

A dark blue world map with glowing green city lights is the background of the slide. The text is overlaid in white.

Cooperation with NATO/NCI Agency and Importance of Education and Training

NATO C4ISR INDUSTRY CONFERENCE
BUCHAREST, 25-27 MARCH 2014

Piotr PLUTA
Senior Manager Corporate Affairs – Europe
CISCO

Industry based ICT education in NATO

**Industry Based
Training & Certification**

**NATO and member
states partnership**

Opportunities

Partnership Makes It Work

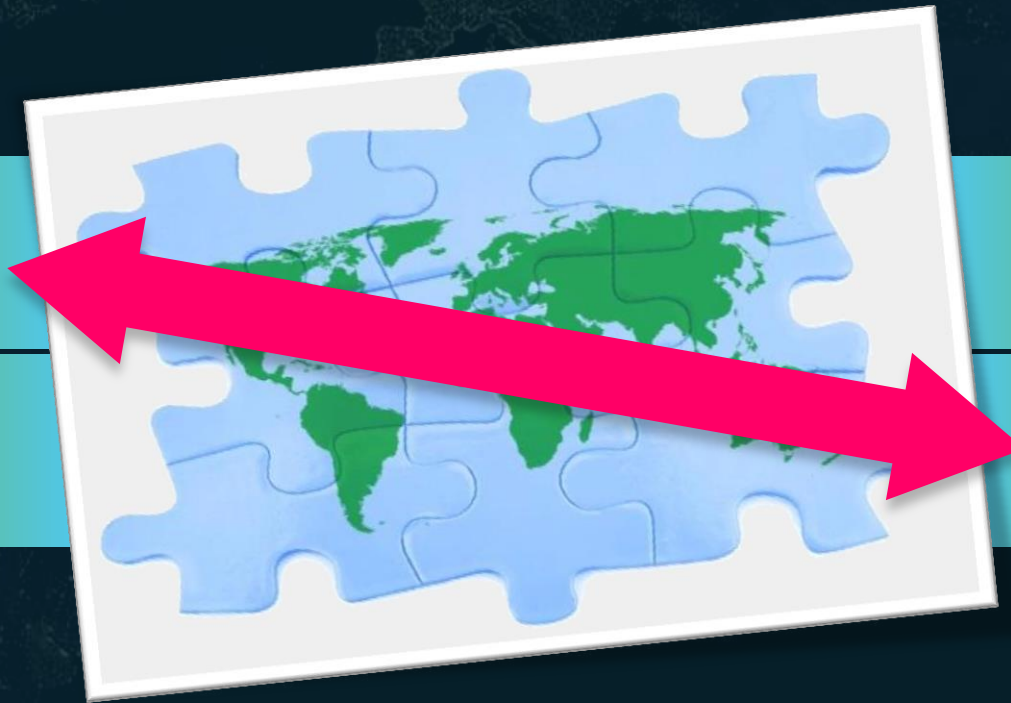

Together We Make a Difference

Government

Nonprofits

Education

Business

Innovations in Teaching and Learning

Curricula and Assessments

Highly interactive online curricula engage students and enhance learning, and state-of-the-art online assessments provide immediate, interactive feedback on students' strengths and weaknesses

Simulation-Based Learning

Simulators provides a simulation-based learning environment that supplements physical equipment with virtual, and helps students develop critical 21st century skills

Interpersonal Skills

Communication skills modules provides education through a series of case studies, and simulation activities that expose students to critical interpersonal skills

Gaming in education

The **Cisco Aspire** game integrates virtual worlds, levels, competition, and scoring into the curriculum to help students learn while they are having fun

Collaboration

By connecting and collaborating with others using digital platforms, students continue learning outside of the classroom. Instructors can co-create content

Cooperation with NATO and NATO Member states

United States
Spain
Romania
Netherlands
United Kingdom
Italy
Poland
Germany
Czech Republic
Bulgaria
Turkey
France
Slovakia
Portugal
Greece
Lithuania
NATO CIS School

Industry leading curricula
Industry certification
