## 4S Dawn Clinical Software

Stand 66

Reduce rheumatology incidents and costs.

DAWN Rheumatology software is designed to help you establish a more efficient, effective and safer way to manage patients on DMARD and anti-TNF drugs. Track and record non-attendances, missed blood tests, out of line results and disease activity scores quickly and easily to comply with NICE guidelines and NPSA recommendations. For further information visit [www.rheumatologysoftware.com](http://www.rheumatologysoftware.com)

## A.Algeo Ltd

Stand 58

A.Algeo Ltd (Algeos) are proud suppliers to the Podiatry and Foot Health sectors. We specialise in a wide range of foot orthotics, diagnostics, instruments, podiatry equipment and clinical furniture. We also stock gel items, comfort materials, wound care and pharmaceuticals. Visit our stand to meet the Algeos team who will be delighted to demonstrate the latest additions to our extensive range of products.

## CYBER CAFÉ SPONSOR

### A.Menarini Pharma UK

Stand 88

A. Menarini Farmaceutica Internazionale SRL is the UK affiliate of the Menarini Group – an Italian pharmaceutical company with its headquarters in Florence with over 16,000 employees and five research centres across Europe. We develop medicines for a wide range of conditions.

In the UK, we provide products for the improvement of care in the management of gout, migraine and stable angina. For more information, please visit: <http://www.menarini.co.uk/>

## PLATINUM SPONSOR

### AbbVie

Stand 96

AbbVie is a global, research-based biopharmaceutical company formed in 2013 following separation from Abbott. AbbVie combines the focus and passion of a leading-edge biotech with the expertise and capabilities of a long-established pharmaceutical leader to develop and market advanced therapies that address some of the world's most complex and serious diseases. In 2013, AbbVie will employ approximately 21,000 people worldwide and markets medicines in more than 170 countries. For further information on the company and its people, portfolio and commitments, please visit [www.abbvie.co.uk](http://www.abbvie.co.uk)

### Actelion

Stand 122

Actelion focuses on the discovery, development and commercialisation of innovative treatments to serve high unmet medical needs. Please join us at our sponsored symposium 'Digital ulcers as a complication of systemic sclerosis – real-world case studies: management and prevention strategies and the importance of measuring outcomes' in Hall 8 at 07.30 on Wednesday 24 April, or visit us on stand 122 to find out more.

### Alcura

Stand 74

Alcura a member of Alliance Boots is a healthcare service provider. At present we support patients in a number of countries in Europe and have a strong presence in the UK. We provide healthcare services to over 50,000 patients across Europe of which over 20,000 patients are supported in the UK.

Our services in the UK tend to be found outside of a hospital environment and are categorised in to five key areas: clinical trials support, medicine support, medicine preparation, clinical homecare and dispensing services.

These services meet the needs of our various stakeholders; patients, hospitals, pharmacists, doctors, commissioners of healthcare services, healthcare bodies and pharmaceutical companies. We continue to develop our services further to meet the evolution of the healthcare environment and the needs of our stakeholders.

# Rheumatology 2013 Exhibitors

## AposTherapy

Stand 48

AposTherapy is a non-invasive, personalised, home care and work-place medical treatment based on a proprietary biomechanical foot-worn medical device, for patients suffering from orthopedic conditions focusing on knee and back conditions. 40,000 patients have been treated since 2004 and it is clinically-proven to significantly reduce pain, improve function and quality of life in various orthopedic conditions.

## ARMA

Stand 30

ARMA is the umbrella association body providing a collective voice for the arthritis and musculoskeletal community in the UK. Our vision is of an effective, unified musculoskeletal community working together to improve the lives of people with musculoskeletal disorders.

ARMA is comprised of nearly 40 member organisations that work in partnership to transform the quality of life of people with musculoskeletal disorders.

