About Us

At Wiltrading STACE, we Certify safety through accreditations and expertise.

We therefore work hard to ensure that our accreditations and qualifications meet our customer needs and ensure the highest calibre of workmanship. This is done through OEM, Quality and Technical accreditations.

Our mission is to enable our customers to manage and meet statutory and regulatory requirements for recertification of safety systems with minimum disruption.

Wiltrading STACE was created through the integration of Wiltrading Pty Ltd and STACE Pty Ltd in 2012, with formal integration occurring in January 2016.

Wiltrading was founded in 1986, offering integrated activities in marine and offshore, life saving equipment and fire fighting systems servicing. STACE Pty Ltd (Systems Testing and Certification Engineering) has been operating in Australia since 1994 as leaders in the testing and certification of mechanical, fire, hyperbaric and pressure equipment to the Defence and Industrial sectors. The integration enabled the two companies to maximise their skills, knowledge and coverage across industries. Together, we hold Original Equipment Manufacturer (OEM) Approvals, Technical and QHSE Accreditations and have a highly trained team that can assist with any requirement. We have significant

experience in providing services under Original Equipment Manufacturer (OEM), Classification Society and Flag State requirements. Wiltrading STACE enjoys the full support of its parent group Wilh. Wilhelmsen Investments (WWI). Globally, we have strong links with the wider Wilhelmsen Group, underpinning the stability of both companies and further complementing our breadth of expertise.

As experienced sales and service providers to Marine & Offshore, Defence and Industrial sectors, Wiltrading STACE offer our Customers innovative solutions and impeccable service. Wiltrading STACE regularly provides recertification, inspection, service, maintenance and new products for critical safety equipment in a timely manner to a very high standard. Wiltrading STACE understands that this equipment is often mandatory in order for our

customers to be able to perform their day to day operations and therefore time and cost efficiencies are critical. In all activities, Wiltrading STACE follows regulatory and manufacturer's instructions, and guidance, in relation to the selling and servicing of equipment.

Wiltrading STACE has fully equipped facilities and highly trained and accredited service technicians located around Australia, including Perth, Karratha, Darwin and Sydney. In addition, Wiltrading STACE has a team of mobile service technicians that are on-call for deployment throughout Australia, New Zealand and into the Pacific on a 24 hour basis. Wiltrading STACE has the capability and accreditation to service a wide range safety & mechanical equipment.

Our company principles govern our behaviour, actions and performance. They are based on our values and apply to us all.

We are committed to conducting our business in line with our vision, values and code of conduct. We aim to achieve the desired results in the right way.

Corporate & Social Responsibilities

We will meet this commitment by:

Complying - Respecting the laws, regulations and cultural values of the countries in which we operate.

Reflection - Our decisions include reflections on the impact they have on our interests, how they affect our surroundings and the societies in which we operate.

Respect - Conduct our business with respect for human rights and internationally accepted labour standards.

We are all in this together - Everyone who works for or with Wiltrading STACE is expected to adhere to our values, Code of Conduct and company principles.

Environmentally responsible - Supporting a precautionary approach to environmental challenges and support initiatives to promote greater environmental responsibility, by encouraging the development and usage of environmentally-adapted technologies.

Monitor - Monitoring, assessing and reporting on our conformity with the principle.

Quality, Health, Safety & Environment

Excellence in QHSE is of paramount importance to Wiltrading STACE and is governed by our QHSE Policy Statement along with robust, proven and fully integrated policies and procedures. Our Quality Management System is an integral part of the business and is subject to continuous improvement and development. This enables Wiltrading STACE to maintain a high level of quality certification that directly benefits its customers.

Wiltrading STACE holds a range of QHSE, Original Equipment Manufacturers (OEM) and Technical Accreditations.

Wiltrading STACE QHSE Policy Statement

Wiltrading STACE provides repair, maintenance, inspection and certification support services to the Maritime, Defence, Mining and Oil & Gas sectors.

Our overall aims are:

- To work closely with our customers in order to gain an understanding of their requirements and to ensure that our services meet or exceed their expectations and within budget.
- Conducting our business with care for the health and safety of all employees and with respect to the environment and community. With the aim of zero work related injuries and zero incidents effecting the environment.

- To minimise and prevent pollution in order to protect the environment.
- Continuous improvement of our business and services.

We achieve this through maintaining, monitoring, reviewing, auditing and continually improving the Integrated Management System.

