Integrated care case Finland

Anne Kallio
MSAH Finland
Health and social care reform in Finland
- integration of health care and welfare services

Now
• Municipalities (317) organise and fund
  • primary and secondary health care
    • 170 health care centres
    • 20 municipality owned hospital districts
    • 5 university hospital districts
  • welfare services
• employers organise
  • preventive occupational health care
• private health care appr 25%

By 2019
- 15 regions organize
  – primary and secondary health care
  – welfare services
  – providers are public or private
- funding by state