## Arthritis Research UK

Stand 124

Arthritis Research UK is the biggest funder of research into the cause, treatment and cure of all forms of arthritis in the UK. We support rheumatologists, GPs and AHPs throughout their careers. We receive no government funding, but rely on the generosity and commitment of our supporters. Find out how we can support you at [www.arthritisresearchuk.org](http://www.arthritisresearchuk.org)

## BioMarin

Stand 56

BioMarin Pharmaceutical Inc. develops and commercialises promising new therapeutics for patients with severe and life-threatening diseases.

Headquartered in San Rafael, California, the company operates subsidiary offices in Europe, Latin America, Russia and the Middle East and since it was founded in 1997, the company has successfully advanced breakthrough products from bench, to market, to patients which is a testament to the company's passion and dedication to patients with serious unmet medical needs.

BioMarin Europe Limited, 3rd Floor, 164 Shaftesbury Avenue, London, WC2H 8HL, (Direct): +44 (0)207 420 0800, Fax: +44 (0)207 420 0829, Email: [biomarin-europe@bmm.com](mailto:biomarin-europe@bmm.com), Website: [www.bmrn.com](http://www.bmrn.com)

## Birmingham Arthritis Resource Centre (BARC)

Stand 12

The fundamental aim is to promote 'self care' and 'self-management', supporting people with chronic and painful conditions to cope with their problems. We encourage clients to take an active role in managing their care. Information and support is delivered in a culturally-aware manner, to ALL communities by trained patient volunteers who have personal experience of living with an arthritis related disease.

## GOLD SPONSOR

### Bristol-Myers Squibb Pharmaceuticals

Stand 76

Bristol-Myers Squibb is a global BioPharma company firmly focused on its Mission to discover, develop and deliver innovative medicines that help patients prevail over serious diseases. Around the world, our medicines help millions of people in their fight against such diseases as cancer, cardiovascular disease, diabetes, hepatitis B, HIV/AIDS, rheumatoid arthritis and psychiatric disorders.

## British Health Professionals in Rheumatology

Stand 44

British Health Professionals in Rheumatology (BHPR) unites and supports members of the multi-disciplinary team in delivering best quality care which meets the needs of individuals with musculoskeletal conditions. We have a growing membership, fast approaching the 500 mark, from many professions: nursing, physiotherapy, occupational therapy, podiatry, psychology, medicine, pharmacy and others. Come and visit our stand and learn more about the work we are doing and how to get involved. [www.rheumatology.org.uk/bhpr](http://www.rheumatology.org.uk/bhpr)

## Rheumatology 2013 Exhibitors

### British Society for Rheumatology

Stand 44

The British Society for Rheumatology (BSR) promotes excellence in the treatment of people with arthritis and musculoskeletal conditions, and supports those delivering it. Come and visit our stand to find out more about our work and for more information about becoming a member. [www.rheumatology.org.uk](http://www.rheumatology.org.uk)

### British Journal of Nursing

Stand 118

### BSR Biologics Registers

Stand 68

The BSR Biologics Registers (BSRBR) track the progress of patients who are receiving biologic agents for Ankylosing Spondylitis and Rheumatoid Arthritis, monitoring the safety and effectiveness of these treatments over the long term. The Rheumatoid Arthritis register (BSRBR-RA), has been running for 10 years and has successfully registered over 20,000 patients and continues to grow. This register is based at the Arthritis Research UK Epidemiology Unit at the University of Manchester and monitors the safety of seven biologic therapies. The Ankylosing Spondylitis (AS) register launched in October 2012 and is run by the University of Aberdeen and currently monitors the safety of two biologic therapies.

[www.rheumatology.org.uk/bsrbr](http://www.rheumatology.org.uk/bsrbr)

### BSSA

Stand 36

Sjögren's Syndrome is an autoimmune rheumatic disease, characterised by the degeneration of mucus-secreting glands, especially of the mouth and the eyes. Other symptoms include arthritis, extreme fatigue and disabling joint pain. SS is a debilitating and distressing. Sufferers are going under-diagnosed and under-treated. No cure currently exists and the cause remains unknown.

