

Davide Casabianca works as a Geoscience Advisor at Apache. He has 18 years of experience in the oil and gas exploration business. He worked on subsurface characterization projects spanning exploration to reservoir development for BP, Marathon and Apache.

Davide's experience includes exploring, developing and managing fractured carbonates and clastic reservoirs in the North Sea; Atlantic Margin; Mediterranean, West Africa and South East Asia.

He holds a PhD in Structural Geology from Imperial College, a MSc in Basin Evolution and Dynamics from Royal Holloway College and a Laurea in Geology from Universita' di Urbino.

His main professional interest is the integration of data and disciplines aimed at understanding subsurface uncertainties and risks and mitigating their impacts on investment return.
