How to Keep people involved over time After a disaster?

- find the "hook": look at city council agenda and/or other things going on in the community = multiple re-entry points
- messaging ⇒ for e.g. the urgency + need for input, like CGBDR dollars
⇒ things happening all the time and the importance of the "long-term" game is influenced by "consistent input"
- developing plans to respond to multiple threats (i.e. ICE, etc.) getting prepared for "immediate response" understanding what a social justice org. is "Staying Ready"
- Sustaining CBOs post-disaster with resources
- create intersectionality among "NON enviro" groups
↳ NON-traditional groups
- culture of care in workplace
- coalitions sharing the burden + overlapping interests