BSSA supports patients, educates professionals and raises funds for research into this disabling condition.

### BRONZE SPONSOR

#### Celgene Ltd

Stand 84

Celgene Corporation is a global biopharmaceutical company that is helping healthcare providers address serious conditions, such as cancer and immune-inflammatory diseases. This dedication to medical progress goes hand-in-hand with our industry-leading patient support and access programs. Together, these aspects form the core of our commitment to patients worldwide.

### College of Occupational Therapists Specialist Section – Rheumatology

Stand 26

The College of Occupational Therapists (COT) Specialist Section - Rheumatology promotes best practice in occupational therapy for people with rheumatic diseases. We provide a forum for OT staff delivering services for people with arthritis, musculoskeletal conditions and chronic pain. We provide expert knowledge and advice influencing policy development and patient care and assist in the development of national guidelines.

### Ehlers-Danlos Support UK

Stand 41

Ehlers-Danlos Support UK is a registered charity that was established several years ago to support, educate and raise awareness for all sufferers of EDS. We desperately need to fund research to help find a cure and to help with management and treatment. Please help us to spread the word about Ehlers-Danlos Syndrome so that we can make our invisible, visible. [www.ehlers-danlos.org](http://www.ehlers-danlos.org)

# Rheumatology 2013 Exhibitors

## **Esaote**

**Stand 110**

Esaote is one of the world's leading producers of medical diagnostic imaging systems and is a well-established European-based ultrasound manufacturer who is committed to providing high quality ultrasound systems and solutions to the medical professional.

Rheumatologists require special demands from an ultrasound system and Esaote is able to offer a variety of system solutions to meet your needs.

Esaote's systems are designed for your needs and provide superior image quality and ease of use thus allowing you to concentrate on your patient. These systems will stun you with their image quality, ease of use and ergonomic platform.

Visit our stand to see our newest products, the MyLabAlpha, MyLabSeven and MyLabOneMSK with an 18MHz or 22MHz probe.

## **Fibromyalgia Association UK**

**Stand 10**

Fibromyalgia Association UK provides information to the general public and medical professionals.

It lobbies for quicker diagnosis and more effective treatment for people with fibromyalgia.

An estimated 1.2m people in the UK have fibromyalgia but there are no approved guidelines for its treatment. Many people suffer in constant pain without a diagnosis for many years. FMA UK is determined to improve this situation.

## **GlaxoSmithKline**

**Stand 42**

At GSK we have a challenging and inspiring mission: to improve the quality of human life by enabling people to do more, feel better and live longer. [www.gsk.com](http://www.gsk.com)

## **Healthcare at Home**

**Stand 106**

Healthcare at Home is the leading specialist clinical services and informatics company, in the UK we provide patient centric services; which are valued by NHS clients. We have an unrivalled track record in Rheumatology with 293 hospitals referring and currently have over 58,900 patients registered on service. We retain expert clinical personnel including a Rheumatology Consultant Nurse to oversee nurse training. Tel: 0870 600 1540 Email: [info@hah.co.uk](mailto:info@hah.co.uk) Website: [www.hah.co.uk](http://www.hah.co.uk)

## **Hitachi Medical Systems UK Ltd**

**Stand 50**

Hitachi Aloka Ultrasound for state-of-the-art diagnosis in Rheumatology.

Dedicated rheumatology ultrasound solutions for fast, accurate diagnosis. Portable systems through to premium high-end units with extensive functionality and outstanding image quality deliver detailed diagnosis. Advanced technologies that include Elastography, fusion imaging, colour flow doppler, wireless connectivity and wide view software together with extensive high frequency transducers and innovative ergonomics provide the most powerful combination of diagnostic imaging tools for all MSK applications.

