Biography

Kyle Nash is the Nuclear Strategic Sourcing Manager for SCANA Corporation, the parent company of SCE&G. He has 17 years of procurement experience and is in his fourth year at V.C. Summer Nuclear Station where he is guiding the sourcing team in the transition from a single to a multi-unit plant. In addition to his role at V.C. Summer, Kyle leads a Strategic Leveraging Team that develops sourcing initiatives across multiple business units within SCANA. Kyle has BS and MS degrees in Aerospace Engineering as well as an MBA from The University of Alabama.

Abstract – Procurement Issues for New Builds

This presentation will begin with a current status of new construction activities at V.C. Summer Nuclear Station, and will then be followed by a discussion of some of the key procurement issues for new nuclear builds and how these challenges are being handled at VCS. Issues covered will be both from a construction materials oversight standpoint as well as those relating to development of a spare parts inventory to support operation.
