HIMSS CHIME
INTERNATIONAL

In collaboration with:

Team up with your patients – Patient Portals as EHR clients for patients

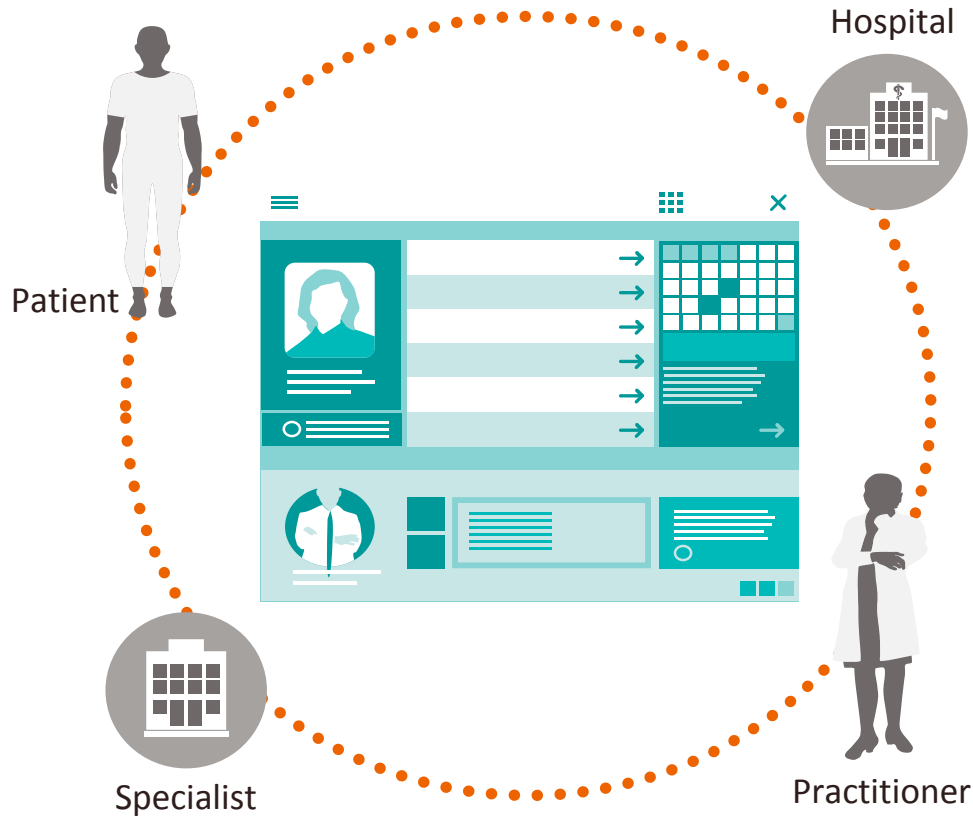

DDr. Thomas Schabetsberger, Siemens Healthineers

 @SiemensHealth

10–12 May 2017 MALTA

 @eHealthWeekEU #eHealthWeek

CURRENT SITUATION

The European Commission's eHealth Action Plan 2012-2020 provides a roadmap to **empower patients and healthcare workers**, to link up devices and technologies, and to invest in research towards the personalized medicine of the future.