## **HMSA**

**Stand 24**

The Hypermobility Syndrome Association (HMSA) is a national charity which supports people with all types of Hypermobility Syndromes. Hypermobility Syndromes include the Joint Hypermobility Syndrome, Ehlers-Danlos Syndromes, Marfans, Osteogenesis Imperfecta, Stickler's etc.

Hypermobility Syndromes can be multi-systemic and potentially disabling but with the right support and management skills people can improve their quality of life. The HMSA is involved in research and awareness UK wide.

# Rheumatology 2013 Exhibitors

## IL UK Ltd

Stand 52

As a leading manufacturer of autoimmune diagnostic products, Instrumentation Laboratory UK (Werfen Group) is dedicated to the production of high quality, CE marked autoimmune reagents and associated automated systems for the accurate detection of disease state specific autoantibodies - developed in line with current thinking in this area. Visit our stand for details of new markers for the diagnosis of anti-phospholipid syndrome.

[www.il-uk.com](http://www.il-uk.com)

## Internis Pharmaceuticals Ltd

Stand 78

Founded in 2010, Internis is a pharmaceutical company engaged in the development and commercialisation of highly effective and innovative new medicines aimed at the treatment and prevention of a range of common bone disorders, such as osteoporosis and vitamin D3 deficiency.

## LUPUS UK

Stand 38

LUPUS UK is the only national charity for people with lupus offering support through our voluntary network of over 20 Regional Groups. Our priorities are to increase lupus awareness amongst the public and the medical profession, provide support to our members, and raise funds towards research and Lupus Nurses. Tel: 01708 731251 (24 hour answerphone) website [www.lupusuk.org.uk](http://www.lupusuk.org.uk) | Email: [chris@lupusuk.org.uk](mailto:chris@lupusuk.org.uk)

## Meda

Stand 104

Meda is one of the top 50 pharmaceutical companies in the world. We've offices in over 50 countries, and products in more than 120 countries across the globe.

With an established calcium and vitamin D combination therapy available as chewable and tablet, Meda have now also launched a licensed 800IU vitamin D (coleciferol) specific tablet.

## BRONZE SPONSOR

### Medac GmbH

Stand 130

Medac is a German based pharmaceutical manufacturer with a growing number of branches around the world. Metoject was launched by Medac in the UK in 2006 as the first range of prefilled syringes of methotrexate licensed for use in rheumatoid arthritis.

### Miltenyi Biotec Ltd

Stand 82

Miltenyi Biotec's products support basic biomedical research through to clinical cell isolation and culture, cryopreservation, and Ig and LDL immunoabsorption therapy:

TheraSorb™ Therapeutic Apheresis: the treatment option for pathogenic immunoglobulin-associated disease (e.g. SLE, Vasculitis, Scleroderma, Pemphigus, etc.)

CliniMACS® Cell Separation System: clinical grade isolation of therapeutic cell populations (e.g. TRegs, TolDC's, MSC's, etc.)

MACS® GMP Products: culture, differentiation and expansion of cell therapy products.

### MSD

Stand 98

We believe the most important thing we make is a difference. We operate in more than 140 countries and through our prescription medicines, vaccines, biologic therapies, and consumer care and animal health products we work with customers to bring innovative healthcare solutions to those needing them the most. MSD is a trade name of Merck & Co., Inc., with headquarters in Whitehouse Station, N.J., U.S.A.

### Myositis SG

Stand 8

Established in 1985 and registered as a charity in 1988 the Myositis Support Group is continuing to work to improve the diagnosis, treatment, management, and understanding of Inclusion Body Myositis, Dermatomyositis, Polymyositis and Juvenile Dermatomyositis. We provide help, advice and support to Myositis sufferers and their families, and through our fundraising efforts fund medical research. We are celebrating our 25th Anniversary as a registered charity this year.

