

JOINT CAPABILITY STATEMENT

THE PURPOSE

This document is composed to assist our clients and the supply chain understand the purpose of our approach, the operating structure along with a high-level understanding of the benefits and additional services that our relationship can deliver.

COMBINED SERVICES

The bringing together of the services and specialisations provided by Vertech, Geo Oceans and Sonomatic couldn't be more complimentary or interlink more seamlessly with a combined offering including Marine class inspection, Mini ROV's, Subsea, advanced and conventional NDT coupled with specialist maintenance packages all within one group.

GEO OCEANS OVERVIEW

Geo Oceans develops innovative mini-ROV technology to provide clients with asset deployed inspection ROV inspection services. The Mini-ROV Class Survey System (CSS) consists of advanced sensor, tooling and manipulator ROV technology that has been developed by Geo Oceans to provide clients with large cost savings compared to traditional diver and work class ROV methods.

Geo Oceans works with Vertech to provide our clients with industry-leading and turnkey Class inspection services using Remote Access technologies. Sonomatic compliment this team by bringing specialist Advanced NDT services which are deployed using the mini-ROV CSS.

SONOMATIC OVERVIEW

Sonomatic is a worldwide organisation whose expertise in ultrasonic inspection design, development and application, dates back more than 30 years to our roots in the nuclear sector. Today the company has widened its focus and provides proven yet pioneering services to customers in defence and power generation, but our largest client base is in the challenging oil and gas industry, both upstream and downstream.

Sonomatic's capabilities for the development of software, systems and scanners, often for bespoke applications, coupled with the expertise of our engineers, means we are among the leaders within this highly specialised field.

Sonomatic pioneered industrial application of a range of inspection methods now widely used, e.g. Time of Flight Diffraction (TOFD), and continues with active development of innovative inspection and deployment methods that are applied by our own team of experienced field service engineers.

Sonomatic also provides Integrity Services, supporting our clients with planning and evaluation of inspections and using advanced statistical methods to maximise the value of data obtained. Integration of our integrity and inspection services for Non-Intrusive Inspection (NII) benefits the client by allowing vessels and equipment suitable for NII to be identified and reduces the need for costly plant shut downs to assess the internal condition.

ADVANCED NDT INSPECTION

SUBSEA INSPECTION

INTEGRITY SERVICES

NON INTRUSIVE INSPECTION

RESEARCH AND DEVELOPMENT

ROBOTICS INSPECTION

WELDING ENGINEERING

DATA SCIENCE

GROUP SERVICES

GENERAL SERVICES

IN SERVICE INSPECTION

Statutory Inspection of Process Plant and Structures

NON DESTRUCTIVE TESTING

A comprehensive range of high quality conventional & specialised NDT

LIFTING EQUIPMENT INSPECTION & MANAGEMENT

NATA accredited Inspection of lifting equipment and cranes

REMOTE DIGITAL VISUAL INSPECTION & UAV'S

Innovative RDVI services using the latest Crawlers, UAV's and technology

FABRIC MAINTENANCE

High Mobility Pressure System, Jetty and Structural Fabric Maintenance

SPECIALIST ACCESS MAINTENANCE & TRADES

High mobility specialist Maintenance and Project Services

SPECIALIST PACKAGES

Inspection Repair and Maintenance (IRM)

PIPE ACCESS SUPPORT SOLUTION - PASS PACKAGE

Pipe access & IRM solution for Corrosion under pipe supports

VERTECH FLARE PACKAGE - V-FLARE

Turnkey Flare Tip Maintenance and Chane Out services

VERTECH ACCESS PACKAGE - ASPECT

A high mobility access package for underdeck inspections repairs and modification

FIXED PLATFORM INSPECTION - F-PIP PACKAGE

Facility deployed rovr node scanning, 3D modelling & structural or CP inspections

DIGITAL PRESSURE SYSTEM - DPS PACKAGE

Digital non intrusive inspection package

FIXED ASSET REMEDIATION SERVICES - FARS PACKAGE

A high mobility, turnkey remediation package

VERTECH SAFE-LIFT PACKAGE

A turnkey lifting and lifted equipment management database and inspection services

MLA MAINTENANCE

Mobile offshore drilling inspection, repair, maintenance and confined space management

GROUP SERVICES (CONT)

SPECIALIST PACKAGES (CONT)

RISER, TURRENT & MOORING PACKAGE

Survey, Inspection, Trades, Preservation & Confined Space Management, High Risk Environment

OFFSHORE PRODUCTION HULL & TANK PACKAGE

Access, Survey, Inspection, Trades, Preservation & Confined Space Management

MOBILE OFFSHORE DRILLING PACKAGE

Survey, Inspection, Mini-ROV CSS, Classification Society UWILD / IOWS, Preservation & Confined Space Management

JETTY INSPECTION PACKAGE

Survey, Inspection, Trades, Preservation & Confined Space Management, High Risk Environment

UNMANNED CARGO TANK INSPECTION PACKAGE

NII & Advanced NDT

MINI-ROV ASSET DEPLOYED PLATFORM AND FIELD SURVEY PACKAGE

Subsea Jacket, Pipeline & Wellhead Inspection and Survey

SERVICES

ACCESS

ACCESS SERVICES

- Rope Access
- Remote Operated Vehicles (OBS-ROV)
- Decking & Netting Systems
- Confined Space Entry
- Remote Video Inspections (RDVI)
- Emergency Response & Rescue
- Rescue Plan Development

INSPECTION

INSPECTION SERVICES

- General NDT
- Advanced NDT
- Classification Inspection & Survey
- Marine Habitat Survey
- Welding Inspection
- Mooring Inspection & 3D Modelling
- Workpack & Scope Development

PRESERVATION

PLANNING & PRESERVATION

- Mechanical Cleaning
- Coating Remediation & Repair
- High Pressure Blasting
- Class Welding & Fabrication
- Composite & Engineered Wraps
- Cathodic Protection Installation
