A ROADMAP FOR **GROWTH**

#vision2016

Introducing:

- **Ben O'Neill**
Uber
- **Michael Myers**
Experian

Vive la Revolution!

Industrial Revolution

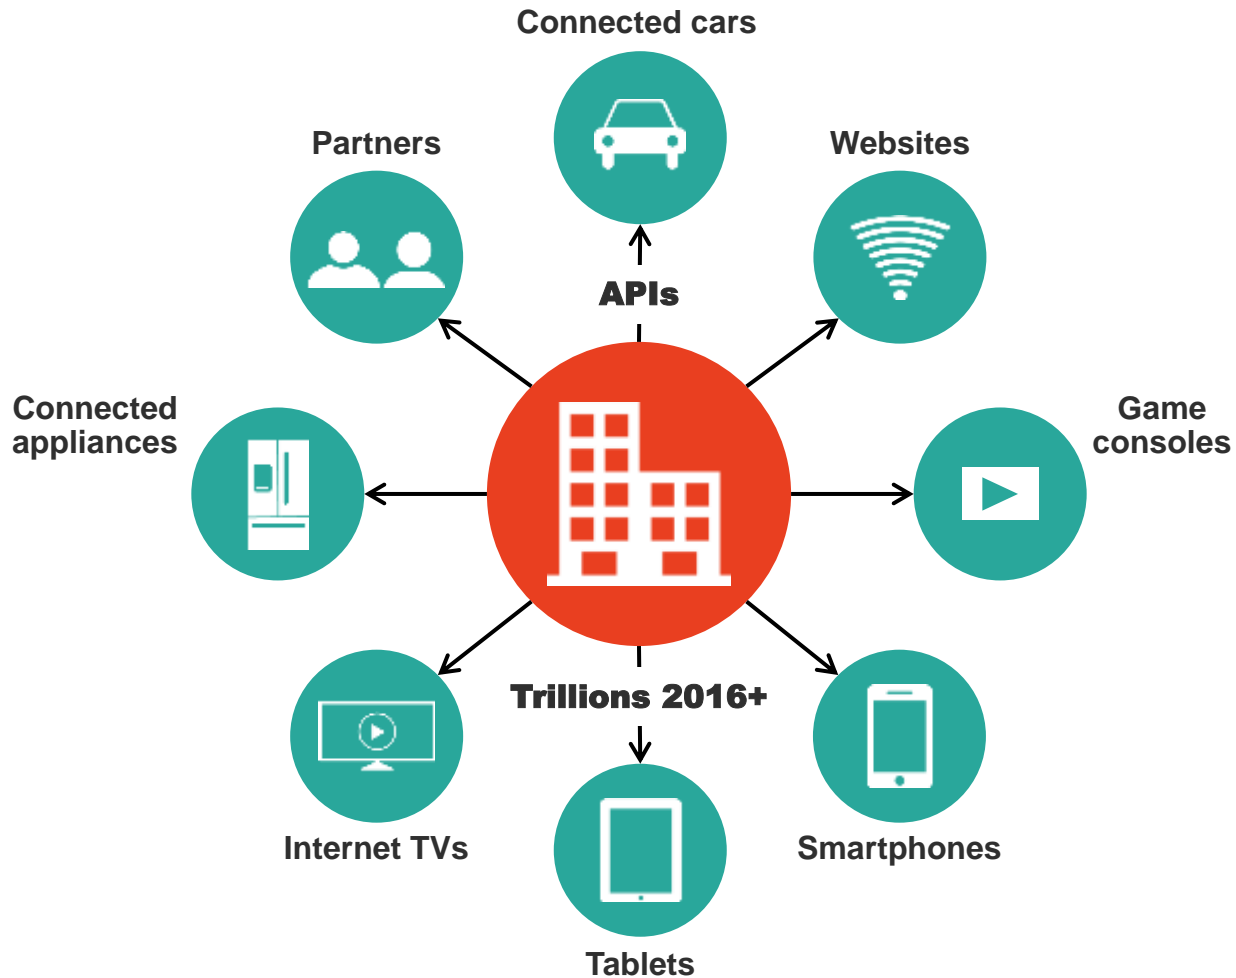

Digital Revolution fueled by APIs

Vive la Revolution!

World population?

7.3 Billion

**By 2020, there will be over
26 billion connected devices** — *Gartner*

Why APIs?

