Welcome to ECIC 2015
2nd European Congress on Intrapartum Care

Following on the enormous success of the 1st European Congress on Intrapartum Care – ECIC 2013 - in Amsterdam, we are honoured to welcome you to the second edition - ECIC 2015 - in Porto. Now jointly organised by the European Association of Perinatal Medicine and the European Midwives Association, the European Congress on Intrapartum Care has a general focus on evidence-based practice and aims to promote excellence in all aspects of labour management. Teamwork, communication and a shared philosophy between all members of the staff play a central role in the quality of intrapartum care. ECIC 2015 will constitute an exceptional opportunity for all healthcare professionals working in the labour ward to meet and socialize, share their ideas and experiences, and obtain updated information on key aspects of practice.

The congress is held within the historical centre of Porto, designated World Cultural Heritage by UNESCO. The city is particularly famous for its medieval alleyways, extravagant baroque churches and the unique “port wine”, and was nominated in 2014, for the second time, “Best European Destination of the year”, by European Consumers Choice. All the conditions will be present for you to enjoy unique scientific, social and cultural experiences.

Diogo Ayres-de-Campos, Portugal (Chair-Scientific Committee)
Mervi Jokinen, UK (Vice-chair - Scientific Committee)
João Bernardes, Portugal (Chair - Local Organizing Committee)
**Friday, 22nd May 2015**

Friday, 22nd May 2015

SESSION 3
14:30-16:15 Intrapartum fetal monitoring | ARQUIVO HALL

Chairpersons: Luis Graça (PT), Susanna Timonen (FIN)

14:30-14:55 CTG+ST - a reappraisal of the evidence
Per Olofsson (S)

14:55-15:20 Intrapartum monitoring in high-risk situations
Camile Le Ray (FR)

15:20-15:45 Amioinfusion in labour
Alberto Puertas (ES)

15:45-16:00 FM-ALERT: a randomized clinical trial of intrapartum fetal monitoring with computer analysis and alerts versus previously available monitoring
I. Nunes, D. Ayres-de-Campos, A. Ugwumadu, P. Amin, P. Banfield, A. Nicoll, S. Cunningham, C. Costa-Santos, J. Bernardes, for the FM-ALERT study group (PT and UK)

16:10-16:15 Fetal ECG (STAN): how reliable is it?
Sensitivity, specificity and positive and negative predictive values for neonatal acidosis
A. Wijemanne, E. Chandraharan, A. Archer, V. Lowe, S Arulkumaran (UK)

16:15-17:10 SELECTED ORAL PRESENTATIONS | ARQUIVO HALL
(3 min presentations + 2 min discussion)

Chairpersons: Gerard Visser (NL), Mervi Jokinen (UK)

16:15-16:20 Severe and fatal obstetric injury claims in relation to labour unit volume in Denmark
M. Milland, KL. Mikkelsen, JK. Christoffersen, M. Hedegaard (DK)

16:20-16:25 Assessment of obstetric-teams’ non-technical skills in the management of postpartum hemorrhage using actual care video recordings
N. Snaphaan, M. Woiski, H. Scheepers, R. Hermens (NL)

16:25-16:30 Effectiveness of ice pack for postpartum perineal pain management: A randomized controlled trial
A. Amorim Francisco, SMJV. de Oliveira, M. Steen (BR and AUS)

16:30-16:35 Nuchal cords, true cord knots and adverse neonatal outcome
M. Rei, S. Diniz, D. Ayres-de-Campos. (PT)

16:35-16:40 Electronic fetal monitoring: inter-observer agreement using four different classification systems

16:40-16:45 Achieving a low risk of obstetrical anal sphincter injuries
OB. Rasmussen, A. Yding, C. Lyngsø, I. Boris (DK)

16:45-16:50 Maternal positions during second stage of labour to improve perineal outcomes
M. Santiago Vasco, L. Calvo Rodriguez, C. Béjar Poveda (ES)
16:50-16:55 The effect of fear experienced during vaginal birth on lactation, the baby’s sucking behaviour and first breastfeeding
A. Şen, M. Aluş Tokat (TR)

16:55-17:00 Risk factors for excessive blood loss in the COSMOS trial
MA. Davey, H. McLachlan, D. Forster, M. Flood M (AUS)

17:00-17:05 Assessment of the actual care on postpartum hemorrhage using video images of the third stage
M. Woiski, S. Visser, H. van Vught, H. Scheepers, R. Hermens and the Fluxim study group (NL)

17:10-18:00 CONTROVERSIES
Has the time come to abandon fetal blood sampling?

