

Dave Palmer – RAPID Manager & Mike Barnes – Wolf Creek Nuclear Operating Company

RAPID

Update

- Ensure that inventory data is being updated via the Gateway
- Discussion of Inter-Utility Sales and protocol
- **Utility Responsibilities**
- RAPID refresh
- RAPID Usage
- Share success stories

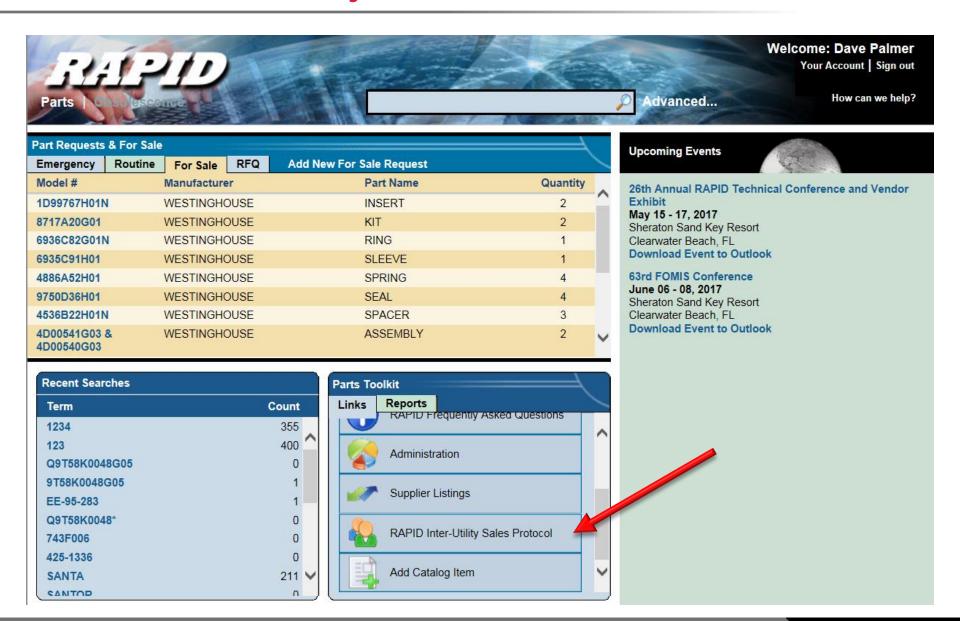

RAPID

Inter-Utility Sales Protocol

- Do you know where to locate the document?
- Do you know what is in it and what the expectations are?
- Do you utilize email as a sole method of communication when attempting to buy or sell an item?

RAPID – Inter-Utility Sales Protocol

RAPID – Utility Responsibilities

- Utility Inventory Data is being uploaded via the Gateway with accurate data
- Utility Contact Name is up to date
- Contact and 24 hour phone numbers are provided and are current
- Inter-Utility Business Rules are listed and are current

RAPID - Refresh

- RAPID refresh is underway and beta testing has begun
- Enhancements include improved search capabilities
- A new, updated look
- Easier to use
- Update is scheduled to be released later this summer

RAPID - Refresh

RAPID - Refresh

RAPID – Usage by the numbers

- 53 percent of RAPID requests are needed within 24 hours or less
- 25 percent of RAPID requests are needed within 2-3 days
- 10 percent of RAPID requests are required for Planned work (typically within T-10 or less)
- 82 percent of Off-Hour calls are outage related
- Lessons learned communicate request as early as possible and follow through if the item is no longer needed and consider the time necessary to pull the item from inventory and prep for shipment

*Data provided by ATC Nuclear based on Exelon and PSEG sales