APIs can be defined as any software interface exposed over the Web in order to facilitate integration and development

- **Salesforce.com** generates 50% of its revenues through APIs
- **Expedia.com** generates 90%
- **eBay** generates 60%

The Strategic Value of APIs, HBR, Jan 2015

Walgreens opened its photo printing to the outside world through APIs

- Printicular was created by a third party
- Walgreens enhanced overall customer engagement with its retail stores
- Revenues per customer were six times greater for those who interacted with the app

IBM opened Watson access through APIs to the entire world

- A way to attract ideas from third parties and develop new services
- Now the leader in providing physicians and nurse practitioners with information on symptoms, diagnosis, and treatment approaches in the oncology field
- Creating new ecosystems – recipe making, shopping and travel
- IBM has set aside a billion dollars to commercialize Watson's potential through APIs

HOW DID WE GET HERE?

“ It does not require a majority to prevail, but rather an irate, tireless minority keen to set brush fires in people's minds. ”

— Samuel Adams

What does it take to spark a revolution?

1. **Desire / demand**
2. **Resources**
3. **Innovation**

The explosion of the Internet was an extension of the digital revolution

Desire / demand

- Web presence, Email and online shopping

Resources

- PC's in every home

Innovation

- Browsers
- Bandwidth / speed

— VISION 2016 —

TAKE CONTROL
A ROADMAP FOR **GROWTH**

#vision2016

The latest phase of the Digital Revolution is being fueled by APIs

Desire / demand

- Data integration, apps and availability

Resources

- Data, exposed services and the Cloud

Innovation

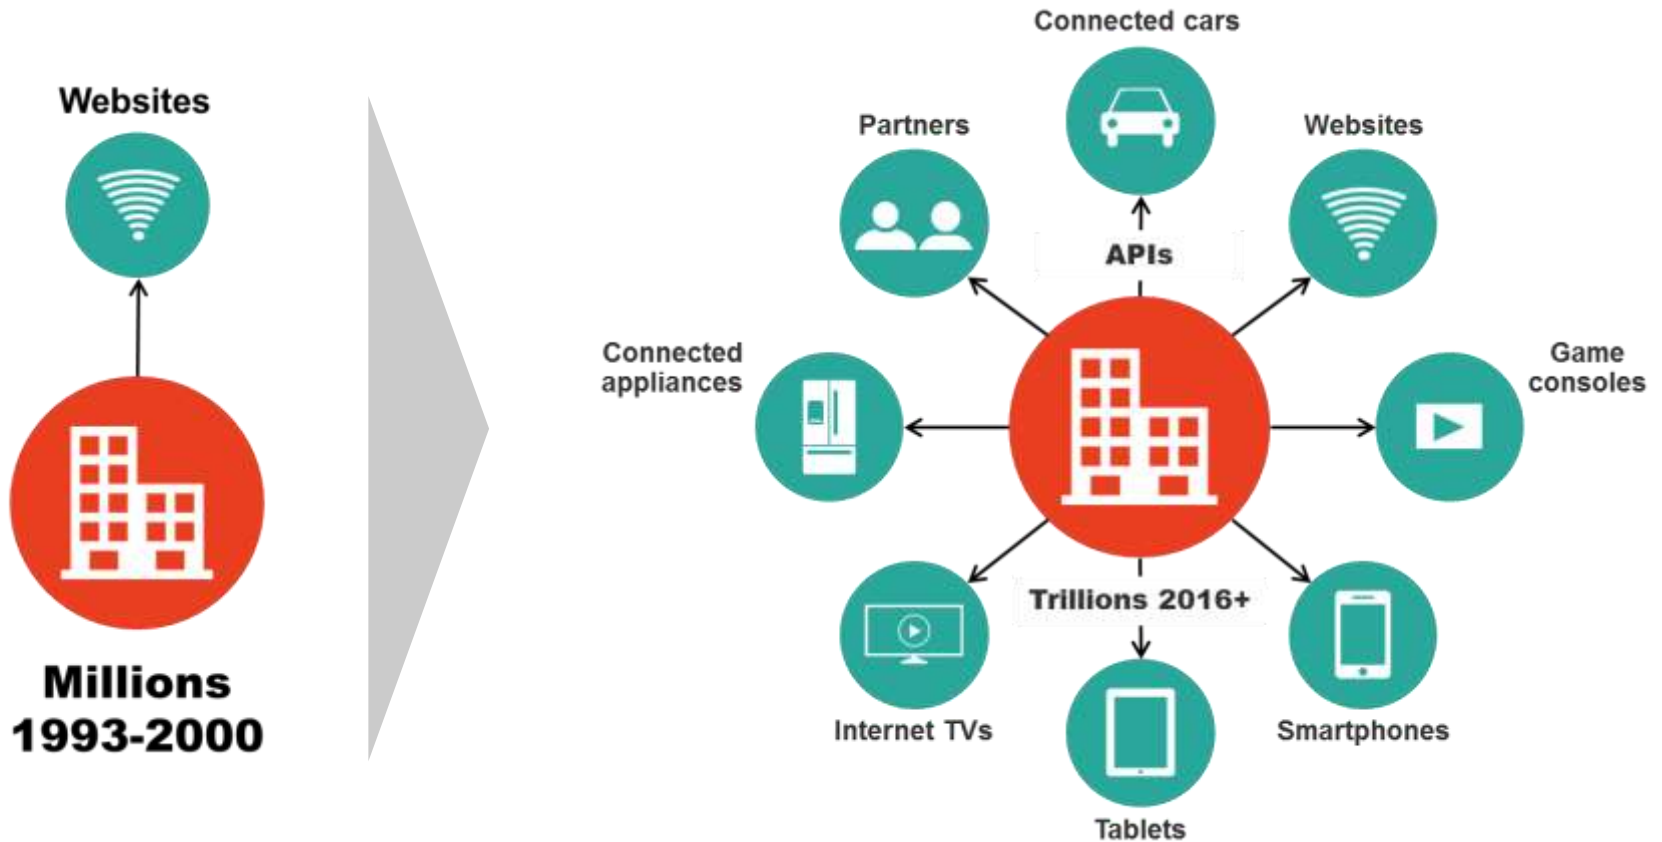

- Apps, mobile and APIs

The API economy is the latest extension of the Digital Revolution

“By 2020, there will be over 26 billion connected devices.”

— Gartner

Priorities

- Sales team: Quick decisions
- Customers: Adequate credit lines
- Uber: Manage credit and default risk

Key factors

- Fast growing Uber for Business platform
- Efficiency and transparency of credit requests
- Scalable, self-service to sales team
- Salesforce integration

Case study

Uber

UBER

Solution

- Experian FusionIQ™
- Automated decisioning
- Easy integration with Salesforce.com
- Single platform supports Uber's global operations

Lessons learned

- Customer experience
 - ▶ Speed
 - ▶ Adequate credit lines
- Efficiency and predictability
 - ▶ Scalability
 - ▶ Price for risk and return
- Transparency to sales team
 - ▶ No longer a black box
 - ▶ Role in process

Future vision

- Continued international expansion
- Ongoing account review and optimization
- Integrated decisioning with proprietary data
- Multi-level decision tree capability

