Dear Colleagues,

The Belgian Heart Rhythm Association (BeHRA) is pleased to announce the 8th Belgian Heart Rhythm Meeting “Arrhythmias for every Cardiologist”

THURSDAY 2nd AND FRIDAY 3rd OCTOBER 2014

that will be held at the Sheraton Brussels Airport Hotel and Congress Centre.

With this meeting, we offer an annual opportunity for non-arrhythmia specialists to update their knowledge with the most recent guidelines and innovations in clinical rhythmology.

This meeting, which focuses on daily management of cardiac arrhythmia’s related issues, is specifically designed for all cardiologists and welcomes over 500 participants each year.

A distinguished national and international faculty will share expertise on the various diagnostic tools and therapeutic possibilities available to cardiologists when deciding upon which approach best serves patients suffering from cardiac arrhythmias.

Besides teaching lectures, special case-based sessions will give the opportunity to discuss practical day-to-day questions with experts, covering all fields of arrhythmias, such as ECG interpretation, atrial fibrillation management and the use of pacemakers and defibrillators including cardiac resynchronisation therapy.

We look forward to meeting you or welcoming you again on Thursday 2nd and Friday 3rd October 2014!

Yours sincerely,

Ivan BLANKOFF

On the occasion of the 8th Belgian Heart Rhythm Meeting, the organisers will be honoured to welcome participants for dinner in the Hall of Mirrors of Egmont Palace.

Built in the 16th century, Egmont Palace was the first house of the Egmont family (1532-1729), followed by the Arenberg family (1729-1918). The Palace welcomed many famous guests including Queen Christina of Sweden, Louis XV and his consort, Peter the Great, and more.

The tradition continues today, with high level of foreign guests and Belgian politicians received in its luxuriant salons.

In 2002, Egmont Palace - with its rich decorations, collection of old furniture, tapestries and original paintings from the 17th and 18th centuries was declared to be a protected monument of exceptional importance.

It now belongs to the Ministry of Foreign Affairs and its prestigious “stone and marble” structure is at the heart of diplomatic activity in Brussels.
