

## Purifying the essentials of life.

With an extensive range of leading edge water purification and separation technologies, a global presence second to none, and the most complete portfolio in the industry today, Dow is here to help you solve problems and move continually forward.

### HIGH-SOLIDS FILTERS

### ULTRAFILTRATION MODULES AND SKIDS

### REVERSE OSMOSIS AND NANOFILTRATION ELEMENTS

### ION EXCHANGE RESINS

## About Dow Water & Process Solutions

Dow Water & Process Solutions (DW&PS), a business unit of The Dow Chemical Company, has the industry's broadest and deepest range of advanced separation and purification technologies. We are market leaders in reverse osmosis and ion exchange resins, and a growing force in filtration. Dow technologies process about 15 million gallons of water every minute. This equals more than 3 gallons a day for every person in the world.
