Tour:

Gruta do Lago Azul

Considered Bonito's postcard is a walk with history that begins with a hike to the cave entrance, where one can already get an idea of that beauty. Down a staircase, looks out at a lake that enchants the waters of intensely bluish tones and beautifully framed a million years ago. Just a small hole in the Earth's surface to have access to a whole world of lakes and natural sculptures.

Cavalgada - Nascente Rio Sucuri

Conducted in fields as diverse landscapes for grazing cattle, dense forests, lakes and hills. To ensure your comfort and safety, the number of participants is limited and always accompanied by a guide and monitor the farm, who knows better than anyone the areas most interesting and attractive. Halfway there, a rest stop and a refreshing waterfall bath in the crystal clear waters of the Rio Formoso is scheduled.