Wiltrading STACE has implemented a framework to ensure that our employees and subcontractors understand they must be concerned with, and take responsibility for quality, health, safety and the environment at all times. We encourage our staff to participate in improving the efficiency, effectiveness and performance of the system.

Wiltrading STACE is committed to focusing on the following in order to achieve its overall aims;

- Complying with legislation, standards, specifications, codes of practice relevant to the Integrated Management System and Client requirements.
- Providing sufficient and suitable resources to implement and maintain the Integrated Management System.
- Educating, communicating and training in order to continually improve the skills of our staff, awareness and knowledge of quality, safety and environmental issues and practices.

- Identifying, reporting, investigating and resolving all non-conformances, incidents and hazard observations in order to identify actions to prevent recurrence.
- Establishing meaningful and measurable quality, health, safety and environmental objectives and targets.
- Monitoring and evaluating the performance of subcontractors and suppliers and implementing effective communication with them on compliance issues.
- Sustainable implementation of energy, water and environmentally efficient practices to reduce our environmental footprint.
- Conducting our technical, inspection, testing and certification services with fairness, honesty, objectivity and without conflict of interest.

Services

Wiltrading STACE's qualified workforce are well practiced in providing varied services based around recertification, inspection, testing, service, maintenance, project & asset management and new products for various firefighting, lifesaving, breathing air and mechanical equipment.

We offer comprehensive service, support and maintenance using our highly skilled technicians to ensure maximum in-service utilisation and product life on your equipment.

Wiltrading STACE develop and recommend maintenance schedules that include certification, trouble shooting and preventative maintenance along with routine testing to industry standards.

We inspect, test, service, maintain and recertify:

🔧 Firefighting Systems

- 🔧 Fixed Fire Systems
- 🔧 Portable Fire Extinguishers
- 🔧 Fire Hoses & Fire Hydrants
- 🔧 Foam Sampling & Analysis
- 🔧 Fire & Blast Proof Doors & Walls

🔧 Breathing Air Systems

- 🔧 Breathing Apparatus, EEBD's & Self Contained Breathing Apparatus
- 🔧 Royal Australian Navy (RAN) ELSRD's (Emergency Escape Breathing Device)
- 🔧 RAN OCCABA (Breathing Apparatus) Contractor for RAN OCCABA in WA
- 🔧 BA Compressors
- 🔧 Gas Detectors
- 🔧 BA Cylinder Hydro Testing & Refills

🔧 Life Saving Equipment

- 🔧 Lifeboats, FRC, MOB & Rescue Boats
- 🔧 Davits, Winches & Release Hooks
- 🔧 Donut Descent Devices

🔧 Mechanical Equipment

- 🔧 Pressure Vessels, Relief Valves & Gauges
- 🔧 Compressors
- 🔧 Valves, Pipework & Heat Exchangers
- 🔧 Flexible Hosing
- 🔧 Oxygen O2 Cleaning
- 🔧 Chemical Cleaning

FIRE FIGHTING SYSTEMS

Wiltrading STACE have extensive capabilities in the service, maintenance and supply of fire equipment.

Our expertise include:

- 🔧 Recertification of fire extinguishers in line with Australian Standards
- 🔧 Recertification of fire extinguishers in line with IMO requirements
- 🔧 Testing, service, inspection and maintenance of fire suppression systems to regulatory and OEM requirements
- 🔧 Fire Suppression System servicing covers Inergen, Water Mist, Gaseous, Deck Integrated Fire Fighting Systems (DIFFS), Deluge, Foam, Spray Systems and Galley Systems.
- 🔧 Fire Protection Association of Australia approved Extinguishing Agent Handling License, including Halon
- 🔧 Foam Sample Analysis
- 🔧 Testing of cylinders at our SAI Global approved test stations
- 🔧 Testing of hoses, hose reels, fire hydrants and fire monitors
- 🔧 Fire hoses can be tested and supplied with NATA endorsed certification if required

- Inspection, service and maintenance of fire & blast proof doors & walls
- New supply of firefighting appliances and apparatus

In most cases work is completed on-board or onsite however if pressure testing is required, cylinders will be sent to one of our facilities. Wiltrading STACE can arrange removal, testing and reinstallation of cylinders requiring this service.

Wiltrading STACE has established a fire extinguisher exchange program, so that any equipment which fails testing is able to be repaired or replaced as required with minimal interruption to the vessel or facilities operations.