Chairpersons: Anneke Kwee (NL), Jorge Braga (PT)

17:10-17:30 Yes Edwin Chandraharan (UK)
17:30-17:50 No Ayesha Heinis (NL)
17:50-18:00 Discussion
Saturday, 23rd May 2015

SESSION 4
08:30-10:15 Cesarean section (CS)  | ARQUIVO HALL

Chairpersons: Tullia Todros (IT), Nuno Clode (PT)

08:30-08:55 Risk factors and complications of CS
Nanneli Pallasmaa (FIN)

08:55-09:20 Has loss of experience with forceps contributed to rising CS rates?
Deirdre Murphy (IE)

09:20-09:45 Can rising CS rates be reduced?
Diogo Ayres-de-Campos (PT)

09:45-10:00 Patient decision aid with individual risk estimation: an effective tool in choosing the mode of delivery after cesarean section
E. Vankan, ENC. Schoorel, SMJ. van Kuijk, R. Aardenburg, FMC. Delemarre, CD. Dirksen, IM. van Dooren, SMI. Kuppens, A. Kwee, J. Langenveld, BWJ. Mol, JG. Nijhuis, RPMG. Hermens, HCJ. Scheepers (NL and AUS)

10:00-10:15 Elevated amniotic fluid lactate at diagnosis of spontaneous labor predicts dystocia and cesarean section in single cephalic nulliparous women after term ≥ 37 weeks gestation
M. Murphy, M. Butler, B. Coughlan, D. Brennan, C. O’Herlihy, M. Robson (IE and CDN)

10:15-10:45 COFFEE BREAK

SESSION 5
10:45-12:30 Post-partum hemorrhage (PPH)  | ARQUIVO HALL

Chairpersons: Christophe Vayssière (FR), Nuno Montenegro (PT)

10:45-11:10 When and how to use the intrauterine balloon
Sabaratnan Arulkumaran (UK)

11:10-11:35 Strategies for replacement of blood products
Bruno Carbonne (FR)

11:35-12:00 Choosing between different conservative surgical techniques
Loic Sentilhes (FR)

12:00-12:15 Use of acupuncture to avoid uterine atony
B. Lopez-Garrido, R. Gil-Pita, A. Zapico-Goñi (ES)

12:15-12:30 A randomised trial of carbetocin versus oxytocin in the management of the third stage of labour
O. Baev, V. Rumyantseva, D. Alimova, O. Tsyshchynu, M. Kovaleva, O. Pavlova (RUS)

12:30-13:00 KEYNOTE LECTURE 2:

Chairpersons: Sabaratnan Arulkumaran (UK), Paulo Moura (PT)

Intrapartum monitoring is risky for the fetus, mother and staff
Gerard Visser (NL)

Scientific Information

ABSTRACT BOOK
The abstract book is available for download from the congress website.

UEMS
The 2nd European Congress on Intrapartum Care (Porto, Portugal (21-23.05.2015), Event code: 12083 was granted 15 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).

European Accreditation
European Accreditation is granted by the EACCME in order to allow participants who attend the above-mentioned activity to validate their credits in their own country.

Accreditation Statement
Accreditation by the EACCME confers the right to place the following statement in all communication materials including the registration website, the event programme and the certificate of attendance. The following statements must be used without revision:

• The ‘European Association of Perinatal Medicine’ (or) ‘2nd European Congress on Intrapartum Care’ is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), www.uems.net.

• The ‘2nd European Congress on Intrapartum Care’ is designated for a maximum of (or ‘for up to’) 15 hours of European external CME credits. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

• Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at www.ama-assn.org/go/internationalcme.

• Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

EACCME credits
Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. The EACCME credit system is based on 1 ECMEC per hour with a maximum of 3 ECMECs for half a day and 6 ECMECs for a full-day event.
