

POSTER #33 - SmartLink

Jason Handa, Erica Lattanzi

SmartMeds Pharmacy, Burlington, ON, Canada.

DESCRIPTION:

SmartLink™ is a web-based proprietary suite of time-saving tools available to your LTC home. This program is designed to support and maintain accurate, real-time information for the care of your residents.

SmartLink™ is a user-friendly ordering & communication portal that is linked directly with SmartMeds Pharmacy's database. The system allows your LTC home to access all orders sent via either digital pen, scanner, fax or SmartDoc. You will have direct communication with the pharmacy to save time on questions to and from your staff and all communication records are stored and may be retrieved as required. Smart-Link™ also puts a wealth of information at your fingertips such as education, training, patient info, drug info, etc.