BREATHING AIR SYSTEMS

Wiltrading STACE are leaders in hyperbaric services, delivering customised solutions for our Clients.

Our hyperbaric technicians are OEM accredited and experienced in testing, inspection, service, maintenance and recertification of breathing apparatus and compressors onshore and offshore.

We specialise in the supply and service of:

- Self-Contained Breathing Apparatus, Emergency Escape Breathing Devices
- Royal Australian Navy ELSRD's & OCCABA (DOD Approved Hyperbaric Repairer/MSA Certified)
- Breathing Air Compressors
- Breathing Air Cylinders
- Smoke Hoods
- Breathing Air Sample Analysis
- Hydrostatic testing and certification
- Hire of Breathing Apparatus
- Servicing of individual components

Wiltrading STACE recognises that reliable and fast turnaround time is critical for our customers and we are renowned for our prompt and efficient service. Wiltrading STACE provides customised solutions for each client's requirements, including service scheduling.

Servicing is completed to current standards and regulations as governed by national authority safety regulations, flag state, or OEM requirements.

As with firefighting equipment, there are certain elements which cannot be completed on-board or onsite due to the level and sensitivity of test equipment required, however in many cases recertification can be carried out by the on-board or on site team. Should equipment need to be sent to one of our facilities for service or repair there will be substitute equipment available for short or long term hire to cover the vessel or facilities safety responsibilities.

LIFE SAVING EQUIPMENT

Wiltrading STACE specialise in lifeboat, fast rescue craft (FRC), rescue boat, davit, winch and hook servicing and are industry leaders in inspection, service and certification.

With service expertise, OEM authorisation and genuine OEM replacement parts, Wiltrading STACE offer unrivalled service qualifications with technicians trained by OEMs and holding current certification.

Wiltrading STACE service teams constantly review and update work scope documentation including reporting and scheduled servicing with the latest proprietary manufacturer data available only within authorised OEM networks.

With our extensive experience, expertise and Class Approvals in this area, we are also able to carry out inspections under flag state approval.

Lifeboats, Fast Rescue Craft (FRC), Rescue Boat and Rigid Hull Inflatable Boats (RHIB) maintenance includes:

- Annual and five yearly inspection by OEM qualified service technicians
- Function testing of release hooks and winch mechanism
- Repair and recertification of damaged equipment
- Major refurbishment and life extension projects

Davit & Winch inspection includes:

- Full disassembly and inspection for deterioration and wear on gears, bearings, seals and brakes – both holding and lowering.
- Checks for weakness and exposure
- Dynamic winch brake test to determine system integrity.
- Change out of fall wires
- Repair of inoperative equipment Hooks
- Annual and five yearly service, inspection and repair by OEM trained and accredited technicians
- Exchange hooks offered for five yearly service

MECHANICAL EQUIPMENT

Wiltrading STACE exceed the demands of today's quality conscious customer and provide the highest level of testing and certification services. We work confidently alongside our clients, providing experienced project-specific personnel and resources to achieve contractual and quality requirements safely.

Wiltrading STACE is renowned for high quality, efficient testing and certification services. Because we know that a fast turnaround time can often be critical, we specialise in expedited testing and certification.

Mechanical Services offered include:

- Cylinder testing to Australian Standards AS2030, AS2337 and to manufacturer's specifications
- Annual SCUBA cylinder hydrostatic testing to Australian standards
- NATA inspections on pressure equipment and fabricated metal components and products
- Servicing, testing and calibration of relief valves, valves and hoses
- Testing and verification of pressure gauges

Valves, Pipe Work & Heat Exchangers involves:

- Supply, testing and installation of valves and piping
- Repair and overhaul of heat exchangers
- In-situ chemical cleaning of heat exchangers and pipe systems

Our size and superior access to equipment, facilities and products means we have the ability to conduct the entire work scope, from supply and installation through to service and repair, as well as testing and certifying.

Our team consists of qualified personnel with a wealth of experience in supply, service, cleaning and installation of valves, vessels, pipework and heat exchangers. We employ a number of mechanical fitters, pressure vessel inspectors and breathing apparatus & compressor technicians.

Wiltrading STACE is nationally qualified to undertake the inspection of Pressure vessels categorised as hazard level B or C according to the criteria set out in AS 4343 and can assist with the registration of these vessels as required by state regulatory bodies.

