

Effective water and energy saving initiatives help meet Green Building Design (GBD) objectives. Billi filtered water systems offer unique power consumption advantages:

- Thermodynamic heat-exchange technology recovers and reuses heat energy;
- High performance polyethylene insulation retains water temperature and saves energy.
- Stand-by mode conserves power during set non-use periods.

Billi lets you enjoy pure, clean water without costly environmental impact through achieving optimal water and energy savings.

*On Eco, Quadra & Quadra Plus models only.

Billi's Environmental Focus

GreenTag Certification

Global GreenTag is one of the world's most robust, trusted and widely recognised ecolabels which independently assures that every product is fitness tested and certified under leading certification programs that use world's best scientific methods. They have earned the reputation and trust of thousands of buyers, hundreds of companies and numerous green building councils, certification bodies and governments around the world.

Billi complies with GreenTag International standard v.32 with Gold level certification on the Eco, Quadra and Quadra Plus models.

The assessments required to achieve the Gold level certification includes:

- ✓ Australian Made
- ✓ Building/Product Synergy
 - Makes building & other systems more efficient
 - Multiple purpose product
- ✓ Corporate Social Responsibility
 - Building code of Australia compliant
 - Complies with Australian law
 - Fit for purpose certified
- ✓ Health & Ecotoxicity
 - Considered safe to use
- ✓ LCA
 - Life Cycle Analysis – Greenhouse Gas
 - 'Low carbon'
 - Carbon footprint available
- ✓ Life Cycle Analysis – Water
 - Highly water efficient

Premium Filtration

Billi prides itself on offering world class water filtration products to the global market. Billi's filter range is tested to the strictest health standards and is certified by the globally recognised NSF public health & safety organisation which ensures the highest level of drinking water is available.

Fibredyne™ filters

Billi's range of premium filters have been integrated with Pentair's unique Fibredyne™ technology. The Fibredyne™ technology has a three layered structure with each unique layer aiding in the water filtration process. The filter range provides superior water quality, consistent filter life and peace of mind.

Key Fibredyne™ technology benefits

- Turbidity reduction and life
- Chemical taste and odour reduction
- Three layers remove cysts with a very low pressure (Unique to Pentair) drop (2-5 psi), submicron filter only
- Higher flow rate
- Scale reduction
- Advanced multi stage filtration

Multistage filtration

- \$8 billion annual revenue
- 100+ manufacturing facilities
- 30,000 employees
- 6 continents

Billi and Pentair

The relationship between Billi and Pentair commenced in 2013. With 40 years of history in purification and filtration solutions, Pentair's global footprint boasts an extraordinary \$8 billion turnover, 100+ manufacturing plants and 30,000 employees.

Offering the highest quality products in water filtration solutions on a global scale, Pentair supports its product through NSF certification, the strictest standards in health and safety ensuring Billi offers the safest drinking water.

Pentair's capabilities backed by product quality and experience is why Billi chose and continues to work closely with Pentair as a key partner in water filtration supply.

Standard filters vs Billi premium filters

Standard

CONVENTIONAL CARBON FILTER

Conventional filters are made up of granules and often held together with a resin, decreasing the surface area and therefore the quality of the filtration.

Billi

FIBREDYNE™ CARBON FILTER

Fibredyne™ technology is fibrous and matted together, increasing the surface area of the carbon meaning there is greater contact time and better quality filtration.

Replacement filters

Periodic replacement of filters is necessary to maintain water quality. Genuine replacement Billi filters are available on our website and from your local approved supplier. Filters are also available to suit the needs of different water supply areas. Billi recommend premium submicron filtration for bad water quality areas.

Easy change replacement filter

Replacing your filter cartridge is simple. Solid amber dispenser icons indicate when replacement is due. The swing change filter simply swings forward and slides off. Fitting the new filter is just as easy – simply slide the filter in and swing it back. The cartridge locks into place.