Experian FusionIQ™

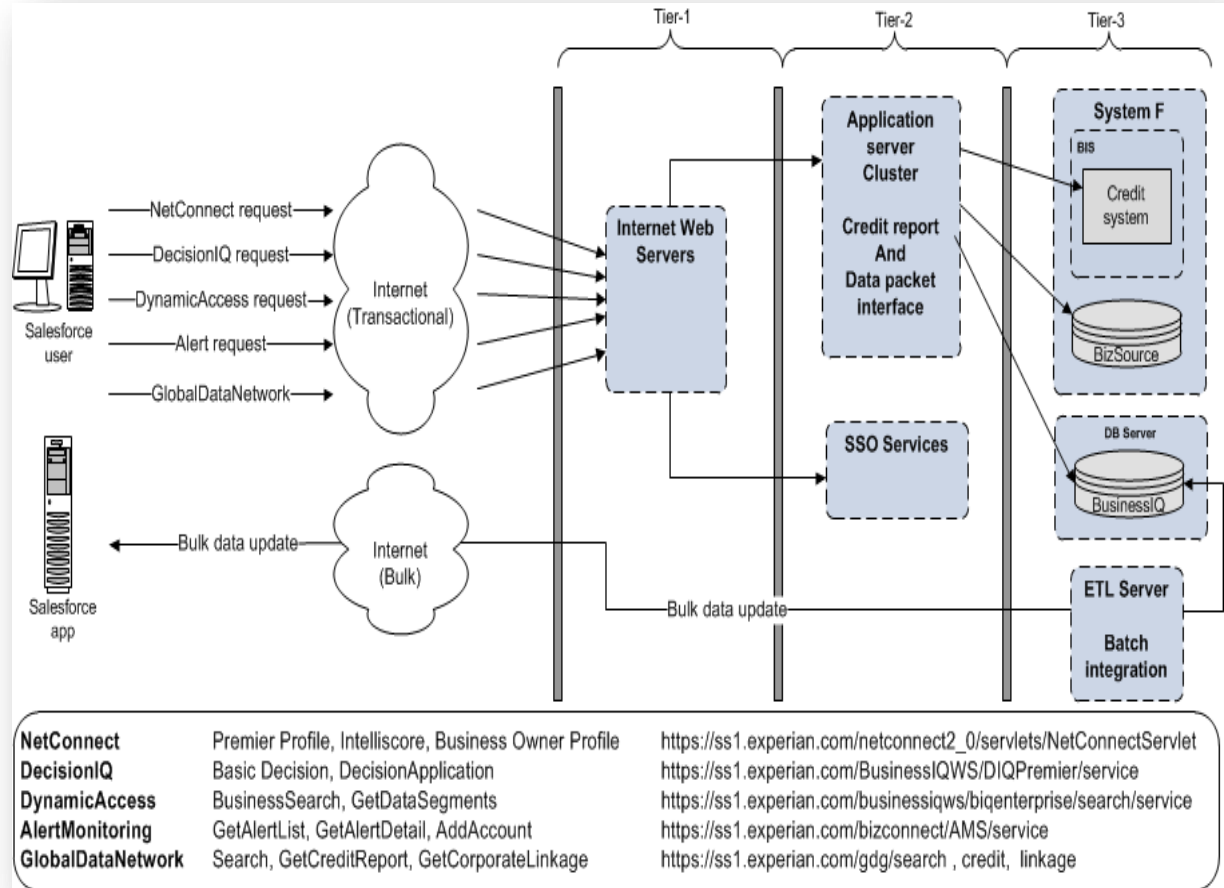

Experian FusionIQ™

Experian FusionIQ™

- Increased prospect and client requests for BI data via SFDC
- Agile development with technical partner:
 - ▶ Numerous iterations
 - ▶ Prospect beta within 90 days
 - ▶ Production ready within 120 days
- Leverages existing BIS APIs and BusinessIQSM administration capabilities
- Provides credit management capabilities and a BusinessIQSM experience within SFDC, no coding required

The future or the now?

What's On A Billion Minds, Right Now

The visualization of spikes in social media activity--currently only used internally at banjo, where it's displayed on huge screens in both of its offices--was drawn from all public geolocated posts in Patton's "world feed" on February 20, 2015, at 4:55p.m. Pacific Time. The colors on the spikes are configurable to represent separate events, though here the different hues are merely for clarity; any one of them can be touched onscreen to see current posts for that location. At this particular moment, the following events caused some of the larger local upticks: London Fashion Week; a fire engulfing Dubai's Torch Tower; Miami's South Beach Wine & Food Festival; and an accident involving an overturned tanker truck on I-75 in Turner County, Alabama.

Global API hub

Desire: The desire exists – integration, availability and the efficiency of aggregating instead of compiling

Resources: The resources are in place - data, exposed services and the Cloud

Innovation: Innovation is everywhere - connected devices, Apps and exposed APIs

The power of Experian data assets via one API hub:

Share your thoughts about Vision 2016!

Please take the time now to give us your feedback about this session. You can complete the survey in the mobile app or request a paper survey.

1 Select the Survey button and complete

2 Select the breakout session you attended

Vision Conference
Breakout Session Survey

Experian

1. How would you rate the presenters' knowledge?
 Excellent Above average Average Below average Poor

2. How would you rate the presenters' delivery?
 Excellent Above average Average Below average Poor

3. How would you rate the presenters' time management?
 Excellent Above average Average Below average Poor

4. How useful was the session information?
 Very useful Somewhat useful Neutral
 Somewhat not useful Not useful

5. How would you rate the session on being current?
 Very current Somewhat current Neutral
 Somewhat not current Not current

6. How relevant was the session content to the title and description?
 Very relevant Somewhat relevant Neutral
 Somewhat not relevant Not relevant

7. How would you rate the level of content?
 Too advanced Just right Too basic

8. Why did you attend this session? (Check all that apply)
 Relates to my business The presenter(s) Interest in new product
 Compelling session description Increase product knowledge

9. Do you have any additional comments?