ASSET MANAGEMENT AND COMPLETE SERVICE OFFERING

Wiltrading STACE's Asset Management System allows us to track each individual asset by serial number, including next date of service and relevant certification. This provides a complete history of the asset and provides the means for Wiltrading STACE to provide its clients with a forward look ahead to assist in planned maintenance.

With an accurate forward outlook, Wiltrading STACE can assist its clients to identify opportunities to align individual vessel maintenance activities to reduce the number of maintenance availabilities throughout the year.

Wiltrading STACE can easily upload the asset details for clients into the Asset Management System following a site audit, and begin managing maintenance activities for the complete fleet immediately.

Wiltrading STACE's Asset Management System and complete service offering provides our clients with a single point of responsibility for management of lifesaving, firefighting, breathing air and mechanical equipment leading to improved management of safety and operational compliance.

A single point of responsibility with Wiltrading STACE for management and servicing all critical safety equipment will reduce risk, add value and reduce operating costs through:

- ❖ Helping improve management of statutory compliance
- ❖ Reduction in the number of Vendors to manage and maintain
- ❖ Reduction in mob/demob cost and servicing durations by utilising our multi-skilled Service Technicians
- ❖ Access to the Wiltrading STACE Asset Management System to assist with planned maintenance activities
- ❖ Local support with fully equipped facilities and test equipment situated in Perth, Karratha, Darwin and Sydney, along with a team of trained and accredited mobile Service Technicians
- ❖ Dedicated customer support staff, account managers and on-call technical support
- ❖ Reduction in lead times for materials and spares through identification of long lead items and the use of local warehousing facilities
- ❖ Competitive pricing and high-quality equipment from OEMs guided by an understanding of applicable standards and usage requirements

Facilities

PERTH – Head Office, 42 Zedora Turn, Henderson, WA 6166.

Recertification, inspection, testing, service, maintenance, administration, management, customer services & warehousing.

- Relief Valve Test Station and Breathing Apparatus Test Equipment.
- Cylinder Hydrostatic Test Station.
- Breathing Air Fill Station.
- ISO Certified Hyperbaric Clean Room.

OEM Accreditations

Wiltrading STACE has enduring partnerships with many of the world's leading manufacturers of safety equipment to ensure all product recommendations and solutions are appropriate and sustainable.

Wiltrading STACE are authorised sales and service representatives for the below listed Original Equipment Manufacturers (OEMs), with fully trained, accredited and highly skilled service technicians to supply and maintain industry best product ranges from some of the world's leading manufacturers.

Wiltrading STACE are proud to represent the following Original Equipment Manufacturers (OEM's).

Palfinger Marine

Palfinger Marine is the global market leader in marine life saving systems. Designing and manufacturing a wide range of innovative lifeboats, davits, winches and rescue boats which all have one purpose, the safe evacuation of crews, passengers and offshore workers. The acquisition of Noreq allowed Palfinger Marine to expand its service offering to include fast rescue craft, davits and additional lifeboat designs.

Palfinger Marine products meet all statutory requirements including SOLAS, LSA Code and required government standards. Often, they lead those standards, and work closely with governments to bring improvements to safety into regulation, so that all mariners benefit, not just those employed by our clients.

Wiltrading STACE is the sole authorised Sales & Service agent for Australia.

Henriksen Hooks

Henriksen is renowned globally for its high-quality hooks and products. Henriksen Hooks are designed for Fast Rescue Crafts (FRC), Man Overboard Boats (MOB), daughter crafts, Rigid Inflatable Boats (RIB) and workboats. The wide range of products includes:

- ❶ Standard Hooks
- ❷ Geared Hooks
- ❸ Remote Release Hooks
- ❹ Twin Systems
- ❺ Lifting Rings
- ❻ Accessories (incl. Swivel Joints)

Wiltrading STACE is the only authorised Sales & Service agent for Australia, offering new product, exchange hooks, servicing and re-certification.

Maritime Partner Boats

Maritime Partner is one of the world's leading providers of reliable, quality built boats from 5-25 metres with a wide range including Alusafe, Springer, Seabear & Weedo. The Maritime Partner range of boats are proven in many applications, including:

- Search & Rescue
- Navy & Coastguard
- Fisheries
- Offshore Service Vessels
- Fast Rescue Daughter Craft
- Oil Exploration & Production
- Shipping
- Cruise

Wiltrading STACE is the sole authorised Service & Sales Agents of Maritime Partner in Australia.

