THEME

From Start-up to Scale-up: Coping with Organizational Challenges in a Volatile Business Environment

Sponsored by:

*Tel Aviv University
Technion-Israel Institute of Technology
Hebrew University of Jerusalem*

Co-developed with the following AOM Divisions & Interest Groups:

*Entrepreneurship
International Management
Organization and Management Theory
Organizational Behavior
Strategic Management
Technology and Innovation Management*

This specialized AOM conference features research on the unique organizational challenges of start-up firms and entrepreneurial corporations that seek to grow within and beyond their established markets. Understanding the multifaceted, complex trajectory from start-up to scale-up is not only of relevance to management practitioners, but also an important frontier for management research. While start-ups are a critical source of economic growth and novelty in the way we work and organize, many start-ups fail to develop into larger organizations. Management research provides limited insight into the factors that enable successful transitions. This conference provides a platform for sharing knowledge from research and practice in a comprehensive program of paper presentations, active learning workshops, panel discussions, industry expert panels, company visits, and networking opportunities. The multidisciplinary conference encompasses 6 research perspectives, co-developed with the following AOM Divisions & Interest Groups: ENT, IM, OB, OMT, STR, and TIM. We invite research associated with these divisions, as well as industry experts, strategists, entrepreneurs, venture capital experts, and policy makers to join us in what promises to be a stimulating meeting in “The Startup Nation.”

This conference is distinct from other conferences given the unique theme and the unique match between the theme and local setting in Israel, the Start-up Nation, which is known for its dynamic start-up scene that boasts one of the largest number of start-up companies in the world.

Policies, Rules, and Ethics

NOTE: It is the responsibility of each participant to understand and follow these Rules.

Rule of One for Papers and Symposia

Submissions can only belong to one of the six program topics. Submitters must select the topic that best fits their submission.

Rule of Three for Papers, Symposia, and Professional Development Workshops

Each submitter is allowed to enter a maximum of three total submissions in any combination, regardless of submission type. Examples: Two papers and one symposium; one paper, one symposium, and one workshop; two workshops and one paper, etc. This process both enables a smooth scheduling process and ensures broad program participation.

Submissions must be completed and finalized by the submission deadline. Incomplete submissions will not be reviewed. Changes to the submissions are not allowed after the submission deadline. Late submissions will not be accepted.

AOM Code of Ethics

Conference participants should notify appropriate Track Co-chairs or conference organizers regarding the practices or actions of members they believe may violate Academy policies, rules, or general standards of ethical conduct. Standards of conduct that are relevant to participation in the AOM Specialized Conference are summarized below. The AOM Code of Ethics applies to members and nonmembers participating in Academy activities including conferences. More information about the AOM's professional norms on conference presentations can also be found on the Ethics Video Series on the [AOM's YouTube channel](#).

- ❖ **Participation.** To encourage meaningful exchange, Academy members should foster a climate of free interchange and constructive criticism within the Academy and be willing to share research findings and insights fully with other conference attendees.
- ❖ **Original Work and Unpublished Work.** At the time of submission, submitted papers must not have been previously scheduled for presentation or must not be under simultaneous review for other conferences. Submitted papers must not have been published or accepted for publication. If a paper is under review, it must NOT appear in print before the conference.
- ❖ **Attendance and Commitments.** If your proposal is accepted for presentation, the participant(s) attending to present the research, or participate on a panel or in a workshop MUST be registered to attend the conference. The Academy is a voluntary association whose existence and operations are dependent on cooperation,

involvement, and leadership from its members. Conference attendees should honor all professional commitments, including presentation of accepted papers and participation in scheduled roles, such as chair, discussant, or panelist. Program participants are required to personally present their submission. If absence from a scheduled meeting is unavoidable, presenters must contact appropriate individuals and pursue suitable alternative arrangements. Leaders have the same responsibilities and should perform their obligations and responsibilities in a timely, diligent, and sensitive manner, without regard to friendships or personal gain. Program participants are NOT required to be AOM members.

- ❖ **Rigorous Scholarship.** It is the duty of Academy members and presenters conducting research to design, implement, analyze, report, and present their findings rigorously. Research rigor includes careful design, execution, analysis, interpretation of results, and retention of data. Presentation of research should include treatment of the data that is honest and that reveals both strengths and weaknesses of findings.

Authorship and credit should be shared in correct proportion to the various parties' contributions. Whether published or not, ideas or concepts derived from others should be acknowledged, as should advice and assistance received. Authors should also guard against plagiarizing the work of others. Plagiarism is defined as: The failure to give sufficient attribution to the words, ideas, or data of others that have been incorporated into a work, which an author submits for academic credit or other benefit. Attribution is sufficient if it adequately informs and, therefore, does not materially mislead a reasonable reader as to the source of the words, ideas, or data. Attribution (or the lack thereof) is materially misleading if it could cause a reasonable reader to be mistaken as to the source of the words, ideas, or data in a way that could benefit the author submitting the work. (Worthen, 2004: 444. *Italic for emphasis added*).

