

## Ripple Mapping Discussion

### Unexpected things

- Higher ground going against world of corporate interest that are hell-bent on development & flooding people
- university institutes stacked w/ developers

## OBSERVATION

### Ripple Mapping:

Would be ideal to hear from a community group/org who went thru process & found value.

Are there resources available to carry out Ripple Mapping? Grassroots groups often don't have \$ for outside facilitators, (or access to), computer savvy, ~~it~~ data gathering, compilation & coding.