Zodiac Milpro

Zodiac Milpro is the world leader for military and professional RIBs and inflatables. Today, Zodiac Milpro has more than 20,000 boats in daily use by over 80 military forces across the globe. The range of inflatables & RIBs include:

- Emergency Response Boats
- Workboats
- Military Boats

Wiltrading STACE is an authorised Sales & Service agent.

Donut International Personal Descent Devices

Donut International have over 25 years' expertise in the supply, development and manufacture of personal escape equipment for applications within the Petroleum, Gas, Marine, Renewable and Construction Industries, both Onshore and Offshore. With tens of thousands of units sold and in service globally, Donut is classed as the industry standard for Personal Controlled Descent Devices

Wiltrading STACE is an authorised inspection and recertification agent for Donut Products in Australia. We are experienced in providing this service both onshore and offshore.

Bauer Kompressoren

BAUER KOMPRESSOREN is a world leader in manufacturing of medium and high pressure compressors and systems, offering a wide range of capacity and pressures. Together with its wide spectrum of additional accessories, Bauer offer customised solutions for each application and requirement.

BAUER specialise in:

- Breathing Air
- Air and Gas Purification Systems
- Industrial Air & Gases also Helium, Hydrogen, Nitrogen etc.
- Gas injection technology
- CNG/NGV (Compressed Natural Gas) for vehicle refuelling and compressing systems

Wiltrading STACE use only genuine OEM parts and have highly experienced and qualified staff to service Bauer units onshore and offshore.

Wiltrading STACE is an accredited Sales and Service agent for Western Australia.

3M (Scott Safety)

Scott Safety is a world leader in the design, manufacture and sale of high-performance respiratory protection, with a history dating back to 1932. Wiltrading STACE is an authorised Sales & Service Agent, specialising in both SOLAS and Australian Standards breathing apparatus. All items are pre-sale certified for your records, and for peace of mind.

Wiltrading STACE can provide new product, service and recertification through OEM accredited and trained service technicians, using OEM parts.

MSA Safety

MSA Safety is a global leader in the development, manufacture and supply of safety products that protect people and facility infrastructures. Many MSA products integrate a combination of electronics, mechanical systems and advanced materials to protect users against hazardous or life-threatening situations.

MSA Safety's comprehensive line of products is used by workers around the world in a broad range of markets, including oil & gas, petrochemical, fire services, construction, mining, and military. MSA Safety's core products include self-contained breathing apparatus, fixed gas and flame detection systems, portable gas detection instruments, industrial head protection, fire and rescue helmets, and fall protection devices.

Wiltrading STACE is an authorised Sales & Service agents for Australia.

Compass Water Solutions

Compass Water Systems has over 25 years' experience in designing and manufacturing water treatment equipment. Products include:

- Oily water separators
- Reverse osmosis fresh water makers
- Industrial waste treatment systems and the associated filtration and separation components

Wiltrading STACE is an authorised Sales & Service agent for Compass Water Solutions in Australia.

Van Dam Maintenance and Repair

Van Dam Maintenance & Repair provides a wide range of services and activities, such as surveys/advise, supervision, parts delivery, full EPC and turn-key execution, maintenance/service agreements, offshore and voyage repairs. They can provide maintenance, repair, refurbishments and upgrades of:

- Fire and blast doors, windows and wall systems
- Fire, thermal- and acoustic insulation
- Interior bulkheads, ceilings and doors
- Furniture
- Flooring
- Wet-units
- Wooden decks and fenders

Van Dam range of services can be provided by local Wiltrading STACE trained resources, under the Van Dam Maintenance & Repair and Wiltrading STACE exclusive Agency Agreement for Australia & New Zealand.

Fire Safety Equipment (Amerex)

Amerex Fire Pacific is one of Australia's leading suppliers of fire protection equipment and has been providing the nation with quality and innovative solutions for over 20 years. With a focus on special hazards, Amerex has developed a range of fire extinguishers, fire systems and maintenance equipment to meet the different challenges faced by our customers.

Wiltrading STACE is an authorised Sales & Service agent for Amerex Fire Pacific.

Light Structures AS

Light Structures is the world leading supplier of fibre optic condition monitoring systems based on Fiber Bragg Grating technology (FBG). Fibre optic systems offer excellent reliability and unique data quality compared to conventional technology. The patented SENSFIB product range includes Hull Stress Monitoring, Ice Load Monitoring, Sloshing Monitoring, FPSO Monitoring with customised Hull Info software. In addition to operational data, its systems provide data for Active Fatigue Management reports.