Submission Guidelines & Formatting Requirements

The formatting guidelines vary based upon the submission type. To assist with ensuring your proposal complies with the guidelines, please consider using the checklist. It is the submitter's responsibility to ensure the uploaded proposal complies with all submission guidelines, style formatting, policies, and rules prior to finalizing the submission.

Paper Proposal

A **paper proposal** refers to an abbreviated, developmental or unfinished paper on a scholarly topic. The paper proposal topic must fit within the context of the conference theme and be aligned with one of the conference topics.

IMPORTANT: If accepted, submitters will be asked to submit a full, 40-page manuscript by October 15, 2018, which will only be shared with session discussants.

REVIEWER INFORMATION

Call for Reviewers

The AOM Specialized Conference on Start-up to Scale-up is recruiting reviewers. If you plan to submit your proposal, you are strongly encouraged to sign up as a volunteer reviewer. Sign up will become available when the submission and reviewer system opens.

We recommend reading the reviewer guidelines to familiarize yourself with the process and review expectations. Thank you in advance for the service you are willing to offer as a reviewer and we hope to see you in Tel Aviv, Israel in December of 2018.

Reviewer Topics

Volunteer reviewers will be asked to select, from the conference themes below, all topics that apply to their area(s) of expertise when signing up to review for the Start-up to Scale-up conference:

- ❖ Entrepreneurship
- ❖ International Management
- ❖ Organization and Management Theory
- ❖ Organizational Behavior
- ❖ Strategic Management
- ❖ Technology and Innovation Management

Benefits of Reviewing for the AOM Start-up to Scale-up Conference

- ❖ Reviewing is a way to learn about what constitutes excellent, innovative, and interesting work.
- ❖ Reviewers gain visibility for themselves and their institutions.
- ❖ Reviewing gives you an opportunity to contribute to the program planning process.
- ❖ Reviewing is a way to give back to your professional community.

We encourage you to volunteer to review for the topics for which you have the most expertise. Each proposal that you review will be a maximum of 7 pages in length. Sign up to review for the AOM Start-up to Scale-up Conference today!

The number of proposals you receive to review will be limited to help ensure high-quality reviews. The reviewer period begins in early June and you will be required to complete your assigned reviews in mid-June 2018, so please plan your time accordingly. Please submit your review(s) by the deadline.

Reviewer Guidelines

We offer these reviewing guidelines to provide guidance on the type of feedback to provide to submitters in your review comments. Your constructive feedback is essential to support submitters as well as your colleagues attending the AOM Start-up to Scale-up Conference. The quality of the program is strongly influenced by your reviews.

General Areas to Cover

In addition to commenting on the theoretical development of a proposal and the technical correctness of the methodology, you should also consider the overall value-added contribution the proposal offers. Does the proposal pass the “so what” test? Consider if the proposal has practical value, and comment on its implications for the practice community.

- ❖ Does the proposal reflect the overall level of quality an audience would expect?
- ❖ Is the proposal of interest to a sufficient number of conference attendees?
- ❖ Does the proposal offer sufficient innovation and contribution?

Setting the Tone of the Review

- ❖ Authors must be treated with respect, regardless of your evaluation of their work.
- ❖ Keep your comments constructive. Provide the authors with constructive ideas to improve their proposal as they develop their research.
- ❖ Identify the strengths of a proposal.
- ❖ Help authors further develop their research by identifying areas of weakness in a proposal but also provide specific guidance on how the authors might address the limitations you have noted. The more specificity you provide in your review, the more likely it is that the authors will benefit from your efforts.
- ❖ Be open-minded to different authors using different theoretical frameworks. Judge proposals based on how well they stimulate thinking and discussion. Also, keep in mind that submitters come from varying disciplinary backgrounds and research traditions with diverse theoretical and methodological orientations.

Review Format

- ❖ To protect the integrity of the “double-blind” review process, do NOT provide information in your review that reveals your identity and do NOT seek to discover the identity of the authors.
- ❖ Provide a structured review by separating and numbering comments. Where appropriate, cite specific page numbers, passages, tables, and figures in your review.
- ❖ If you are uncertain about your comments in terms of some aspects of your review, please do your best to determine the accuracy of your position. Remember the quality of your review will help determine if the proposal is accepted or rejected for the program.

DISCUSSANT INFORMATION

Call for Discussants

The AOM Specialized Conference on Start-up to Scale-up is also recruiting session discussants at this time. If you are submitting a proposal, or would like an opportunity to participate at the conference without submitting, you are invited to sign up to serve as a session discussant. Sign up will become available when the submission and reviewer system opens.

Role of Discussant

Session discussants play an important role in tying papers together, engaging the audience in discussion, and ensuring that each presenter receives valuable feedback. We ask discussants to prepare feedback and allow time in the session to discuss the papers at the end.

Paper sessions are designed to last 90 minutes and include 3 to 5 papers. You will also act as a timekeeper and make sure that everyone gets equal time to present. Your role is not to dominate the discussion, but to maximize the available time for Q&As and general discussion, and involve the participating authors and audience as much as possible.

As a discussant, you will highlight each study's main ideas, strengths and weaknesses, and overall contribution with the aim for paper sessions to be as interesting, stimulating, and engaging as possible.