# Rheumatology 2013 Exhibitors

## NASS

Stand 28

The National Ankylosing Spondylitis Society (NASS) provides support, information and advice for patients and their families. NASS works to raise awareness of AS and provides a helpline, website, publications and information. NASS runs a branch network of over 85 branches throughout the UK offering regular supervised physiotherapy sessions. NASS has had great success recently with its GP education programme, raising awareness of AS and IBP. [www.nass.co.uk](http://www.nass.co.uk)

## The National Osteoporosis Society (NOS)

Stand 26

The National Osteoporosis Society is the only UK-wide charity offering support to people with osteoporosis, their families and carers through a range of information booklets, helpline and network of support groups. We work with healthcare professionals to facilitate greater understanding of the needs of people with osteoporosis and encourage the government and health services to resource and deliver appropriate services to prevent and treat fractures.

## National Rheumatoid Arthritis Society (NRAS)

Stand 4

NRAS provides support, information and advocacy for people with RA and JIA, their families, friends and carers. We are also a resource for health professionals with an interest in rheumatology and work closely with rheumatology teams across the UK. Our services include a helpline, peer to peer telephone support, NRAS local groups, free information, membership and campaigning.

## Optasia Medical

Stand 80

Optasia Medical makes software that facilitates the reading of x-rays for the management of musculoskeletal diseases. Our products are used by physicians to identify and monitor patients who will benefit from treatment. With our tools, x-rays are evaluated more rapidly, more accurately and more reproducibly. SpineAnalyzer™ helps address the problem of under-treated osteoporosis with a rapid workflow for assessing and clearly reporting often-missed vertebral fracture.

## SILVER SPONSOR

### Pfizer Ltd

Stand 100 and 126

#### WORKING TOGETHER FOR A HEALTHIER WORLD™

At Pfizer, we strive to set the standard for quality, safety and value in the discovery, development and manufacturing of medicines for people. For more than 150 years, Pfizer has worked to make a difference for all who rely on us. In the UK, Pfizer has its business headquarters in Surrey and is the major supplier of medicines to the NHS. To learn more about our commitments, please visit us at [www.pfizer.co.uk](http://www.pfizer.co.uk)

### PMRGCA UK

Stand 2

PMRGCAuk is the nation-wide organisation working to increase awareness, foster research, and provide support for people with Polymyalgia Rheumatica and Giant Cell Arteritis. We are collaborating with professionals around the country and internationally to improve outcomes for people with these debilitating illnesses, and are currently planning a national public awareness strategy to prevent unnecessary sight loss through late diagnosis of giant cell arteritis. PMRGCAuk is currently based in Birmingham.

### PHA UK

Stand 120

The PHA UK is the only charity in the UK especially for people affected by Pulmonary Hypertension. It was formed in 2000, and now has over 3500 members. We are dedicated to raising awareness of PAH; investing in research, education and welfare. We give direct support and information to people with PAH, their families and health professionals.

### QIAGEN GmbH

Stand 102

QIAGEN, the leading global provider of sample and assay technologies, has one of the broadest panels of molecular diagnostic tests available worldwide. Cellestis, a QIAGEN® Company, provides QuantiFERON® technology, a method for detecting cell-mediated immune (CMI) responses in whole blood samples. QuantiFERON-TB Gold (QFT®) is a blood test that accurately assists the identification of people infected with *Mycobacterium tuberculosis*, the causative agent of tuberculosis.

# Rheumatology 2013 Exhibitors

## Rheumatology and OUP

Stand 72

*Rheumatology* is the international scientific journal published by Oxford University Press on behalf of the BSR. This year come and meet the Editor at the stand or find out about the developments taking place in the Journal.

## PLATINUM SPONSOR

### Roche and Chugai

Stand 86 and 94

As a supplier of innovative products and services for the early detection, prevention, diagnosis and treatment of diseases, Roche contributes on a broad range of fronts to improving people's health and quality of life. As a partner, Chugai's mission is to dedicate itself to adding exceptional value through the creation of innovative medical products and services for the benefit of the medical community and human health.