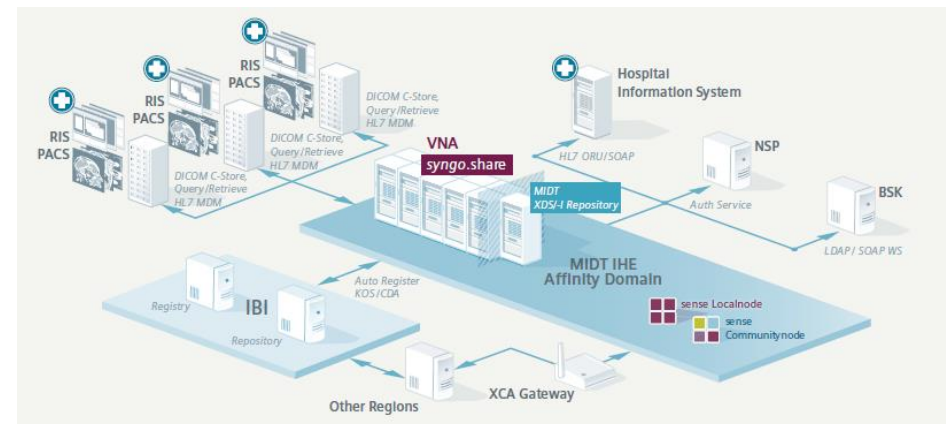

NETWORKED HEALTHCARE IN 21ST CENTURY

- Profound improvements in medicine and advanced diagnostic and treatment
- knowledge enhancement lead to further specializations in medicine
- Doctor - patient relationship as a keystone of care - change from a passive to an active role: Patients are respected by doctors as self-responsible persons
- Patients are active and interested in health
- Patient take over a part of the health responsibility, e.g. home monitoring, fitness tracking with devices