The core SENSFIB system can give the crew and operator/manager real time vital information about the hull/containment system/structure.

Wiltrading STACE is the only authorised Sales & Service agent for Australia.

Red Rock Oilfield Services

Red Rock Oilfield Services is a leading provider of pipeline and refinery services in the Oil and Gas industry offshore and onshore over the past 20 years. Red Rock are a pipeline services company specialising in:

- Pipeline pre-commissioning /de-commissioning
- Hydro-static and pneumatic pressure testing
- Flange/internal weld testing for localised pressure testing
- Project Management
- De-watering and Drying

Red Rock Oilfield Services has a large range of equipment available for hire including Diaphragm Pumps, Diesel Driven Pumps, Launchers and Receivers as well as extensive project management capabilities.

Proudly West Australian owned and managed, Red Rock Oilfield Services is dedicated to providing pipeline services to the oil and gas industry.

Red Rock can assist in all aspects of cleaning, testing, and commissioning pipelines, its highly qualified and experienced team ensure that Clients requirements are met to the highest standard.

Wiltrading STACE is an authorised Service agent for the Northern Territory.

At Wiltrading STACE, our customers are at the heart of what we do, and we continuously strive to meet and exceed expectations.

Customers & Experience

Whether it is a large scale project, long term contract, complete systems asset management, or regular sales and service, Wiltrading STACE has successfully performed inspections, certification, services, maintenance, repair and supply for a variety of prestigious clients.

Some of our valued customers from different industries are listed below.

Defence

- Naval Ship Management (NSM)
- Serco Defence
- Joint Logistics Unit
- Department of Defence
- Australian Border Force (ABF)
- BAE Systems
- Australian Submarine Corporation (ASC)
- Austal Ships
- Thales
- Norship
- Royal Australian Navy
- Atlantic & Peninsula (A & P) Australia
- James Fisher Defence (JFD)
- Submarine Escape Training Facility (SETF)

Marine

- Riverside Marine
- Riverwijs
- Rivotow Marine
- Mermaid Marine
- SolstadFarstad Shipping
- DOF Subsea
- P&O Cruises
- Svitzer Australia
- Westug
- TT-Line
- Holland America
- Siem Offshore
- Shell Tankers
- Chevron Asia Pacific Shipping
- BP Shipping

Offshore

- Woodside Energy
- Shell Australia (Prelude)
- Inpex
- BHP Billiton
- Chevron Australia
- Conoco Phillips
- MODEC
- Beach Energy (formally Origin)
- PTTEP
- Shell Philippines

Industrial

- Total Waste Management
- Rio Tinto
- Department of Fire & Emergency
- Coates Hire
- Atlas Copco
- Schlumberger Australia
- Department of Corrective Services
- Alcoa
- Oceaneering Australia
- Newcrest Mining

Major Projects

Woodside Energy Limited

Provision of services and materials for all production safety systems and equipment on Woodside operated onshore assets, FPSO's and offshore assets in Australia.

Shell Australia

Provision of services and materials for fire fighting and life saving systems on-board the Prelude FLNG facility.

INPEX Operations Australia

Provision of services and materials for all fire fighting and specialist safety equipment on the onshore LNG processing facility and offshore CPF and FPSO.

Beach Energy

Provision of services and materials for firefighting and lifesaving equipment on the Otway Gas Plant and offshore Thylacine Platform.

Naval Ship Management (NSM)

Provision of services and materials for firefighting, breathing air systems, mechanical equipment and lifesaving equipment on the ANZAC Class, Landing Helicopter Dock (LHD) ships and LHD Landing Craft (LLC).

Thales Australia

Provision of services and materials for firefighting, breathing air systems, mechanical equipment and lifesaving equipment on the Armidale Class Patrol Boats (ACPBs) and Hobart Class DDGs.

Austal Ships

Provision of services and materials for firefighting, breathing air systems, mechanical equipment and lifesaving equipment on the Cape Class Patrol Boats (CCPBs).

Shell Tankers Australia

Provision of services and materials for firefighting, breathing air systems, and lifesaving equipment on the fleet of LNG tankers.

Provision of services and materials for firefighting and breathing air systems for its fire fighting equipment and breathing apparatus.