### Roche and Chugai

Stand 90

Mission Remission is an educational programme that aims to support excellence in the implementation of evidence-based best clinical practice for patients living with rheumatoid arthritis

### Roche and Chugai

Stand 92

The 'Know your DAS' stand and campaign aims to encourage healthcare professionals and patients to understand the importance of measuring a patients Disease Activity Score (DAS) score. The score is an assessment used by clinicians to measure rheumatoid arthritis disease activity, aimed at improving patient outcomes, and determining whether the signs and symptoms have reduced or stopped, and if treatment needs to be adjusted.

### Royal Air Force

Stand 64

Royal Air Force Medical Service – to succeed in our missions takes more than planes and pilots, there's a team of highly skilled people behind every aircraft that takes to the skies, and that's where you come in. Come and meet the team today to find out about the career that could await you as a RAF Medical Officer.

## RCN Rheumatology Forum

Stand 22

The RCN Rheumatology Forum is run by rheumatology nurses for rheumatology nurses with a view to supporting and improving care of people with rheumatological conditions. We provide a nursing voice at national and local levels as well as offering practical support in the form of conferences and clinical guidelines. We work closely with all members of the multi-professional team and patients groups in trying to fulfil our aims.

## BRONZE SPONSOR

### Savient Pharma Ireland

Stand 46

Savient Pharma Ireland Limited, a wholly owned subsidiary of Savient Pharmaceuticals, is a speciality biopharmaceutical company that has recently been granted a Marketing Authorisation for KRYSTEXXA® in the European Union. It is indicated for the treatment of severe debilitating chronic tophaceous gout in adult patients, who may also have erosive joint involvement and who have failed to normalize serum uric acid with xanthine oxidase inhibitors at the maximum medically appropriate dose or for whom these medicines are contraindicated.

### Scleroderma Society

Stand 6

Come and visit our Stand, we have updated leaflets, Understanding and Managing Scleroderma booklet used by patients, GP's and health professionals. Our latest leaflet "Hospital Checklist" provides a guide to nursing patients with SSc. Other services we provide include a free confidential helpline to support your patients throughout their experience of their condition, new website and quarterly newsletter.

[www.sclerodermasociety.co.uk](http://www.sclerodermasociety.co.uk)

## Rheumatology 2013 Exhibitors

### Servier Laboratories

Stand 62

Servier Laboratories is the UK subsidiary of The Servier Research Group, a French research based pharmaceutical company established in 1954 by Dr Jacques Servier. Created in 1963 with only two people, the UK subsidiary was the first subsidiary outside France. In just over fifty years, The Servier Research Group has developed in stature from a small family-owned, provincial pharmacy employing nine people to a multi-national operation, established in 140 countries and with over 20,000 employees worldwide.

Servier is now an independent foundation. Unlike many other pharmaceutical companies Servier is not registered on any stock market and therefore is not beholden to shareholders. Servier is dedicated to the development of truly innovative drugs and reinvesting as much as 25% of turnover in Research & Development.

### SOBI

Stand 54

SOBI is an international specialty healthcare company dedicated to rare diseases. Our mission is to develop and deliver innovative therapies and services to improve the lives of patients. The product portfolio is primarily focused on inflammation and genetic diseases, with three late stage biological development projects within haemophilia and neonatology.

### UCB

Stand 60

UCB, Brussels, Belgium ([www.ucb.com](http://www.ucb.com)) is a global biopharmaceutical company focused on the discovery and development of innovative medicines and solutions to transform the lives of people living with severe diseases of the immune system and central nervous system. With more than 8500 people in over 60 countries worldwide, the company generated revenue of €3.2 billion in 2011. UCB is listed on Euronext Brussels.

### Wisepress

Stand 40

Wisepress.com, Europe's leading conference bookseller, has a complete range of relevant books and journals which can be purchased at the stand or posted to you. We also have a comprehensive medical bookshop online with great offers. [bookshop@wisepress.com](mailto:bookshop@wisepress.com)  
[www.wisepress.com](http://www.wisepress.com)