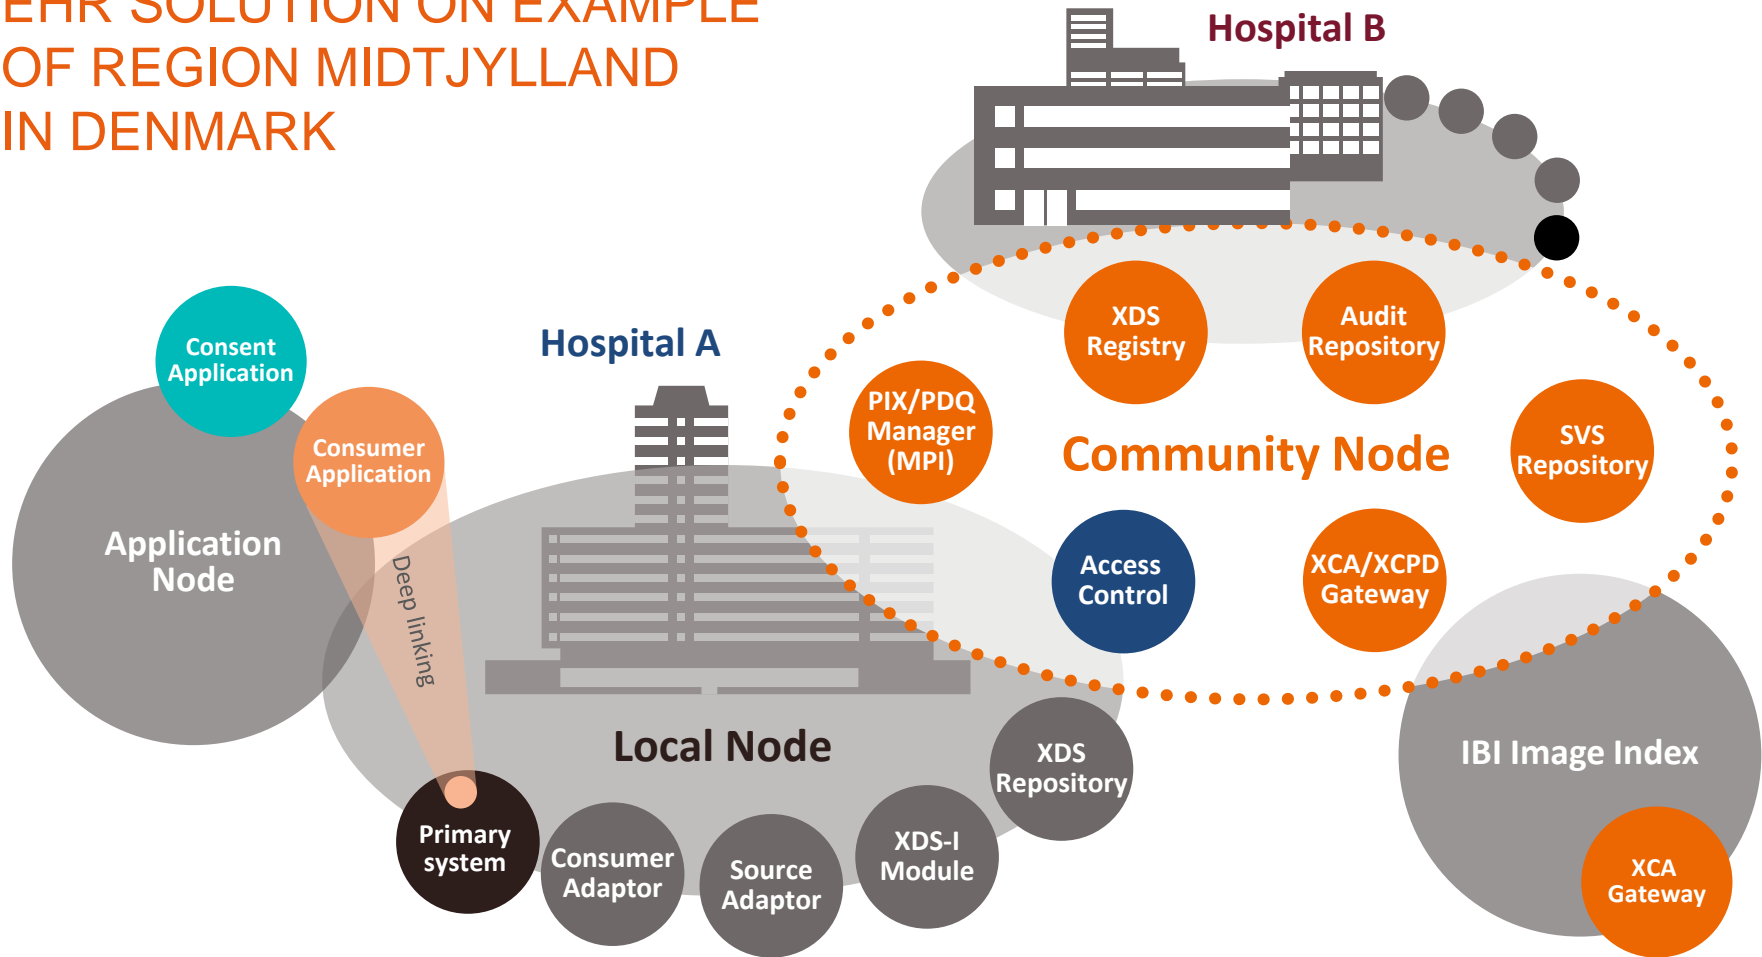

SITUATION IN DENMARK

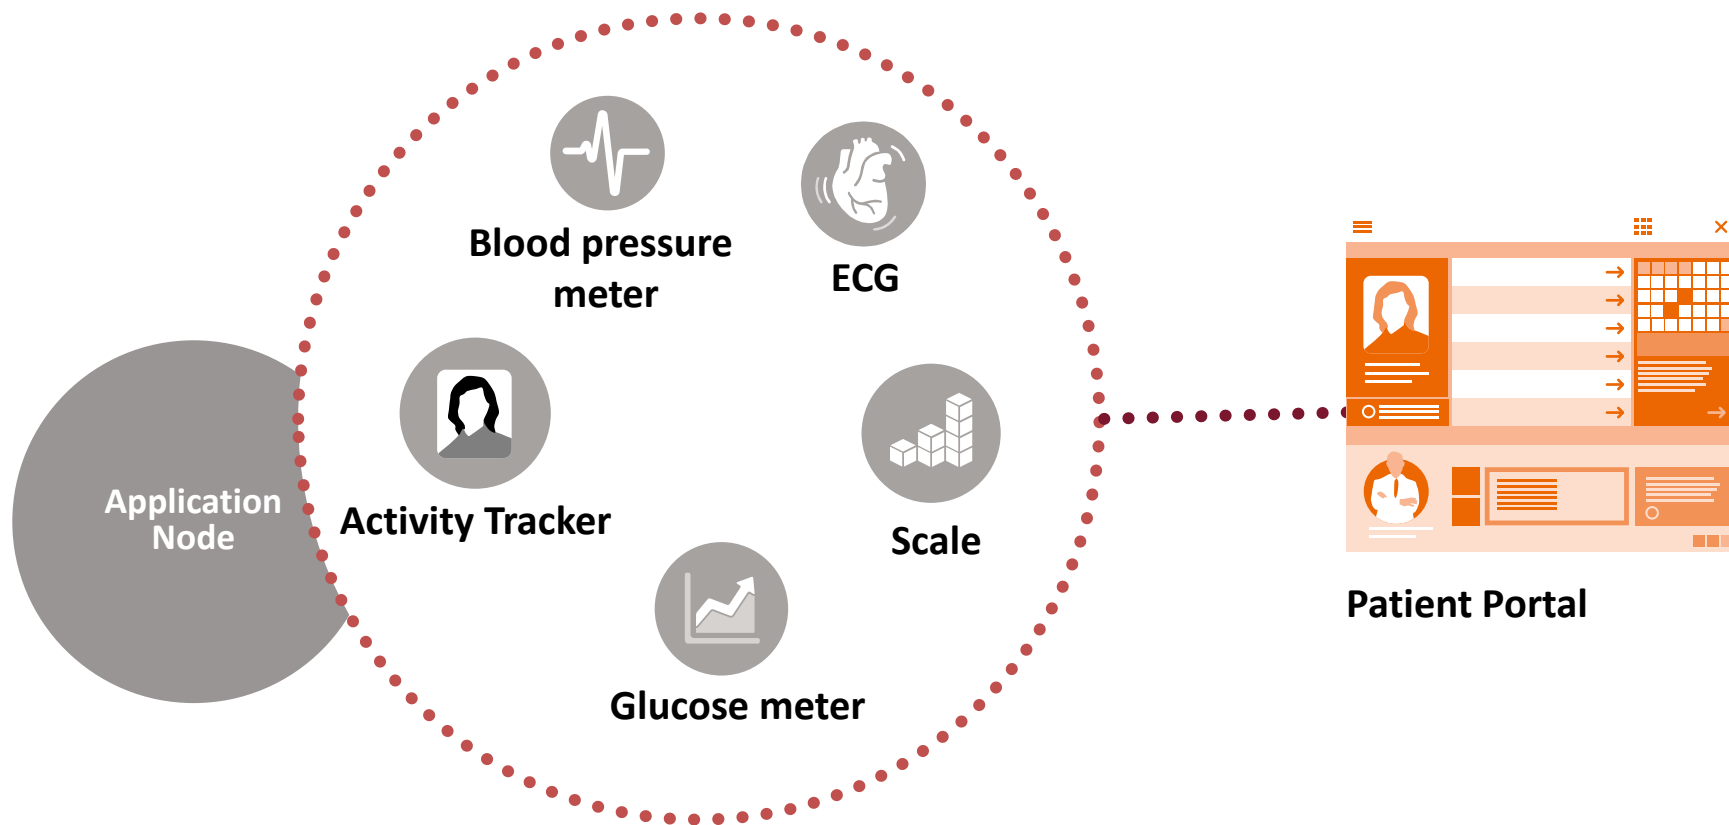

- Denmark as precursor for eHealth in Europe
- eHealth Activities since 20 years
- Several regions with own (mostly IHE based) networks
- Central services, like IBI „Image index“ or national patient portal sundhed.dk
- National patient Id (CPR)
- Our footprint in Denmark:
 - Region Midt with region-wide VNA and XDS platform, connected with central services
 - Region South with VNA

EHR SOLUTION ON EXAMPLE OF REGION MIDTJYLLAND IN DENMARK

PATIENT PORTAL AS ENABLER FOR PERSONAL HEALTH

BENEFITS

- Enhanced and timely communication between doctors and physicians
- High security standards – encrypted, data remain local (regional)
- Supports partnership relation between doctor and patient
- Realizes a feedback loop for therapies and vital/fitness data
- Helps to identify necessary adaptations in treatment plans
- Improves outcome and reduce costs
- Specialist's knowledge is transferred to the patient's home in real time
- Resource and time savings for doctors