Billi offers our customers the very best innovation, superior performance and reliability and support this with a world class customer service experience.

Boiling, chilled and sparkling water systems do require maintenance.

Our commitment is to make it easy for you.

Billi Service Plans

Instant filtered drinking water systems require regular maintenance and filter replacements to ensure optimal water quality and an ongoing high level of performance.

Our Billi Customer Care team includes an Australia-wide network of trained service technicians and service agents to provide technically correct, prompt and reliable service.

Billi offers 3 plans to suit customers' requirements.

Service Plan Benefits

-  Reduce costs and downtime
-  Guaranteed priority service
-  Preventative maintenance ensures trouble-free operation for peace of mind
-  Only accredited service technicians will service your systems
-  Work with a single service company nationally to simplify call bookings

Blue Plan

A replacement filter plan. Filters are posted periodically to the client. Installation is not included.

Silver Plan

A filter replacement performed by a trained technician.

Gold Plan

Comprehensive maintenance and filter replacement plan.

Eco & Quadra - Instant boiling and chilled filtered water system

Leading the Billi range, the Eco and Quadra boiling and chilled drinking water systems are space saving, energy efficient and elegant. The functional style is designed for high use and meets green building design principles – providing you with the ultimate in environmentally sensitive appliances.

Product Code	Model	Suggested no. of people	Boiling water delivery cups per hour	Chilled water delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
901000LCH	Eco	10	90	60	10	340	180	500
904010LCH	Quadra Compact	up to 20	100	150	10	340	315	365
904020LCH	Quadra 420	up to 25	120	175	10	340	315	465
904040LCH	Quadra 440	up to 40	150	175	10	340	315	465
904060LCH	Quadra 460	up to 60	180	175	10	340	315	465
904100LCH	Quadra 4100	up to 100	250	175	15	340	315	465
904180LCH	Quadra 4180	up to 180	350	175	20	340	315	465

When specifying Billi Quadra air-cooled models, change the 4 in the product code to 5 and insert AC after the model eg: 905040, Quadra 440AC. For air-cooled units add 45mm to depth of above dimensions, does not apply to Eco.

Quadra Plus - Dual temp filtered water system plus mixer tap

Enjoy all the benefits of Billi's boiling and chilled system and more. Quadra Plus also features a separate sink mixer tap, complete with its own generous hot water supply allowing it to function as a hot water service for the mixer tap as well as providing boiling and chilled drinking water. Also available in gooseneck and square mixer tap options.

Product Code	Model	50° hot water capacity litres	50° hot water delivery litres per hour	Boiling water delivery cups per hour	Chilled water delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
904025LPCH	Quadra Plus 5	7	40	120	175	10	340	315	465
904065LPCH	Quadra Plus 9	9	60	180	175	10	340	315	465
904105LPCH	Quadra Plus 15	15	85	250	175	15	340	315	465

When specifying Billi Quadra Plus air-cooled models, change the 4 in the product code to 5 and insert AC after the model eg: 905065, Quadra Plus 9AC. For air-cooled units add 45mm to depth of above dimensions.

For all under bench filtered water systems, consideration may be needed for usage patterns and draw-off methods. 1 cup = 170ml.

Quadra Twin Plus - Dual temp filtered water system plus mixer taps

The Quadra Twin Plus features two separate sink mixer taps complete with its own hot water supply which allows it to provide boiling and chilled water as well as hot and cold for the mixer taps. Also available in gooseneck and square mixer tap option.

Product Code	Model	50° hot water capacity litres	50° hot water delivery litres per hour	Boiling water delivery cups per hour	Chilled water delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
904107LPCH	Quadra Twin Plus 15	15	85	250	175	15	340	315	465
904187LPCH	Quadra Twin Plus 21	21	100	350	175	20	340	315	465

Eco Sparkling and Quadra Sparkling - Professional sparkling systems

The Billi Sparkling systems are the ultimate drinking water appliances which instantly deliver boiling, chilled and professional sparkling filtered water.

