

GE Presentation Outline

2018 501F Users Conference

Framework for continuous development

Iterative approach to development & execution, enabling capability on a fleet with wide variation

Case Studies: Growth through Experience

Summary of approach, observations and insights for work completed over the past year

Services Execution

- ✓ Outage Execution References
- ✓ Combustion Inspection
- ✓ Wet Compression Commissioning
- ✓ Tool development to reduce outage duration
- ✓ Generator inspection with DIRIS

Repairs

- ✓ S1B Repair
- ✓ S1V Cooling
- ✓ HGP Repair
- ✓ LifeSight

Parts & Performance

- ✓ Combustion hardware design and testing
- ✓ S2 Blade Fix
- ✓ Path to 32k with performance
- ✓ Technology Roadmap
