The information in this document is the property of Rolls-Royce plc and may not be copied or communicated to a third party, or used for any purpose other than that for which it is supplied without the express written consent of Rolls-Royce plc.

This information is given in good faith based upon the latest information available to Rolls-Royce plc, no warranty or representation is given concerning such information, which must not be taken as establishing any contractual or other commitment binding upon Rolls-Royce plc or any of its subsidiary or associated companies.

POMS & RAPID Interface

- If you are member of both POMS & RAPID, you can seamlessly view the following information from either:
 - POMS Obsolescence information is sent to OIRD
 - POMS Obsolescence Solution information is sent to OIRD
 - CMIS Lite Solutions are sent to OIRD
 - OIRD Obsolescence information is sent to POMS
- You can also log in to one system, and automatically transfer to the other without re-logging in

How Much Information is This?

- POMS sends RAPID 133,087 obsolete items
- POMS sends RAPID 43,243 items with solutions
- RAPID sends POMS 17,307 obsolete items
- RAPID sends POMS 13,442 obsolete solutions
- CMIS sends RAPID 1,040 equivalency evaluations in 2015

How to get OIRD Data in POMS

- Picture of OIRD pop-up over POMS search results when you click OIRD obsolete

The screenshot shows the POMS (Proactive Obsolescence Management System) interface. The search term is "1151". The results show a part "W1151VB" by INTERNATIONAL INSTRUMENTS, which is marked as OIRD OBSOLETE. A red box highlights the "OIRD OBSOLETE" label, and a red vertical bar on the right side of the page indicates a pop-up window.

How to get OIRD Data in POMS

- Picture of manufacture model page with multiple solutions and some of them OIRD

The screenshot displays the POMS (Proactive Obsolescence Management System) interface. The top navigation bar includes the POMS logo, user login information, and links for Change Info, Log Out, and Live Chat. A search bar is present with a dropdown menu set to 'All Sites'. Below the navigation bar, a breadcrumb trail shows 'Home > Search Results > Manufacturer / Model'.

The main content area is divided into two panels:

- Information Panel:** Contains tabs for Model Info, Contact Info, Vendor Questions, Vendor Notes, and Feedback. The 'Model Info' tab is active, showing an 'OBSOLETE Item' status. The 'Model Information' section lists: Manufacturer: GENERAL ELECTRIC, Model: 12IAC66K8A, and Description: SULLAIR COMPRESSOR OVERCURRENT RELAY 51. The 'Model Details' section is a table with columns: Serial Number, Part Size, Material, Catalog ID, Other, and Obsolete. The 'Obsolete' column contains red flag icons.
- Potential Solutions Panel:** Shows 'Solutions Returned: 8' and a 'Jump To:' input field. A table lists solutions with columns: Solution, Source, and View. Two entries are highlighted with a red box: 'GENERAL 12IAC...OIRD' with a 'View entry in OIRD' link, and another identical entry.

At the bottom, the 'Industry BOM Information' panel shows stock counts: Stock From BOM: 8, Stock From Work Orders: 61, Stock From Both: 6, and Total Stock Returned: 75.

How to get OIRD Data in POMS

- Picture of man model page with OIRD pop-up on top

The screenshot displays the RAPID POMS interface. The main window shows search results for part 12IAC66K8A. A pop-up window titled 'Potential Solutions' is overlaid on the right side, showing a list of solutions with 'View entry in OIRD' links highlighted in red. Below the search results, there is a 'Model Details' table and an 'Industry BOM Information' section.

How to get OIRD Data in POMS

- Picture of POMS pop up with obsolescence data with RAPID in the background

The screenshot displays the RAPID POMS interface. At the top, there is a navigation bar with 'RAPID' logo, 'Parts | Obsolescence' menu, a search bar with 'Advanced...' text, and a 'Welcome:' section with 'Your Account | Sign out' and 'How can we help?' links. Below the navigation bar is a 'Solution Maintenance' section. It contains a table of 'Obsolete Item Information' with columns for Part #/Mfr, Description, and Owner. A 'Return To Your Search Results' button is visible. Below the table is a 'Search Supplier Catalog' section with a search input field, 'Search', and 'Cancel' buttons. Below that is a 'Catalog Search Results' section with 'Page 1 of 1 < Previous Next' navigation. A table of 'Available Solutions' is shown, with the first row highlighted in red. The 'Owner' column of this table is also highlighted in red. A 'Solution Details' pop-up window is overlaid on the right side, containing fields for Solution Id, Date Entered, Solution, Last Updated, Part #, Stock #, Part Name, Mfr, Type/Size, Addl Doc#, Eval #, Description, Comments, Attachments, and Contact Information. The 'Owner' field in the 'Available Solutions' table and the 'Solution Details' pop-up are highlighted with red boxes.

Description:
Comments: ROSEMOUNT RECOMMENDS EITHER THE 1152 OR 3051S SERIES AS REPLACEMENT OPTIONS. THE 3051S IS NOT SUITABLE FOR LOW RADIATION ENVIRONMENTS, IN LOW RADIATION ENVIRONMENTS THE 1152 SERIES WOULD BE THE RECOMMENDED REPLACEMENT. THERE IS NO DIRECT REPLACEMENT FOR THIS MODEL AND EXACT REPLACEMENT MODEL NUMBER WOULD BE BASED ON APPLICATION AND CONFIGURATION OF THE EXISTING UNIT.

How else do we work together?

- Picture to log in to RAPID from POMS (under the tools menu)

The screenshot shows the POMS (Proactive Obsolescence Management System) interface. The top navigation bar includes the POMS logo, a search bar, and links for 'Change Info', 'Log Out', and 'Live Chat'. The main navigation menu includes 'Home', 'Reports', 'Search', 'Results', 'Obsolescence Manager', 'Tools', 'Help', and 'Feedback'. The 'Tools' menu is expanded, showing a list of options: 'Catalog Health', 'CMIS Lite', 'Critical Spares', 'Industry Obsolescence Index', 'PM Demand', 'PM Preventive Maintenance', 'Work Planning Optimization', and 'rapidpartsmart.com'. The 'rapidpartsmart.com' link is highlighted with a red box. The main content area shows 'My Obsolescence' with a welcome message and 'PM Forecasting' with 'Near-Term PM Impacts By Site:'.

How else do we work together?

- Picture of RAPID with the POMS link to get in to POMS

The screenshot displays the RAPID website interface. At the top, there is a navigation bar with the RAPID logo, a search bar, and a 'Welcome:' section with links for 'Your Account | Sign out' and 'How can we help?'. Below the navigation bar, there is a 'What's New In Obsolence' section with a table of parts. To the right, there is an 'Upcoming Events' section listing various conferences and training courses. At the bottom, there is a 'My Watchlist' section and an 'Obsolence Toolkit' section. The 'Obsolence Toolkit' section has a red box around the 'POMS' link, which is highlighted in blue. Below the 'POMS' link, there are links for 'Impact Report', 'Fleet Level Reports', and 'Industry Level Reports'.

Pooling and SEER Integration?

Inventory Pooling is a managed service by Rolls-Royce to optimize and share inventory across utilities with the ultimate goal of utilizing and reducing inventory across the industry.

Seer provides visibility from within a utility's ERP system to potentially duplicated stock codes and as well as to alternative sourcing options from industry inventory.

Contingency Parts Manager facilitates the reservation of inventory between utilities to mitigate inventory growth from contingent purchases.