Product Code	Model	Suggested no. of people	Boiling water delivery cups per hour	Chilled and sparkling cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
906000LCH	Eco Sparkling	10	90	100	2 x 10	C&S Boiling 340	255 180	420 365

Billi Eco Underbench Unit

Sahara - Instant boiling and still filtered water systems

As an alternative to boiling and chilled, the Sahara system dispenses boiling and an unlimited source of still filtered water.

Product Code	Model	Suggested no. of people	Boiling water delivery cups per hour	Still water delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
943010LCH	Sahara 310	10	90	unlimited	10	340	180	360
943020LCH	Sahara 320	20	100	unlimited	10	340	180	460
943060LCH	Sahara 360	60	180	unlimited	10	340	180	460
943120LCH	Sahara 3120	120	250	unlimited	15	340	180	460

Sahara Plus - Instant boiling and still filtered water systems

An alternative to the Quadra Plus, Billi's Sahara Plus system dispenses boiling and still filtered water and supplies a separate sink mixer. With its under sink boiling water reserve, Sahara Plus is ideal for kitchens, lunchrooms or breakout areas. Also available in gooseneck and square mixer tap options.

Product Code	Model	50° hot water capacity litres	50° hot water delivery litres per hour	Boiling water delivery cups per hour	Still water delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
943025LPCH	Sahara Plus 320	7	25	100	unlimited	10	340	180	460
943065LPCH	Sahara Plus 360	9	40	180	unlimited	10	340	180	460
943125LPCH	Sahara Plus 3120	15	65	250	unlimited	15	340	180	460

A reserve of boiling water is still available after hot water is fully drawn.

Alpine - Chilled and still filtered water systems

Never run out of chilled filtered water with the Billi Alpine system. Providing a constant stream of fresh filtered chilled water the Billi Alpine offers premium filtration, easy installation, lower power consumption all with a choice of dispenser. The Alpine 125 system offers the convenience of both chilled and still filtered water from a single dual temperature dispenser.

Product Code	Model	Dispenser type	Suggested no. of people	delivery cups per hour	Power supply (amps)	Height mm	Width mm	Depth mm
932060RCH	Alpine 060	Round Slimline*	12	60	10	340	180	460

WARM

KwikWash I Series

The KwikWash I Series is a highly energy efficient instant warm water unit.

By incorporating unique heating technology which directly heats water without a conventional element, the KwikWash I Series dispenses warm water with 99.7% energy efficiency.

Billi's Kwikwash I Series is also NSW Health certified as a temperature control device.

Product Code	Model	Min Flow Rate L/m	Rated Power (kW)	Rated Amps	Height mm	Width mm	Depth mm
960001	KwikWash I Series unit	1.5	9.6	40	295	210	125

WARM

KwikWash I Series Plus Sensor Tap

The KwikWash I Series Plus range allows you to utilise the highly energy efficient KwikWash I Series underbench unit in conjunction with 1 or 2 handsfree taps saving time, water and power!

Product Code	Model	Min Flow Rate L/m	Rated Power (kW)	Rated Amps	WELS rating	Height mm	Width mm	Depth mm	Tap Hole Size mm
960101	KwikWash I Series Plus 1 Bench Mount Tap	1.5	9.6	40	6 Star	295	210	125	35
960102	KwikWash I Series Plus 1 Wall Mount Tap	1.5	9.6	40	6 Star	295	210	125	45
960103	KwikWash I Series Plus 2 Bench Mount Taps	1.5	9.6	40	6 Star	295	210	125	35
960104	KwikWash I Series Plus 2 Wall Mount Taps	1.5	9.6	40	6 Star	295	210	125	45

Hands-Free Sensor Tap

The Billi sensor taps have a unique electronic sensor built into the spout which automatically detects hand movement in the hand washing zone and shuts off as soon as you move your hands away, reducing water wastage. They are available in both wall and bench mounted.
